The National Defense Stockpile program is managed under the authority of the Strategic and Critical Materials Stockpiling Act. The purpose of the Stockpile is to decrease or preclude U.S. dependence on foreign sources for supplies of strategic and critical materials in times of national emergency.

Revenues from the sales of excess commodities are either deposited into the National Defense Stockpile Transaction Fund to finance the National Defense Stockpile program or are transferred to the Treasury for specific congressionally mandated programs or to reduce the deficit.

Section 662 of the National Defense Authorization Act for 1992 and 1993, Public Law 102-190, established the Voluntary Separation Incentive (VSI) Fund to more effectively manage and account for the costs of the Voluntary Separation Incentive program. The VSI program provides annual payments to former active-duty servicemembers who voluntarily left service after serving more than six but less than 20 years. For all members who left service after December 31, 1992, the Department of Defense was required to deposit the total present value of their future VSI benefits into the VSI fund by the time authority to approve VSI benefits ended on December 31, 2001. DOD was also required to cover the unfunded benefits of former members who separated before January 1, 1993 through yearly, actuarially-determined

Government contributions from the DOD military personnel appropriations. Permanent authority to make these payments is contained in section 8044 of the 1997 Defense Appropriations Act. The fund also receives interest on its investments.

Section 2350k of U.S.C. Title 10 established a trust fund for cash contributions from any nation in support of relocation of elements of the Armed Forces from or to any location within that nation. The Host Nation Support for Relocation account is financed through these cash contributions and interest accrued on the cash balances. Funds may be used to defray costs incurred in connection with the relocation for which the contribution was made.

This fund was established in 1992 as a result of the consolidation of Defense Commissaries. The trust fund pays commissary costs to acquire (including leases), construct, convert, expand, improve, repair, maintain, and equip the physical infrastructure of commissary stores and central processing facilities of the Defense Commissary system. Surcharge funds are also utilized for real property, environmental evaluation, and construction costs including costs for surveys, administration, overhead, planning, and design. Title 10 of the United States Code prescribes costs which may be financed by the trust fund.

SEC. 103. Funds made available in this title for construction may be used for advances to the Federal Highway Administration, Department of Transportation, for the construction of access roads as authorized by section 210 of title 23, United States Code, when projects authorized therein are certified as important to the national defense by the Secretary of Defense.

SEC. 104. None of the funds made available in this title may be used to begin construction of new bases in the United States for which specific appropriations have not been made.

SEC. 105. None of the funds made available in this title shall be used for purchase of land or land easements in excess of 100 percent of the value as determined by the Army Corps of Engineers or the Naval Facilities Engineering Command, except: (1) where there is a determination of value by a Federal court; (2) purchases negotiated by the Attorney General or the designee of the Attorney General; (3) where the estimated value is less than \$25,000; or (4) as otherwise determined by the Secretary of Defense to be in the public interest.

SEC. 106. None of the funds made available in this title shall be used to: (1) acquire land; (2) provide for site preparation; or (3) install utilities for any family housing, except housing for which funds have been made available in annual Acts making appropriations for military construction.

SEC. 107. None of the funds made available in this title for minor construction may be used to transfer or relocate any activity from one base or installation to another, without prior notification to the Committees on Appropriations of both Houses of Congress.

SEC. 108. None of the funds made available in this title may be used for the procurement of steel for any construction project or activity for which American steel producers, fabricators, and manufacturers have been denied the opportunity to compete for such steel procurement.

SEC. 109. None of the funds available to the Department of Defense for military construction or family housing during the current fiscal year may be used to pay real property taxes in any foreign nation.

SEC. 110. None of the funds made available in this title may be used to initiate a new installation overseas without prior notification to the Committees on Appropriations of both Houses of Congress.

【SEC. 111. None of the funds made available in this title may be obligated for architect and engineer contracts estimated by the Government to exceed \$500,000 for projects to be accomplished in Japan, in any North Atlantic Treaty Organization member country, or in countries bordering the Arabian Sea, unless such contracts are awarded to United States firms or United States firms in joint venture with host nation firms.】

SEC. 【112】111. None of the funds made available in this title for military construction in the United States territories and possessions in the Pacific and on Kwajalein Atoll, or in countries bordering the Arabian Sea, may be used to award any contract estimated by the Government to exceed \$1,000,000 to a foreign contractor: *Provided*, That this section shall not be applicable to contract awards for which the lowest responsive and responsible bid of a United States contractor exceeds the lowest responsive and responsible bid of a foreign contractor by greater than 20 percent: *Provided further*, That this section shall not apply to contract awards for military construction on Kwajalein Atoll for which the lowest responsive and responsible bid is submitted by a Marshallese contractor.

【SEC. 113. The Secretary of Defense shall inform the appropriate committees of both Houses of Congress, including the Committees on Appropriations, of plans and scope of any proposed military exercise involving United States personnel 30 days prior to its occurring, if amounts expended for construction, either temporary or permanent, are anticipated to exceed \$100,000.】

【SEC. 114. Not more than 20 percent of the funds made available in this title which are limited for obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year.】

SEC. 【115】112. Funds appropriated to the Department of Defense for construction in prior years shall be available for construction authorized for each such military department by the authorizations enacted into law during the current session of Congress.

SEC. 【116】113. For military construction or family housing projects that are being completed with funds otherwise expired or lapsed for obligation, expired or lapsed funds may be used to pay the cost of associated supervision, inspection, overhead, engineering and design on those projects and on subsequent claims, if any.

SEC. 【117】114. Notwithstanding any other provision of law, any funds made available to a military department or defense agency for the construction of military projects may be obligated for a military construction project or contract, or for any portion of such a project or contract, at any time before the end of the fourth fiscal year after the fiscal year for which funds for such project were made available, if the funds obligated for such project: (1) are obligated from funds available for military construction projects; and (2) do not exceed the amount appropriated for such project, plus any amount by which the cost of such project is increased pursuant to law.

【(INCLUDING TRANSFER OF FUNDS)】

【SEC. 118. In addition to any other transfer authority available to the Department of Defense, proceeds deposited to the Department of Defense Base Closure Account established by section 207(a)(1) of the Defense Authorization Amendments and Base Closure and Realignment Act (10 U.S.C. 2687 note) pursuant to section 207(a)(2)(C) of such Act, may be transferred to the account established by section 2906(a)(1) of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note), to be merged with, and to be available for the same purposes and the same time period as that account.】

(INCLUDING TRANSFER OF FUNDS)

SEC. 【119】115. Subject to 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883 of title 10, United States Code, to the Committees on Appropriations of both Houses of Congress, such additional amounts as may be determined by the Secretary of Defense may be transferred to: (1) the Department of Defense Family Housing Improvement Fund from amounts appropriated for construction in "Family Housing" accounts, to be merged with and to be available for the same purposes and for the same period of time as amounts appropriated directly to the Fund; or (2) the Department of Defense Military Unaccompanied Housing Improvement Fund from amounts appropriated for construction of military unaccompanied housing in "Military Construction" accounts, to be merged with and to be available for the same purposes and for the same period of time as amounts appropriated directly to the Fund: *Provided*, That appropriations made available to the Funds shall be available to cover the costs, as defined in section 502(5) of the Congressional Budget Act of 1974, of direct loans or loan guarantees issued by the Department of Defense pursuant to the provisions of subchapter IV of chapter 169 of title 10, United States Code, pertaining to alternative means of acquiring and improving military family housing, military unaccompanied housing, and supporting facilities.

(INCLUDING TRANSFER OF FUNDS)

SEC. 【120】116. In addition to any other transfer authority available to the Department of Defense, amounts may be transferred from the 【accounts】*account* established by 【sections】 *section* 2906(a)(1) 【and 2906A(a)(1)】 of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note), *as amended by section 2711 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239)*, to the fund established by section 1013(d) of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3374) to pay for expenses associated with the Homeowners Assistance Program incurred under 42 U.S.C. 3374(a)(1)(A). Any amounts transferred shall be merged with and be available for the same purposes and for the same time period as the fund to which transferred.

SEC. 【121】117. Notwithstanding any other provision of law, funds made available in this title for operation and maintenance of family housing shall be the exclusive source of funds for repair and maintenance of all family housing units, including general or flag officer quarters: *Provided*, That not more than \$35,000 per unit may be spent annually for the maintenance and repair of any general or flag officer quarters without 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883 of title 10, United States Code, to the Committees on Appropriations of both Houses of Congress, except that an after-the-fact notification shall be submitted if the limitation is exceeded solely due to costs associated with environmental remediation that could not be reasonably anticipated at the time of the budget submission: *Provided further*, That the Under Secretary of Defense (Comptroller) is to report annually to the Committees on Appropriations of both Houses of Congress all operation and maintenance expenditures for each individual general or flag officer quarters for the prior fiscal year.

SEC. 【122】118. Amounts contained in the Ford Island Improvement Account established by subsection (h) of section 2814 of title 10, United States Code, are appropriated and shall be available until expended for the purposes specified in subsection (i)(1) of such section or until transferred pursuant to subsection (i)(3) of such section.

【SEC. 123. None of the funds made available in this title, or in any Act making appropriations for military construction which remain available for obligation, may be obligated or expended to carry out a military construction, land acquisition, or family housing project at or for a military installation approved for closure, or at a military installation for the

purposes of supporting a function that has been approved for realignment to another installation, in 2005 under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101–510; 10 U.S.C. 2687 note), unless such a project at a military installation approved for realignment will support a continuing mission or function at that installation or a new mission or function that is planned for that installation, or unless the Secretary of Defense certifies that the cost to the United States of carrying out such project would be less than the cost to the United States of cancelling such project, or if the project is at an active component base that shall be established as an enclave or in the case of projects having multi-agency use, that another Government agency has indicated it will assume ownership of the completed project. The Secretary of Defense may not transfer funds made available as a result of this limitation from any military construction project, land acquisition, or family housing project to another account or use such funds for another purpose or project without the prior approval of the Committees on Appropriations of both Houses of Congress. This section shall not apply to military construction projects, land acquisition, or family housing projects for which the project is vital to the national security or the protection of health, safety, or environmental quality: *Provided*, That the Secretary of Defense shall notify the congressional defense committees within 7 days of a decision to carry out such a military construction project. ]

(INCLUDING TRANSFER OF FUNDS)

SEC. [124] 119. During the 5-year period after appropriations available in this Act to the Department of Defense for military construction and family housing operation and maintenance and construction have expired for obligation, upon a determination that such appropriations will not be necessary for the liquidation of obligations or for making authorized adjustments to such appropriations for obligations incurred during the period of availability of such appropriations, unobligated balances of such appropriations may be transferred into the appropriation "Foreign Currency Fluctuations, Construction, Defense", to be merged with and to be available for the same time period and for the same purposes as the appropriation to which transferred.

[SEC. 125. (a) Except as provided in subsection (b), none of the funds made available in this Act may be used by the Secretary of the Army to relocate a unit in the Army that—

(1) performs a testing mission or function that is not performed by any other unit in the Army and is specifically stipulated in title 10, United States Code; and

(2) is located at a military installation at which the total number of civilian employees of the Department of the Army and Army contractor personnel employed exceeds 10 percent of the total number of members of the regular and reserve components of the Army assigned to the installation.

(b) EXCEPTION.—Subsection (a) shall not apply if the Secretary of the Army certifies to the congressional defense committees that in proposing the relocation of the unit of the Army, the Secretary complied with Army Regulation 5–10 relating to the policy, procedures, and responsibilities for Army stationing actions. ]

[SEC. 126. Amounts appropriated or otherwise made available in an account funded under the headings in this title may be transferred among projects and activities within the account in accordance with the reprogramming guidelines for military construction and family housing construction contained in Department of Defense Financial Management Regulation 7000.14-R, Volume 3, Chapter 7, of February 2009, as in effect on the date of enactment of this Act. ]

[SEC. 127. None of the funds made available in this title may be obligated or expended for planning and design and construction of projects at Arlington National Cemetery. ]

[SEC. 128. None of the funds appropriated or otherwise made available by this Act may be used for decommissioning the Combined Heat and Power Plant at Clear Air Force Station, Alaska, until the Comptroller General of the United States conducts a review of the data used by the Department of Defense, including data in the Environmental Impact Statement and Fiscal Year 2010 Feasibility Study, to determine whether decommissioning the Combined Heat and Power Plant is the most cost-effective and beneficial option for the day-to-day operations and missions at the installation in support of United States national security. ]

SEC. [129] 120. Notwithstanding section [116] 114, the Secretary of Army may obligate from any available military construction funds such additional funds that the Secretary determines are necessary to complete

the Explosive Research and Development Loading Facility, Picatinny Arsenal, New Jersey.

## TITLE VIII—GENERAL PROVISIONS

【SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.】

SEC. 【8002】8001. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: *Provided*, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: *Provided further*, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: *Provided further*, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 【8003】8002. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

【SEC. 8004. No more than 20 percent of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year: *Provided*, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.】

### (TRANSFER OF FUNDS)

SEC. 【8005】8003. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$5,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided*, That 【such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: *Provided further*, That】 the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: *Provided further*, That 【no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress: *Provided further*, That a request for multiple reprogrammings of funds using authority provided in this section shall be made prior to June 30, 2014: *Provided further*, That】 transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section.

【SEC. 8006. (a) With regard to the list of specific programs, projects, and activities (and the dollar amounts and adjustments to budget activities corresponding to such programs, projects, and activities) contained in the tables titled "Explanation of Project Level Adjustments" in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), the obligation and expenditure of amounts appropriated or otherwise made available in this Act for those programs, projects, and activities for which the amounts appropriated exceed the amounts requested are hereby required by law to be carried out in the manner provided by such tables to the same extent as if the tables were included in the text of this Act.

(b) Amounts specified in the referenced tables described in subsection (a) shall not be treated as subdivisions of appropriations for purposes of section 8005 of this Act: *Provided*, That section 8005 shall apply when transfers of the amounts described in subsection (a) occur between appropriation accounts.】

【SEC. 8007. (a) Not later than 60 days after enactment of this Act, the Department of Defense shall submit a report to the congressional defense committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2014: *Provided*, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation both by budget activity and program, project, and activity as detailed in the Budget Appendix; and

(3) an identification of items of special congressional interest.

(b) Notwithstanding section 8005 of this Act, none of the funds provided in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional defense committees, unless the Secretary of Defense certifies in writing to the congressional defense committees that such reprogramming or transfer is necessary as an emergency requirement.】

### (TRANSFER OF FUNDS)

SEC. 【8008】8004. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: *Provided*, That transfers may be made between such funds: *Provided further*, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

【SEC. 8009. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in advance to the congressional defense committees.】

【SEC. 8010. None of the funds provided in this Act shall be available to initiate: (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000; or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year, unless the congressional defense committees have been notified at least 30 days in advance of the proposed contract award: *Provided*, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: *Provided further*, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: *Provided further*, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: *Provided further*, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement: *Provided further*, That none of the funds provided in this Act may be used for a multiyear contract executed after the date of the enactment of this Act unless in the case of any such contract—

(1) the Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract and, in the case of a contract for procurement of aircraft, that includes, for any aircraft unit to be procured through the contract for which procurement funds are requested in that budget request for production beyond advance procurement activities in the fiscal year covered by the budget, full funding of procurement of such unit in that fiscal year;

(2) cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(3) the contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units; and

(4) the contract does not provide for a price adjustment based on a failure to award a follow-on contract.

Funds appropriated in title III of this Act may be used for a multiyear procurement contract as follows:

E-2D Advanced Hawkeye, SSN 774 Virginia class submarine, KC-130J, C-130J, HC-130J, MC-130J, AC-130J aircraft, and government-furnished equipment. ]

SEC. [8011]8005. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: *Provided*, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: *Provided further*, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. [8012]8006. (a) During fiscal year [2014] 2015, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

[(b) The fiscal year 2015 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2015 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2015.]

[(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8013. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress. ]

SEC. [8014]8007. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: *Provided*, That this section shall not apply to those members who have reenlisted with this option prior to October 1, 1987: *Provided further*, That this section applies only to active components of the Army.

(TRANSFER OF FUNDS)

SEC. [8015]8008. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8016. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter

and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: *Provided*, That for the purpose of this section, the term "manufactured" shall include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): *Provided further*, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: *Provided further*, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes. ]

SEC. 8017. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols, or to demilitarize or destroy small arms ammunition or ammunition components that are not otherwise prohibited from commercial sale under Federal law, unless the small arms ammunition or ammunition components are certified by the Secretary of the Army or designee as unserviceable or unsafe for further use. ]

SEC. 8018. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense committees that such a relocation is required in the best interest of the Government. ]

SEC. 8019. In addition to the funds provided elsewhere in this Act, \$15,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544): *Provided*, That a prime contractor or a subcontractor at any tier that makes a subcontract award to any subcontractor or supplier as defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code, shall be considered a contractor for the purposes of being allowed additional compensation under section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544) whenever the prime contract or subcontract amount is over \$500,000 and involves the expenditure of funds appropriated by an Act making appropriations for the Department of Defense with respect to any fiscal year: *Provided further*, That notwithstanding section 1906 of title 41, United States Code, this section shall be applicable to any Department of Defense acquisition of supplies or services, including any contract and any subcontract at any tier for acquisition of commercial items produced or manufactured, in whole or in part, by any subcontractor or supplier defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code. ]

SEC. [8020]8009. Funds appropriated by this Act for the Defense Media Activity shall not be used for any national or international political or psychological activities.

SEC. [8021]8010. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350(j)(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: *Provided*, That upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

SEC. 8022. (a) Of the funds made available in this Act, not less than \$39,532,000 shall be available for the Civil Air Patrol Corporation, of which—

(1) \$28,400,000 shall be available from "Operation and Maintenance, Air Force" to support Civil Air Patrol Corporation operation and maintenance, readiness, counter-drug activities, and drug demand reduction activities involving youth programs;

(2) \$10,200,000 shall be available from "Aircraft Procurement, Air Force"; and

(3) \$932,000 shall be available from "Other Procurement, Air Force" for vehicle procurement.

(b) The Secretary of the Air Force should waive reimbursement for any funds used by the Civil Air Patrol for counter-drug activities in support of Federal, State, and local government agencies. ]

SEC. [8023]8011. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administered by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.

(b) No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be compensated for his or her services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: *Provided*, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year [2014] 2015 may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings, for payment of cost sharing for projects funded by Government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

[(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 2014, not more than 5,750 staff years of technical effort (staff years) may be funded for defense FFRDCs: *Provided*, That of the specific amount referred to previously in this subsection, not more than 1,125 staff years may be funded for the defense studies and analysis FFRDCs: *Provided further*, That this subsection shall not apply to staff years funded in the National Intelligence Program (NIP) and the Military Intelligence Program (MIP). ]

[(e) The Secretary of Defense shall, with the submission of the department's fiscal year 2015 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year and the associated budget estimates. ]

[(f) Notwithstanding any other provision of this Act, the total amount appropriated in this Act for FFRDCs is hereby reduced by \$40,000,000. ]

SEC. 8024. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy, or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: *Provided*, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: *Provided further*, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: *Provided further*, That these restrictions shall not apply to contracts which are in being as of the date of the enactment of this Act. ]

SEC. [8025]8012. For the purposes of this Act, the term "congressional defense committees" means the Armed Services Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

SEC. [8026]8013. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: *Provided*, That the Senior Acquisition Executive of the military department or

Defense Agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids: *Provided further*, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section. ]

SEC. [8027]8014. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) The Secretary of Defense shall submit to the Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year [2014] 2015. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means chapter 83 of title 41, United States Code.

SEC. [8028]8015. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510; 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act.

SEC. [8029]8016. (a) Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, Minnesota, and Washington relocatable military housing units located at Grand Forks Air Force Base, Malmstrom Air Force Base, Mountain Home Air Force Base, Ellsworth Air Force Base, and Minot Air Force Base that are excess to the needs of the Air Force.

(b) The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, Minnesota, and Washington. Any such conveyance shall be subject to the condition that the housing units shall be removed within a reasonable period of time, as determined by the Secretary.

(c) The Operation Walking Shield Program shall resolve any conflicts among requests of Indian tribes for housing units under subsection (a) before submitting requests to the Secretary of the Air Force under subsection (b).

(d) In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103-454; 108 Stat. 4792; 25 U.S.C. 479a-1).

SEC. [8030]8017. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$250,000.

SEC. 8031. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2015 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2015 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2015 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.】

SEC. 【8032】8018. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 【2015】 2016: *Provided*, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: *Provided further*, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947 (50 U.S.C. 3093) shall remain available until September 30, 【2015】 2016.

SEC. 【8033】8019. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

【SEC. 8034. Of the funds appropriated to the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$12,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.】

【SEC. 8035. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means chapter 83 of title 41, United States Code.

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality competitive, and available in a timely fashion.】

SEC. 【8036】8020. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support: *Provided*, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

【SEC. 8037. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or

(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and the Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to—

(1) field operating agencies funded within the National Intelligence Program;

(2) an Army field operating agency established to eliminate, mitigate, or counter the effects of improvised explosive devices, and, as determined by the Secretary of the Army, other similar threats;

(3) an Army field operating agency established to improve the effectiveness and efficiencies of biometric activities and to integrate common biometric technologies throughout the Department of Defense; or

(4) an Air Force field operating agency established to administer the Air Force Mortuary Affairs Program and Mortuary Operations for the Department of Defense and authorized Federal entities.】

【SEC. 8038. None of the funds appropriated in this Act may be obligated or expended by the Secretary of a military department in contravention of the provisions of section 352 of the National Defense Authorization Act for Fiscal Year 2014 to adopt any new camouflage pattern design or uniform fabric for any combat or camouflage utility uniform or family of uniforms for use by an Armed Force.】

【SEC. 8039. (a) None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of the enactment of this Act, is performed by Department of Defense civilian employees unless—

(1) the conversion is based on the result of a public-private competition that includes a most efficient and cost effective organization plan developed by such activity or function;

(2) the Competitive Sourcing Official determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of—

(A) 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees; or

(B) \$10,000,000; and

(3) the contractor does not receive an advantage for a proposal that would reduce costs for the Department of Defense by—

(A) not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of that activity or function under the contract; or

(B) offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5, United States Code.

(b)(1) The Department of Defense, without regard to subsection (a) of this section or subsection (a), (b), or (c) of section 2461 of title 10, United States Code, and notwithstanding any administrative regulation, requirement, or policy to the contrary shall have full authority to enter into a contract for the performance of any commercial or industrial type function of the Department of Defense that—

(A) is included on the procurement list established pursuant to section 2 of the Javits-Wagner-O'Day Act (section 8503 of title 41, United States Code);

(B) is planned to be converted to performance by a qualified non-profit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or

(C) is planned to be converted to performance by a qualified firm under at least 51 percent ownership by an Indian tribe, as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)), or a Native Hawaiian Organization, as defined in section 8(a)(15) of the Small Business Act (15 U.S.C. 637(a)(15)).

(2) This section shall not apply to depot contracts or contracts for depot maintenance as provided in sections 2469 and 2474 of title 10, United States Code.

(c) The conversion of any activity or function of the Department of Defense under the authority provided by this section shall be credited toward any competitive or outsourcing goal, target, or measurement that may be established by statute, regulation, or policy and is deemed to be awarded under the authority of, and in compliance with, subsection (h) of section 2304 of title 10, United States Code, for the competition or outsourcing of commercial activities.】

SEC. [8055]8027. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: *Provided*, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: *Provided further*, That this restriction does not apply to programs funded within the National Intelligence Program: *Provided*

*further*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. [8056]8028. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

- (1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and
- (2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50–65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. [8057]8029. (a) IN GENERAL.—

- (1) None of the funds made available by this Act may be used for any training, equipment, or other assistance for the members of a unit of a foreign security force if the Secretary of Defense has credible information that the unit has committed a gross violation of human rights.
- (2) The Secretary of Defense, in consultation with the Secretary of State, shall ensure that prior to a decision to provide any training, equipment, or other assistance to a unit of a foreign security force full consideration is given to any credible information available to the Department of State relating to human rights violations by such unit.

(b) EXCEPTION.—The prohibition in subsection (a)(1) shall not apply if the Secretary of Defense, after consultation with the Secretary of State, determines that the government of such country has taken all necessary corrective steps, or if the equipment or other assistance is necessary to assist in disaster relief operations or other humanitarian or national security emergencies.

(c) WAIVER.—The Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in subsection (a)(1) if the Secretary of Defense determines that such waiver is required by extraordinary circumstances.

[(d) PROCEDURES.—The Secretary of Defense shall establish, and periodically update, procedures to ensure that any information in the possession of the Department of Defense about gross violations of human rights by units of foreign security forces is shared on a timely basis with the Department of State.]

[(e) REPORT.—Not more than 15 days after the application of any exception under subsection (b) or the exercise of any waiver under subsection (c), the Secretary of Defense shall submit to the appropriate congressional committees a report—

- (1) in the case of an exception under subsection (b), providing notice of the use of the exception and stating the grounds for the exception; and
- (2) in the case of a waiver under subsection (c), describing the information relating to the gross violation of human rights; the extraordinary or other circumstances that necessitate the waiver; the purpose and duration of the training, equipment, or other assistance; and the United States forces and the foreign security force unit involved.

[(f) DEFINITION.—For purposes of this section the term "appropriate congressional committees" means the congressional defense committees and the Committees on Appropriations.]

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

(c) The head of the agency posting such report shall do so only after such report has been made available to the requesting Committee or Committees of Congress for no less than 45 days. **]**

**SEC. [8096]8047. (a)** None of the funds appropriated or otherwise made available by this Act may be expended for any Federal contract for an amount in excess of \$1,000,000, unless the contractor agrees not to—

(1) enter into any agreement with any of its employees or independent contractors that requires, as a condition of employment, that the employee or independent contractor agree to resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention; or

(2) take any action to enforce any provision of an existing agreement with an employee or independent contractor that mandates that the employee or independent contractor resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention.

(b) None of the funds appropriated or otherwise made available by this Act may be expended for any Federal contract unless the contractor certifies that it requires each covered subcontractor to agree not to enter into, and not to take any action to enforce any provision of, any agreement as described in paragraphs (1) and (2) of subsection (a), with respect to any employee or independent contractor performing work related to such subcontract. For purposes of this subsection, a "covered subcontractor" is an entity that has a subcontract in excess of \$1,000,000 on a contract subject to subsection (a).

(c) The prohibitions in this section do not apply with respect to a contractor's or subcontractor's agreements with employees or independent contractors that may not be enforced in a court of the United States.

(d) The Secretary of Defense may waive the application of subsection (a) or (b) to a particular contractor or subcontractor for the purposes of a particular contract or subcontract if the Secretary or the Deputy Secretary personally determines that the waiver is necessary to avoid harm to national security interests of the United States, and that the term of the contract or subcontract is not longer than necessary to avoid such harm. The determination shall set forth with specificity the grounds for the waiver and for the contract or subcontract term selected, and shall state any alternatives considered in lieu of a waiver and the reasons each such alternative would not avoid harm to national security interests of the United States. The Secretary of Defense shall transmit to Congress, and simultaneously make public, any determination under this subsection not less than 15 business days before the contract or subcontract addressed in the determination may be awarded.

The Secretary of Defense shall report quarterly the numbers of civilian personnel end strength by appropriation account for each and every appropriation account used to finance Federal civilian personnel salaries to the congressional defense committees within 15 days after the end of each fiscal quarter.]

[SEC. 8105. (a) None of the funds appropriated in this or any other Act may be used to take any action to modify—

(1) the appropriations account structure for the National Intelligence Program budget, including through the creation of a new appropriation or new appropriations account;

(2) how the National Intelligence Program budget request is presented, organized, and managed within the Department of Defense budget;

(3) how the National Intelligence Program appropriations are apportioned to the executing agencies; or

(4) how the National Intelligence Program appropriations are allotted, obligated and disbursed.

(b) The Director of National Intelligence and the Secretary of Defense may jointly, only for the purposes of achieving auditable financial statements and improving fiscal reporting, study and develop detailed proposals for alternative financial management processes. Such study shall include a comprehensive counterintelligence risk assessment to ensure that none of the alternative processes will adversely affect counterintelligence.

(c) Upon development of the detailed proposals defined under subsection (b), the Director of National Intelligence and the Secretary of Defense shall—

(1) provide the proposed alternatives to all affected agencies;

(2) receive certification from all affected agencies attesting that the proposed alternatives will help achieve auditability, improve fiscal reporting, and will not adversely affect counterintelligence; and

(3) not later than 30 days after receiving all necessary certifications under paragraph (2), present the proposed alternatives and certifications to the congressional defense and intelligence committees.

(d) This section shall not be construed to alter or affect the application of section 924 of the National Defense Authorization Act for Fiscal Year 2014 to the amounts made available by this Act.]

## GENERAL PROVISIONS—THIS TITLE

【SEC. 9001. Notwithstanding any other provision of law, funds made available in this title are in addition to amounts appropriated or otherwise made available for the Department of Defense for fiscal year 2014.】

【(INCLUDING TRANSFER OF FUNDS)】

【SEC. 9002. Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer up to

\$4,000,000,000 between the appropriations or funds made available to the Department of Defense in this title: *Provided*, That the Secretary shall notify the Congress promptly of each transfer made pursuant to the authority in this section: *Provided further*, That the authority provided in this section is in addition to any other transfer authority available to the Department of Defense and is subject to the same terms and conditions as the authority provided in the Department of Defense Appropriations Act, 2014.】

【SEC. 9003. Supervision and administration costs and costs for design during construction associated with a construction project funded with appropriations available for operation and maintenance, "Afghanistan Infrastructure Fund", or the "Afghanistan Security Forces Fund" provided in this Act and executed in direct support of overseas contingency operations in Afghanistan, may be obligated at the time a construction contract is awarded: *Provided*, That for the purpose of this section, supervision and administration costs and costs for design during construction include all in-house Government costs.】

【SEC. 9004. From funds made available in this title, the Secretary of Defense may purchase for use by military and civilian employees of the Department of Defense in the U.S. Central Command area of responsibility: (a) passenger motor vehicles up to a limit of \$75,000 per vehicle; and (b) heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$250,000 per vehicle, notwithstanding price or other limitations applicable to the purchase of passenger carrying vehicles.】

【SEC. 9005. Not to exceed \$30,000,000 of the amount appropriated in this title under the heading "Operation and Maintenance, Army" may be used, notwithstanding any other provision of law, to fund the Commander's Emergency Response Program (CERP), for the purpose of enabling military commanders in Afghanistan to respond to urgent, small-scale, humanitarian relief and reconstruction requirements within their areas of responsibility: *Provided*, That each project (including any ancillary or related elements in connection with such project) executed under this authority shall not exceed \$20,000,000: *Provided further*, That not later than 45 days after the end of each fiscal year quarter, the Secretary of Defense shall submit to the congressional defense committees a report regarding the source of funds and the allocation and use of funds during that quarter that were made available pursuant to the authority provided in this section or under any other provision of law for the purposes described herein: *Provided further*, That, not later than 30 days after the end of each month, the Army shall submit to the congressional defense committees monthly commitment, obligation, and expenditure data for the Commander's Emergency Response Program in Afghanistan: *Provided further*, That not less than 15 days before making funds available pursuant to the authority provided in this section or under any other provision of law for the purposes described herein for a project with a total anticipated cost for completion of \$5,000,000 or more, the Secretary shall submit to the congressional defense committees a written notice containing each of the following:

(1) The location, nature and purpose of the proposed project, including how the project is intended to advance the military campaign plan for the country in which it is to be carried out.

(2) The budget, implementation timeline with milestones, and completion date for the proposed project, including any other CERP funding that has been or is anticipated to be contributed to the completion of the project.

(3) A plan for the sustainment of the proposed project, including the agreement with either the host nation, a non-Department of Defense agency of the United States Government or a third-party contributor to finance the sustainment of the activities and maintenance of any equipment or facilities to be provided through the proposed project.】

【SEC. 9006. Funds available to the Department of Defense for operation and maintenance may be used, notwithstanding any other provision of law, to provide supplies, services, transportation, including airlift and sealift, and other logistical support to coalition forces supporting military and stability operations in Afghanistan: *Provided*, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding support provided under this section.】

【SEC. 9007. None of the funds appropriated or otherwise made available by this or any other Act shall be obligated or expended by the United States Government for a purpose as follows:

(1) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Iraq.

(2) To exercise United States control over any oil resource of Iraq.

(3) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Afghanistan.】

【SEC. 9008. None of the funds made available in this Act may be used in contravention of the following laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (done at New York on December 10, 1984):

(1) Section 2340A of title 18, United States Code.

(2) Section 2242 of the Foreign Affairs Reform and Restructuring Act of 1998 (division G of Public Law 105–277; 112 Stat. 2681–822; 8 U.S.C. 1231 note) and regulations prescribed thereto, including regulations under part 208 of title 8, Code of Federal Regulations, and part 95 of title 22, Code of Federal Regulations.

(3) Sections 1002 and 1003 of the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006 (Public Law 109–148).】

【SEC. 9009. None of the funds provided for the "Afghanistan Security Forces Fund" (ASFF) may be obligated prior to the approval of a financial and activity plan by the Afghanistan Resources Oversight Council (AROC) of the Department of Defense: *Provided*, That the AROC must approve the requirement and acquisition plan for any service requirements in excess of \$50,000,000 annually and any non-standard equipment requirements in excess of \$100,000,000 using ASFF: *Provided further*, That the AROC must approve all projects and the execution plan under the "Afghanistan Infrastructure Fund" (AIF) and any project in excess of \$5,000,000 from the Commander's Emergency Response Program (CERP): *Provided further*, That the Department of Defense must certify to the congressional defense committees that the AROC has convened and approved a process for ensuring compliance with the requirements in the preceding provisos and accompanying report language for the ASFF, AIF, and CERP.】

【SEC. 9010. Funds made available in this title to the Department of Defense for operation and maintenance may be used to purchase items having an investment unit cost of not more than \$250,000: *Provided*, That, upon determination by the Secretary of Defense that such action is necessary to meet the operational requirements of a Commander of a Combatant Command engaged in contingency operations overseas, such funds may be used to purchase items having an investment item unit cost of not more than \$500,000.】

【SEC. 9011. Notwithstanding any other provision of law, up to \$63,800,000 of funds made available in this title under the heading "Operation and Maintenance, Army" may be obligated and expended for purposes of the Task Force for Business and Stability Operations, subject to the direction and control of the Secretary of Defense, with concurrence of the Secretary of State, to carry out strategic business and economic assistance activities in Afghanistan in support of Operation Enduring Freedom: *Provided*, That not less than 15 days before making funds available pursuant to the authority provided in this section for any project with a total anticipated cost of \$5,000,000 or more, the Secretary shall submit to the congressional defense committees a written notice containing a detailed justification and timeline for each proposed project.】

【SEC. 9012. From funds made available to the Department of Defense in this title under the heading "Operation and Maintenance, Air Force" up to \$209,000,000 may be used by the Secretary of Defense, notwithstanding any other provision of law, to support United States Government transition activities in Iraq by funding the operations and activities of the Office of Security Cooperation in Iraq and security assistance teams, including life support, transportation and personal security, and facilities renovation and construction, and site closeout activities prior to returning sites to the Government of Iraq: *Provided*, That to the extent authorized under the National Defense Authorization Act for Fiscal Year 2014, the operations and activities that may be carried out by the Office of Security Cooperation in Iraq may, with the concurrence of the Secretary of State, include non-operational training activities in support of Iraqi Minister

of Defense and Counter Terrorism Service personnel in an institutional environment to address capability gaps, integrate processes relating to intelligence, air sovereignty, combined arms, logistics and maintenance, and to manage and integrate defense-related institutions: *Provided further*, That not later than 30 days following the enactment of this Act, the Secretary of Defense and the Secretary of State shall submit to the congressional defense committees a plan for transitioning any such training activities that they determine are needed after the end of fiscal year 2014, to existing or new contracts for the sale of defense articles or defense services consistent with the provisions of the Arms Export Control Act (22 U.S.C. 2751 et seq.): *Provided further*, That not less than 15 days before making funds available pursuant to the authority provided in this section, the Secretary of Defense shall submit to the congressional defense committees a written notification containing a detailed justification and timeline for the operations and activities of the Office of Security Cooperation in Iraq at each site where such operations and activities will be conducted during fiscal year 2014.】

【(RESCISSIONS)】

【SEC. 9013. Of the funds appropriated in Department of Defense Appropriations Acts, the following funds are hereby rescinded from the following accounts and programs in the specified amounts: *Provided*, That such amounts are designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985:

"General Provision: Retroactive Stop Loss Special Pay Program, 2009/XXXX", \$53,100,000; and

"Other Procurement, Army, 2013/2015", \$87,270,000.】

【SEC. 9014. (a) None of the funds appropriated or otherwise made available by this Act under the heading "Operation and Maintenance, Defense-Wide" for payments under section 1233 of Public Law 110–181 for reimbursement to the Government of Pakistan may be made available unless the Secretary of Defense, in coordination with the Secretary of State, certifies to the Committees on Appropriations that the Government of Pakistan is—

(1) cooperating with the United States in counterterrorism efforts against the Haqqani Network, the Quetta Shura Taliban, Lashkar e-Tayyiba, Jaish-e-Mohammed, Al Qaeda, and other domestic and foreign terrorist organizations, including taking steps to end support for such groups and prevent them from basing and operating in Pakistan and carrying out cross border attacks into neighboring countries;

(2) not supporting terrorist activities against United States or coalition forces in Afghanistan, and Pakistan's military and intelligence agencies are not intervening extra-judicially into political and judicial processes in Pakistan;

(3) dismantling improvised explosive device (IED) networks and interdicting precursor chemicals used in the manufacture of IEDs;

(4) preventing the proliferation of nuclear-related material and expertise;

(5) implementing policies to protect judicial independence and due process of law;

(6) issuing visas in a timely manner for United States visitors engaged in counterterrorism efforts and assistance programs in Pakistan; and

(7) providing humanitarian organizations access to detainees, internally displaced persons, and other Pakistani civilians affected by the conflict.

(b) The Secretary of Defense, in coordination with the Secretary of State, may waive the restriction in paragraph (a) on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so: *Provided*, That if the Secretary of Defense, in coordination with the Secretary of State, exercises the authority of the previous proviso, the Secretaries shall report to the Committees on Appropriations on both the justification for the waiver and on the requirements of this section that the Government of Pakistan was not able to meet: *Provided further*, That such report may be submitted in classified form if necessary.】

【SEC. 9015. None of the funds made available by this Act may be used with respect to Syria in contravention of the War Powers Resolution (50 U.S.C. 1541 et seq.), including for the introduction of United States armed or military forces into hostilities in Syria, into situations in Syria where imminent involvement in hostilities is clearly indicated by the circumstances, or into Syrian territory, airspace, or waters while equipped for

combat, in contravention of the congressional consultation and reporting requirements of sections 3 and 4 of that law (50 U.S.C. 1542 and 1543).】

【SEC. 9016. None of the funds made available by this Act for the "Afghanistan Infrastructure Fund" may be used to plan, develop, or construct any project for which construction has not commenced before the date of the enactment of this Act. 】 (*Department of Defense Appropriations Act, 2014.*)

<sup>1</sup>To account for the Administration's ESEA reauthorization proposal, the 2015 Budget eliminates the \$1.7 billion advance appropriation that was previously in the Education Improvement Programs account and replaces it with corresponding increases to advance appropriations in the Accelerating Achievement and Ensuring Equity account (\$841 million) and the Special Education account (\$841 million). Total advance appropriations in the Department of Education remain \$22.6 billion.

The Administration is proposing legislation reauthorizing programs included in the Elementary and Secondary Education Act (ESEA), including programs in this account. Consistent with this reauthorization proposal, the Budget proposes to realign programs in ESEA accounts. When new authorizing legislation is enacted, resources will be requested for these programs. See the "Legislative proposal, not subject to PAYGO" schedule for additional details.

The resources in this schedule are proposed for later transmittal under proposed legislation to reauthorize the Elementary and Secondary Education Act of 1965.

*College- and career-ready students (formerly Grants to local educational agencies).*—Funds would be allocated via formula for programs that provide academic support to help students in high-poverty schools meet college- and career-ready standards. States would assess annually all students in certain grades in at least English language arts and mathematics, and use the results of these assessments to measure local educational agency (LEA) and school progress in ensuring that all students are meeting, or are on track to meet college- and career-ready standards; to inform families about whether their children are meeting or are on track to meet such standards; and to develop appropriate improvement and support strategies for schools and LEAs. States would establish systems for differentiating among schools and LEAs on the basis of performance, including recognition and rewards for highly effective schools and LEAs, the implementation of rigorous school intervention models in the lowest-achieving schools, and State-approved, research-based interventions in low-performing schools that are not serving their students well.

*School turnaround grants.*—Funds would primarily support formula grants to States to help LEAs turn around their lowest-achieving schools by implementing rigorous school intervention models. In general, such schools would rank in the bottom five percent of performance in their States based on proficiency rates and lack of progress or, in the case of high schools, have a graduation rate below 60 percent. Once States have served their lowest-achieving schools, funds could be used for other school improvement and support efforts in eligible schools.

*State agency migrant program.*—Funds would support formula grants to States for educational services to children of migratory farmworkers and fishers, with resources and services focused on children who have moved within the past 36 months.

*State agency neglected and delinquent children and youth education program.*—Funds would support formula grants to States for educational services to neglected or delinquent children and youth in State-run institutions, attending community day programs, and in other correctional facilities.

*Homeless children and youth education.*—Funds would support formula grants to States to provide educational and support services that enable homeless children and youth to attend and achieve success in school.

The Administration is proposing legislation reauthorizing the Elementary and Secondary Education Act (ESEA), including programs in this account. Consistent with this reauthorization proposal, the Budget proposes to realign programs in ESEA accounts. When new authorizing legislation is enacted, resources

will be requested for these programs. See the "Legislative proposal, not subject to PAYGO" schedule for additional details.

Impact Aid helps to replace the lost local revenue that would otherwise be available to educate federally connected children. The presence of certain students living on Federal property, such as students who are military dependents or who reside on Indian lands, can place a financial burden on local educational agencies (LEAs) that educate them. The property on which the children live and their parents work is exempt from local property taxes, denying local educational agencies access to the primary source of revenue used by most communities to finance education.

*Basic support payments.*—Payments will be made on behalf of approximately 930,000 federally connected students enrolled in about 1,150 LEAs to assist them in meeting their operation and maintenance costs. Average per-student payments will be approximately \$1,200.

*Payments for children with disabilities.*—Payments in addition to those provided under the Individuals with Disabilities Education Act (IDEA) will be provided on behalf of approximately 55,000 federally connected students with disabilities in about 900 LEAs. Average per-student payments will be approximately \$900.

*Facilities maintenance.*—Funds will be used to provide emergency repairs for school facilities that serve military dependents and are owned by the Department of Education. Funds will also be used to transfer the facilities to LEAs.

**Construction.**—Approximately 8–12 construction grants will be awarded competitively to the highest-need Impact Aid LEAs for emergency repairs and modernization of school facilities.

<sup>1</sup>To account for the Administration's ESEA reauthorization proposal, the 2015 Budget eliminates the \$1.7 billion advance appropriation that was previously in the School Improvement Programs account (renamed the Education Improvement Programs account) and replaces it with corresponding increases to advance appropriations in the Education for the Disadvantaged account (\$841 million, renamed the Accelerating Achievement and Ensuring Equity account) and the Special Education account (\$841 million). Total advance appropriations in the Department of Education remain \$22.6 billion.

The Administration is proposing legislation reauthorizing the Elementary and Secondary Education Act (ESEA), including programs in this account. Consistent with this reauthorization proposal, the Budget proposes to realign programs in ESEA accounts. When new authorizing legislation is enacted, resources will be requested for these programs. See the "Legislative proposal, not subject to PAYGO" schedule for additional details.

**Training and advisory services.**—Funds support grants to regional equity assistance centers that provide technical assistance to local educational agencies (LEAs) in addressing educational equity related to issues of race, gender, and national origin.

**Supplemental education grants.**—Funds support grants to the Federated States of Micronesia and to the Republic of the Marshall Islands in place of grant programs in which those Freely Associated States no longer participate pursuant to the Compact of Free Association Amendments Act of 2003.

EDUCATION IMPROVEMENT PROGRAMS—Continued

*Comprehensive centers.*—Funds support 22 comprehensive centers that focus on building State capacity to help school districts and schools meet the requirements of the ESEA.

The resources in this schedule are proposed for later transmittal under proposed legislation to reauthorize the Elementary and Secondary Education Act of 1965.

*Effective teaching and learning: literacy.*—Funds would support competitive grants to States to support the development and implementation of comprehensive State and local efforts to provide high-quality literacy programs, aligned with college- and career-ready English-language arts standards, for students from preschool through grade 12.

*Effective teaching and learning for a well-rounded education.*—Funds would support competitive grants to States and high-need LEAs to develop and expand innovative practices to improve teaching and learning in the arts, health education, foreign languages, civics and government, history, geography,

environmental education, economics, financial literacy, and other subjects.

*College pathways and accelerated learning.*—Funds would support competitive grants to high-need LEAs for programs that prepare students to enter and succeed in college by providing college-level and other accelerated courses and instruction in middle and high schools as well as accelerated learning opportunities in elementary schools.

*Assessing achievement.*—Funds would support formula and competitive grants to States to develop and implement assessments that are aligned with college- and career-ready academic standards.

*Rural education.*—Funds would support formula grants under two programs: the Small, Rural School Achievement program and the Rural and Low-Income School program. The Small, Rural School Achievement program provides rural LEAs with small enrollments with additional formula funds. Funds under the Rural and Low-Income School program, which targets rural LEAs that serve concentrations of poor students, are allocated by formula to States, which in turn allocate funds to eligible LEAs.

*Native Hawaiian student education.*—Funds would support competitive grants to public and private entities to develop or operate innovative projects that enhance the educational services provided to Native Hawaiian children and adults.

*Alaska Native student education.*—Funds would support competitive grants to LEAs and other public and private organizations to develop or operate innovative projects that enhance the educational services provided to Alaska Native children and adults.

*Promise neighborhoods.*—Funds would support competitive grants and other activities for projects designed to improve significantly the educational and developmental outcomes of children within the Nation's most distressed communities, with the goal of transforming those communities so that all children in the community have access to a cradle-through-college-to-career continuum of academic programs and community supports, including effective schools and services. Promise Neighborhoods is also a central component of the Administration's Promise Zones—high-poverty communities where the Federal Government will engage more directly with local leaders to break down barriers and help them access the resources and expertise they need to create jobs, leverage private investment, increase economic activity, reduce violence, and expand educational opportunities.

*Successful, safe, and healthy students.*—Funds would support competitive grants and other activities to assist States, local educational agencies (LEAs), and partnerships between LEAs and non-profit organizations or local government entities in improving school climate; reducing or preventing drug use, violence, bullying, or harassment; and promoting and supporting the physical and mental well-being of students so that schools are safe, healthy, and drug-free environments. Funds would also support a variety of school safety initiatives in *Now Is The Time*, the President's plan to protect our children and our communities by reducing gun violence, including efforts to create positive school climates and to counter the effects of pervasive violence on students.

*21st century community learning centers.*—Funds would support competitive grants to States, LEAs, nonprofit organizations, or local governmental entities for projects that provide the additional

time, support, and enrichment activities needed to improve student achievement, including projects that support expanding learning time by significantly increasing the number of hours in a regular school schedule and by comprehensively redesigning the school schedule for all students in a school. Projects could also provide teachers the time they need to collaborate, plan, and engage in professional development within and across grades and subjects.

The resources in this schedule are proposed for later transmittal under proposed legislation to reauthorize the Elementary and Secondary Education Act of 1965. The Indian Student Education programs support the efforts of local educational agencies (LEA) and tribal schools to improve teaching and learning for the Nation's American Indian and Alaska Native children.

*Grants to local educational agencies.*—Formula grants support LEAs in their efforts to reform elementary and secondary school programs that serve Indian students, with the goal of ensuring that such programs assist participating students in meeting the same academic standards as all other students.

*Special programs for Indian children.*—Funds support competitive awards for demonstration projects in early childhood education and college preparation, as well as professional development grants for training Native American teachers and administrators

for employment in school districts with concentrations of Indian students.

*National activities.*—Funds support research, evaluation, data collection, and related activities.

The Administration is proposing legislation reauthorizing the Elementary and Secondary Education Act (ESEA), including the programs in this account. Consistent with this reauthorization proposal, the Budget proposes to realign programs in ESEA accounts. When new authorizing legislation is enacted, resources will be requested for these programs. See the "Legislative proposal, not subject to PAYGO" schedule for additional details.

The resources in this schedule are proposed for later transmittal under proposed legislation to reauthorize the Elementary and Secondary Education Act of 1965.

**Race to the top: equity and opportunity.**—Funds would support competitive grants centered on increasing the academic performance of high-need students and closing achievement gaps. Grants would be used to help link together State and local fiscal, student achievement, and human resource data systems, allowing schools to identify and address the needs of underserved students by improving access to high-quality teachers and leaders, rigorous coursework, and other evidence-based supports. The program would build on reforms implemented under previous Race to the Top competitions and ESEA flexibility, while also improving the use and effectiveness of resources from other Federal programs such as Title I Grants to Local Educational Agencies and State Longitudinal Data Systems.

**Investing in innovation.**—Funds would support grants to local educational agencies (LEAs) or to nonprofit organizations in partnership with one or more LEAs or a consortium of schools to develop and expand innovative strategies and practices that have been shown to be effective in improving educational outcomes for students. A portion of the funds would be used to launch the Advanced Research Projects Agency—Education, which would pursue breakthrough developments in educational technologies and other strategies for raising achievement.

**STEM innovation.**—Funds would support competitive grants to consortia of LEAs in partnership with institutions of higher education (IHEs), businesses, science agencies, or other entities. These public-private partnerships would harness local, regional, and national resources to transform STEM teaching and learning by implementing innovative evidence-based practices that improve teacher effectiveness and student engagement and achievement. Funds would also support a STEM Teacher Pathways program, a STEM Master Teacher Corps, and the Effective Teaching and Learning: STEM program.

**High school redesign.**—Funds would support competitive grants to transform teaching and learning in high schools by encouraging partnerships among LEAs, IHEs, businesses, and other entities

to enhance instruction and provide career-related experiences to students, helping them prepare for college and careers. Grantees would leverage new and existing federal, State, and local resources to create learning models that are rigorous, relevant, and better focused on real-world experiences while incorporating personalized learning, work- and project-based learning, and career and college exploration.

**Effective teachers and leaders State grants.**—Funds would support formula grants to States and LEAs to promote and enhance the teaching profession; recruit, prepare, develop, reward, and retain effective and highly effective teachers, principals, and other school leaders and foster excellent instructional teams, especially in high-need LEAs, schools, fields, and subjects; ensure the equitable distribution of effective and highly effective teachers and principals; increase the effectiveness of teachers and principals; strengthen teacher and principal evaluation systems; ensure that teachers have the knowledge, skills, data, support, and collaborative opportunities needed to be effective in the classroom; and improve the management of the education workforce in States and LEAs. The Department would reserve up to 10 percent of the appropriation for this program to build evidence on how to best recruit, train, and support effective teachers and school leaders and invest in efforts to enhance the teaching and leadership professions.

**ConnectEDucators.**—Funds would support investments in high-quality professional development and instructional resources to help educators as they transition to using technology and data to improve student learning, as enabled by the Administration's ConnectED initiative to expand access to broadband and wireless networks in schools and libraries.

**Teacher and leader innovation fund.**—Funds would support competitive grants to States and LEAs willing to implement bold approaches to improving the effectiveness of the education workforce in high-need schools and districts by creating the conditions needed to identify, reward, retain, and advance effective teachers, principals, and school leadership teams in those schools, and enabling schools to build the strongest teams possible.

**School leadership.**—Funds would support competitive grants to States, high-need LEAs, nonprofit organizations, and IHEs, to assist high-need LEAs in recruiting and training principals (including assistant principals) through such activities as professional development programs in leading the transition to college- and career-ready standards, evaluating and providing feedback to teachers, developing school leadership teams, and creating a positive school climate.

**Expanding educational options.**—Funds would support competitive grants to States, charter school authorizers, charter management organizations, LEAs, and other nonprofit organizations to start or expand high-performing charter and other autonomous public schools in high-need areas.

**Magnet schools assistance.**—Funds would support competitive grants to LEAs to establish and operate magnet school programs that are part of an approved desegregation plan.

**Fund for the improvement of education: programs of national significance.**—Funds would support nationally significant projects to improve the quality of elementary and secondary education, including an interagency initiative to strengthen services provided to disconnected youth, partnerships between districts and researchers to support non-cognitive interventions, and continuation of efforts to improve the quality, analysis, and reporting of elementary and secondary education performance data.

The Administration is proposing legislation reauthorizing the Elementary and Secondary Education Act (ESEA), including programs in this account. Consistent with this reauthorization proposal, the Budget proposes to realign programs in ESEA accounts. When new authorizing legislation is enacted, resources will be requested for these programs. See the "Legislative proposal, not subject to PAYGO" schedule for additional details.

**Language acquisition State grants.**—This program provides formula grants to States to improve services for English Learners. States are accountable for demonstrating that English Learners are making progress toward proficiency in English and meeting the same high State academic standards as all other students. Funds also support national activities, including professional development, evaluation, a national information clearinghouse on English language acquisition, and technical assistance to grantees and funding for demonstration projects to replicate proven practices.

For carrying out the Individuals with Disabilities Education Act (IDEA) and the Special Olympics Sport and Empowerment Act of 2004, [\$12,497,300,000] \$12,600,627,000, of which [\$2,981,201,000] \$2,243,808,000 shall become available on July 1, [2014] 2015, and shall remain available through September 30, [2015] 2016, and of which [\$9,283,383,000] \$10,124,103,000 shall become available on October 1, [2014] 2015, and shall remain available through September 30, [2015] 2016, for academic year [2014-2015] 2015-2016: *Provided*, That the

amount for section 611(b)(2) of the IDEA shall be equal to the lesser of the amount available for that activity during fiscal year [2013] 2014, increased by the amount of inflation as specified in section 619(d)(2)(B) of the IDEA, or the percent change in the funds appropriated under section 611(i) of the IDEA *after reserving funds described in the 12th proviso*, but not less than the amount for that activity during fiscal year [2013] 2014: *Provided further*, That the Secretary shall, without regard to section 611(d) of the IDEA, distribute to all other States (as that term is defined in section 611(g)(2)), subject to the third proviso, any amount by which a State's allocation under section 611(d), from funds appropriated under this heading, is reduced under section 612(a)(18)(B), according to the following: 85 percent on the basis of the States' relative populations of children aged 3 through 21 who are of the same age as children with disabilities for whom the State ensures the availability of a free appropriate public education under this part, and 15 percent to States on the basis of the States' relative populations of those children who are living in poverty: *Provided further*, That the Secretary may not distribute any funds under the previous proviso to any State whose reduction in allocation from funds appropriated under this heading made funds available for such a distribution: *Provided further*, That the States shall allocate such funds distributed under the second proviso to local educational agencies in accordance with section 611(f): *Provided further*, That the amount by which a State's allocation under section 611(d) of the IDEA is reduced under section 612(a)(18)(B) and the amounts distributed to States under the previous provisos in fiscal year 2012 or any subsequent year shall not be considered in calculating the awards under section 611(d) for fiscal year 2013 or for any subsequent fiscal years: *Provided further*, That the funds reserved under 611(c) of the IDEA may be used to provide technical assistance to States to improve the capacity of the States to meet the data collection requirements of sections 616 and 618 and to administer and carry out other services and activities to improve data collection, coordination, quality, and use under parts B and C of the IDEA: [Provided further, That funds made available for the Special Olympics Sport and Empowerment Act of 2004 may be used to support expenses associated with the Special Olympics National and World Games:] *Provided further*, That the level of effort a local educational agency must meet under section 613(a)(2)(A)(iii) of the IDEA, in the year after it fails to maintain effort is the level of effort that would have been required in the absence of that failure and not the LEA's reduced level of expenditures: *Provided further*, That the Secretary may use funds made available for the State Personnel Development Grants program under Part D, subpart 1 of IDEA to evaluate program performance: *Provided further*, That, notwithstanding section 612(a)(18)(B), in reducing a State's allocation under section 611 for failure to comply with the requirement of section 612(a)(18)(A), the Secretary may apply that reduction over a period of consecutive fiscal years, not to exceed five, until the entire reduction is applied: *Provided further*, That the Secretary may, in any fiscal year in which a State's allocation under section 611 is reduced in accordance with section 612(a)(18)(B), reduce the amount a State may reserve under section 611(e)(1) by an amount that bears the same relation to the maximum amount described in that paragraph as the reduction under section 612(a)(18)(B) bears to the total allocation the State would have received in that fiscal year under section 611(d) in the absence of the reduction: *Provided further*, That the Secretary shall either reduce the allocation of funds under section 611 for any fiscal year following the fiscal year for which the State fails to comply with the requirement of section 612(a)(18)(A) as authorized by section 612(a)(18)(B), or seek to recover funds under section 452 of the General Education Provisions Act (20 U.S.C. 1234a): *Provided further*, That the Secretary may reserve up to \$100,000,000 of the funds made available for section 611 of the IDEA to support: (1) competitive grants to States, outlying areas, freely associated states, and the Secretary of the Interior to carry out activities identified in its State Systemic Improvement Plans to improve results for children with disabilities birth through age 21 under Parts B and C of the IDEA; and (2) related activities for carrying out and assessing the performance of such those grants: *Provided further*, That funds reserved under the preceding proviso shall remain available for obligation through September 30, 2016: *Provided further*, That each entity that receives a grant under the second preceding proviso may make subgrants, contracts, or otherwise distribute those funds on a competitive, targeted, or formula basis to public, private, and non-profit entities, including local educational agencies and early intervention service providers, to carry out activities

SPECIAL EDUCATION—Continued

authorized under that proviso: Provided further, That, notwithstanding section 611(d)(1) of the IDEA, after reserving funds under the third preceding proviso and funds for technical assistance, and for payments to the outlying areas, the freely associated States, and the Secretary of the Interior under sections 611(b) and (c) of the IDEA, the Secretary shall allocate the remaining amount among the States in accordance with section 611(d) of the IDEA. <sup>1</sup>To account for the Administration's ESEA reauthorization proposal, the 2015 Budget eliminates the \$1.7 billion advance appropriation that was previously in the School Improvement Programs account (renamed the Education Improvement Programs account) and replaces it with corresponding increases to advance appropriations in the Education for the Disadvantaged (\$841 million, renamed the Accelerating Achievement and Ensuring Equity account) and Special Education (\$841 million) accounts. Total advance appropriations in the Department of Education remain the same at \$22.6 billion.

State Grants:

**Grants to States.**—Formula grants are provided to States to assist them in providing special education and related services to children with disabilities ages 3 through 21. The request for the Grants to States program includes \$100 million to support new Results Driven Accountability (RDA) Incentive grants. These 4-year competitive grants will be used by States to identify and implement promising, evidence-based reforms that will improve service delivery for children with disabilities served under Parts B and C of IDEA, while also building State and local capacity to continue to improve outcomes for those children in the long-term.

**Preschool grants.**—Formula grants provide additional funds to States to further assist them in providing special education and related services to children with disabilities ages 3 through 5 served under the Grants to States program.

The goal of both of these programs is to improve results for children with disabilities by assisting State and local educational agencies to provide children with disabilities with access to high quality education that will help them meet challenging standards and prepare them for employment and independent living.

**Grants for infants and families.**—Formula grants are provided to assist States to implement statewide systems of coordinated, comprehensive, multi-disciplinary interagency programs to provide early intervention services to children with disabilities, birth through age 2, and their families.

The goal of this program is to help States provide a comprehensive system of early intervention services that will enhance child and family outcomes.

**National activities.**—These activities include personnel preparation and development, technical assistance, and other activities to support State efforts to improve results for children with disabilities under the State Grants programs.

The goal of National Activities is to link States, school systems, and families to best practices to improve results for infants, toddlers, and children with disabilities.

**Special Olympics education programs.**—This program funds activities that promote the expansion of the Special Olympics and the design and implementation of Special Olympics education programs.

Note-Percentages may not add to 100% due to rounding.

Note-Previous versions of this table did not contain the categories "Transferred to regular education" and "Moved, but known to have continued in education." The Department of Education revised its data collection forms to include these additional items, which track additional students with disabilities ages 14 and older who leave special education, and are mutually exclusive with other categories included in this table. Because this is the case, the percentages reported in this table are not comparable with percentages reported in the same table in previous years.

**Vocational rehabilitation State grants.**—The basic State grants program provides Federal matching funds to State vocational rehabilitation (VR) agencies to assist individuals with physical or mental impairments to become gainfully employed. Services are tailored to the specific needs of the individual. Priority is given to serving those with the most significant disabilities. Current law requires that between 1.0 percent and 1.5 percent of the funds appropriated for the VR State grants program be set aside for Grants for Indians.

The program performance measures for this program are based on State VR agency performance indicators developed pursuant to Section 106 of the Rehabilitation Act. One of these indicators

REHABILITATION SERVICES AND DISABILITY RESEARCH—Continued

measures the percentage of general and combined State VR agencies that assist at least 55.8 percent of individuals receiving services to achieve an employment outcome. In 2012, 57 percent of the agencies met this performance criterion. Another indicator measures the percentage of general and combined State VR agencies that assist at least 85 percent of individuals with employment outcomes to achieve competitive employment. In 2012, 96 percent of general and combined agencies met this performance criterion. These outcome data are based on the approximately 323,300 individuals whose service records were closed in 2012 after receiving services.

The request for the VR State Grants program includes the CPIU adjustment specified in the authorizing statute, which would offset the reduction in funds resulting from the Administration's proposal to eliminate separate funding authorities for the smaller VR-related programs under the Rehabilitation Act in order to reduce duplication of effort and administrative costs, streamline program administration at the Federal and local level, and improve efficiency and accountability. The FY 2015 request also includes language that would allow the Secretary to use amounts provided in this Act for the VR State Grants program that remain available subsequent to the reallocation of funds to States pursuant to section 110(b) of the Rehabilitation Act to support innovative activities aimed at improving outcomes for individuals with disabilities, including activities under the Promoting Readiness of Minors in Supplemental Security Income (PROMISE) program.

*Client assistance State grants.*—Formula grants are made to States to provide assistance in informing and advising clients and applicants about benefits available under the Rehabilitation Act and, if requested, to pursue legal or administrative remedies to ensure the protection of the rights of individuals with disabilities.

*Training.*—Grants are made to States and public or nonprofit agencies and organizations, including institutions of higher education, to increase the number of skilled personnel available for employment in the field of rehabilitation and to upgrade the skills of those already employed. The Administration's proposal would eliminate funds currently provided to State VR agencies to support in-service training for agency personnel under section 302(g)(3) of the Training program as these agencies are able to use VR State Grant funds for training State agency personnel. This proposal would eliminate the administrative costs involved in making small grants each year to State VR agencies under the Training program and improve the efficiency of training delivered under the Rehabilitation Act.

*Demonstration and training programs.*—Competitive grants and contracts are awarded to expand and improve the provision and effectiveness of programs and services authorized under the Rehabilitation Act or further the purposes of the Act in promoting the employment and independence of individuals with disabilities in the community. Funds are used to support model demonstrations, technical assistance, and projects designed to improve program performance and the delivery of vocational rehabilitation and independent living services.

*Independent living.*—Grants are awarded to States and consumer-controlled nonprofit organizations to assist individuals with significant disabilities in their achievement of self-determined independent living goals. Grants are also awarded to provide support services to older blind individuals to increase their ability to care for their own needs.

*Protection and advocacy of individual rights.*—Formula grants are made to State protection and advocacy systems to protect the legal and human rights of individuals with disabilities.

*National institute on disability and rehabilitation research.*—The Institute carries out a comprehensive and coordinated program of rehabilitation research and related activities. Through grants and contracts, it supports the conduct and dissemination of research and development aimed at improving the lives of individuals with disabilities. The Institute also promotes the development and utilization of new technologies to assist these individuals in achieving greater independence and integration into society. Funds would also be used to conduct rigorous evaluations of programs and activities authorized under the Rehabilitation Act.

*Helen Keller national center for deaf blind youths and adults.*—The Center provides services to deaf-blind youths and adults and provides training and technical assistance to professional and allied personnel at its national headquarters center and through its regional representatives and affiliate agencies.

*Assistive technology.*—Assistive Technology (AT) programs support AT State formula grants to implement comprehensive Statewide programs designed to maximize the ability of individuals with disabilities of all ages to obtain assistive technology. States conduct activities that include alternative financing programs, device reutilization programs, device loan programs, and device demonstrations. Formula grants are also provided under the AT Protection and Advocacy program to systems established under the Developmental Disabilities Assistance and Bill of Rights Act for protection and advocacy services to assist individuals with disabilities of all ages. Funds also support national technical assistance activities for these formula grant programs.

This institution provides undergraduate, continuing education, and graduate programs related to deafness for students who are deaf and hard of hearing. The University also conducts basic and applied research and provides public service programs for persons who are deaf and persons who work with them.

Gallaudet operates the Laurent Clerc National Deaf Education Center, which includes two elementary and secondary education programs on the main campus of the University. The Kendall Demonstration Elementary School serves students who are deaf from infancy through age 15, and the Model Secondary School for the Deaf (MSSD) serves high school age students who are deaf. The Clerc Center also develops and disseminates information on effective educational techniques and strategies for teachers and professionals working with students who are deaf or hard of hearing.

In 2013, the appropriation for Gallaudet represented approximately 67 percent of total revenue for the University. Approximately 25 percent of the Federal appropriation was used to support activities at the Clerc Center, which received nearly 100 percent of its revenue through the appropriation. In addition, the University receives other Federal funds such as student financial aid,

The Administration is proposing legislation reauthorizing the Carl D. Perkins Career and Technical Education Act of 2006, including programs in this account. When new authorizing legislation is enacted, resources will be requested for these programs. See the "Legislative proposal, not subject to PAYGO" schedule for additional details.

*Adult education:*

*State programs.*—Funds support formula grants to States to help eliminate functional illiteracy among the Nation's adults, to assist adults in obtaining a high school diploma or its equivalent, and to promote family literacy. A portion of the funds is reserved for formula grants to States to provide English literacy and civics education for immigrants and other limited English proficient adults.

*National leadership activities.*—Funds support discretionary activities to evaluate the effectiveness of Federal, State, and local adult education programs, and to test and demonstrate methods of improving program quality. The additional funds requested in fiscal year 2015 would support new competitive Skills Challenge Grants for partnerships—among States, adult education providers, institutions of higher education, and private organizations, including industry representatives with identified regional or local workforce needs—that build evidence of effectiveness and demonstrate innovative models for transforming our adult education system.

Aid for institutional development:

*Strengthening institutions.*—Funds support planning and development grants for improving academic programs and financial management at schools that enroll high proportions of disadvantaged students and have low per-student expenditures.

*Strengthening tribally controlled colleges and universities.*—Discretionary and mandatory funds support grants to American Indian tribally controlled colleges and universities with scarce resources to enable them to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

*Strengthening Alaska Native and Native Hawaiian-serving institutions.*—Discretionary and mandatory funds support Alaska Native and Native Hawaiian-serving institutions to enable them to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

*Strengthening historically Black colleges and universities.*—Discretionary and mandatory funds support grants to help historically Black undergraduate institutions to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

*Strengthening historically Black graduate institutions.*—Funds support grants to help historically Black graduate institutions to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

*Strengthening predominantly Black institutions.*—Discretionary and mandatory funds support grants to predominantly Black institutions to improve and expand their capacity to serve students.

*Strengthening Asian American and Native American Pacific Islander-serving institutions.*—Discretionary and mandatory funds support grants to help Asian American and Native American Pacific Islander-serving institutions improve and expand their capacity to serve students and to strengthen management and fiscal operations.

*Strengthening Native American-serving nontribal institutions.*—Discretionary and mandatory funds support grants to help Native American-serving nontribal institutions improve and expand their capacity to serve students and to strengthen management and fiscal operations.

*Minority science and engineering improvement.*—Funds support grants to predominantly minority institutions to help them make long-range improvements in science and engineering education and to increase the participation of minorities in scientific and technological careers.

Aid for Hispanic-serving institutions:

*Developing Hispanic-serving institutions.*—Funds support Hispanic-serving institutions to help them improve and expand their capacity to serve students.

*Developing Hispanic-serving institutions STEM and articulation programs.*—Mandatory funds support Hispanic-serving institutions to help them improve and expand their capacity to serve students with priority given to applications that propose to increase the number of Hispanics and other low-income students attaining degrees in the fields of science, technology, engineering, or mathematics; and to develop model transfer and articulation agreements between 2-year Hispanic-serving institutions and 4-year institutions in such fields.

*Promoting postbaccalaureate opportunities for Hispanic Americans.*—Discretionary funds support Hispanic-serving Institutions to help them expand and improve postbaccalaureate educational opportunities.

Other aid for institutions:

*International education and foreign language studies programs.*—Funds promote the development and improvement of domestic and overseas international and foreign language programs.

*Fund for the improvement of postsecondary education.*—Funds would support the First in the World initiative, which would de-

velop and test innovative strategies and practices that improve college completion rates and make college more affordable, particularly for low-income students. Funds would also support College Success Grants to minority-serving institutions to develop sustainable strategies to reduce costs and improve student outcomes.

**Tribally controlled postsecondary career and technical institutions.**—Funds support the operation and improvement of eligible tribally controlled postsecondary career institutions to ensure continued and expanded educational opportunities for Indian students.

**Special programs for migrant students.**—Funds support grants to institutions of higher education and nonprofit organizations that assist migrant students in earning a high school equivalency certificate or in completing their first year of college.

**Assistance for students:**

**Federal TRIO programs.**—Funds support postsecondary education outreach and student support services to help individuals from disadvantaged backgrounds prepare for, enter, and complete college and graduate studies.

**Gaining early awareness and readiness for undergraduate programs.**—Funds support early college preparation and awareness activities at the State and local levels to ensure that low-income elementary and secondary school students are prepared for and pursue postsecondary education.

**Graduate assistance in areas of national need.**—Funds support fellowships to graduate students of superior ability who have financial need for study in areas of national need.

**Child care access means parents in school.**—Funds support a program designed to bolster the participation of low-income parents in postsecondary education through the provision of campus-based child care services.

**Other activities:**

**GPRA data/HEA program evaluation.**—Funds support data collection, evaluation, research, and demonstration activities relating to programs under the HEA.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond, as well as any administrative expenses for the College Housing and Academic Facilities Loans Program and the Historically Black College and University Capital Financing Program. The subsidy amounts are estimated on a present value basis; the administrative expenses are on a cash basis. These programs are administered separately but consolidated in the Budget for presentation purposes.

*College housing and academic facilities loans program.*—Funds for this activity pay the Federal costs of administering the College Housing and Academic Facilities Loans (CHAFL), College Housing Loans (CHL), and Higher Education Facilities Loans (HEFL) programs. Prior to 1994, these programs provided financing for the construction, reconstruction, and renovation of housing, academic, and other educational facilities. Although no new loans have been awarded since 1993, the Department of Education will incur costs for administering the outstanding loans through 2030.

*Historically Black college and university capital financing program.*—The Historically Black College and University (HBCU) Capital Financing Program provides HBCUs with access to capital financing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation. The authorizing statute gives the Department authority to enter into insurance agreements with a private for-profit Designated Bonding Authority. The bonding authority issues the loans and maintains an escrow account in which 5 percent of each institution's principal is deposited. The Budget requests \$19.1 million in new loan subsidies, allowing the program to guarantee an estimated \$322 million in new loans in 2015. The Budget also requests a 2-year period of availability for this loan subsidy. In addition, the Budget requests funds for the Federal costs of administering the program and providing technical assistance activities that improve the financial stability of HBCUs.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Federal Government resulting from direct loans obligated in 1996 and beyond. The Federal Financing Bank (FFB) purchases bonds issued by the HBCU Designated Bonding Authority. Under the policies governing Federal credit programs, bonds purchased by the FFB and supported by the Department of Education with a letter of credit create the equivalent of a Federal direct loan. HBCU bonds are also available for purchase by the private sector, and these will be treated as loan guarantees. However, the Department anticipates that all HBCU loans will be financed by the FFB. The amounts in this account are a means of financing and are not included in the budget totals.

Notes.—Figures include, in all years, institutional matching share of defaulted notes assigned from institutions to the Education Department.

Funding from the Student Financial Assistance account and related matching funds would provide nearly 11.7 million awards totaling more than \$37.0 billion in available aid in award year 2015–2016. In addition, the request would provide \$4.1 billion in aid to an estimated 766,000 students through an expanded Perkins loan program.

**Federal Pell grants.**—Pell Grants are the single largest source of grant aid for postsecondary education. Funding for this program is provided from two sources: discretionary appropriations and mandatory budget authority provided by the College Cost Reduction and Access Act, as amended; the Budget Control Act; and changes to the Higher Education Act of 1965 made in the 2012 appropriations act.

In 2015, nearly 8.9 million undergraduates will receive up to \$4,860 from the discretionary award and an additional \$970 from the mandatory add-on to help pay for postsecondary education. Undergraduate students establish eligibility for these grants under award and need determination rules set out in the authorizing statute and annual appropriations act. The 2015 Budget request includes \$22.8 billion in discretionary funding for Pell Grants in 2015, which, when combined with previously provided mandatory funding, will support a projected maximum award of \$5,830. Additionally, the Budget proposes to: strengthen academic progress requirements in the Pell Grant program to encourage students to complete their studies on time; and, reinstate the Ability to Benefit provision for students enrolled in eligible career pathways programs.

**Federal supplemental educational opportunity grants (SEOG).**—Federal funds are awarded by formula to qualifying institutions, which use these funds to award grants to undergraduate students. While institutions have discretion in awarding these funds, they are required to give priority to Pell Grant recipients and other students with exceptional need. The Federal share of these grants cannot exceed 75 percent of the total grant. The 2015 Budget includes \$733 million for SEOG, which would generate \$975 million in aid to 1.6 million students.

**Federal work-study.**—Federal funds are awarded by formula to qualifying institutions, which provide part-time jobs to eligible undergraduate and graduate students. Hourly earnings under this program must be at least the Federal minimum wage. Federal funding, in most cases, pays 75 percent of a student's hourly wages, with the remaining 25 percent paid by the employer. The Federal Work-Study program also requires participating institutions to use at least 7 percent of their total funds for students employed in community service jobs. The 2015 Budget includes \$975 million for Work-Study, which would generate \$1.16 billion in aid to 690,000 students.

**Federal Perkins loans.**—Institutions award low-interest loans from institutional revolving funds, which are comprised of Federal Capital Contributions, institutional matching funds, and student repayments on outstanding loans. No new Federal Capital Contributions have been appropriated since 2004. The Budget proposes to modernize and expand the Perkins Loan program so more colleges can participate and more students can access these loans. The proposal would increase, beginning on July 1, 2015, the annual loan amounts available to students to \$8.5 billion from the current \$1 billion. Rather than operating through insti-

STUDENT FINANCIAL ASSISTANCE—Continued

tutional revolving funds, the Federal Government would originate and service Perkins Loans. Loan volume would be allocated among degree-granting institutions. This new formula will encourage colleges to control costs and offer need-based aid to prevent excessive indebtedness. Schools would have some discretion about student eligibility. Perkins Loan borrowers would be charged the same interest rate as Unsubsidized Stafford Loan borrowers. Perkins loans would accrue interest while students are in school, and other loan terms and conditions would be the same as current Unsubsidized Stafford loans. As current Perkins Loan borrowers repay their loans, schools would remit the Federal share of those payments to the Department of Education, beginning at the statutory date described in the Higher Education Act of 1965. Schools would retain their own share of the revolving funds, as well as amounts sufficient to cover the costs of the various Perkins Loan forgiveness provisions. Mandatory loan subsidy costs of this proposal would reduce 2015 outlays by \$395 million, savings which would be redirected to the Pell Grant program to help maintain the maximum Pell award. Subsidy costs are displayed in the Federal Perkins Loan program account.

*Iraq and Afghanistan service grants.*—This program provides non-need-based grants to students whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan as a result of performing military service after September 11, 2001. Service Grants are equal to the maximum Pell Grant for a given award year. The Administration anticipates spending \$355,000 to support an estimated maximum of 1,000 awards in 2015.

*Funding tables.*—The following tables display student aid funds available, the number of aid awards, average awards, and the unduplicated count of recipients from each Federal student aid program. Loan amounts reflect the amount actually loaned to borrowers, not the Federal cost of these loans. The data in these tables include matching funds wherever appropriate. The 2015 data in these tables reflect the Administration's legislative proposals.

The Department of Education manages Federal student aid programs that will provide nearly \$143 billion in new Federal student aid grants and loans to 12.8 million students and parents in 2015. The Offices of Postsecondary Education, the Under Secretary and Federal Student Aid (FSA) are primarily responsible for administering the Federal student financial assistance programs. FSA was created by Congress in 1998 with a mandate to improve service to students and other student aid program participants, reduce student aid administration costs, and improve accountability and program integrity.

**Student Aid Administration**

The 2015 Budget includes \$675 million for student aid administration activities and \$772 million for loan servicing activities, for a total of \$1.447 billion in discretionary budget authority. Administrative functions supported by these discretionary funds include: processing student aid applications; providing and tracking aid awards to students, parents, and schools; servicing

the Department's loan portfolio; promoting efforts to reach key student populations; and simplifying the student aid application. *Servicing Cost Assumptions:*

The following table details the major assumptions driving servicing costs for Federal student loans. Servicing costs are largely determined by volume (average borrower accounts per month) and the average contractual unit costs negotiated to service the volume. Average borrower accounts per month are calculated by the distribution of new unique borrower accounts to one of the multiple servicers contracted with the Department. Currently, the Department contracts with 11 servicers, through the Title IV Additional Servicers (TIVAS) contract and the new Not-For-Profit Servicers (NFP) contract. The average unit cost to service each borrower is derived by contractual pricing schedules based on different borrower statuses (e.g., in-school, in-grace/current repayment, deferment/forbearance, and delinquency). Differences in distribution among loan statuses will affect overall unit costs due to different pricing for different statuses (e.g., in-repayment borrowers cost more to service than in-school borrowers).

*Trends in Assumptions:*

From passage of SAFRA through December 26, 2013, servicing activities were funded both by discretionary funds and mandatory funds (as provided by SAFRA for eligible NFP servicers. However, the Bipartisan Budget Act of 2013 eliminated mandatory funding for servicing costs paid to NFP servicers, instead requiring all servicing costs after the date of enactment to be funded by discretionary budget authority.)

The TEACH Grant program, authorized by the College Cost Reduction and Access Act of 2007, awards annual grants of up to \$4,000 to full- or part-time undergraduate and graduate students who agree to teach mathematics, science, foreign languages, bilingual education, special education, or reading at a high-poverty school for not less than four years within eight years of graduation. The program began awarding grants in the 2008-2009 award year. Students must have a grade point average of 3.25 or higher to be eligible to receive a grant. Students who fail to fulfill the service requirements must repay the grants, including interest accrued from the time of award.

Because TEACH Grants turn into loans in cases where the service requirements are not fulfilled, for budget and accounting purposes the program is operated consistent with the requirements of the Federal Credit Reform Act of 1990. This program account records subsidy costs reflecting the net present value of the estimated lifetime Federal program costs for grants awarded in a given fiscal year. Under this approach the subsidy cost reflects the cost of grant awards net of expected future repayments for grants that are converted to loans.

The Higher Education Amendments of 1998 clarified that reserve funds held by public and non-profit guaranty agencies participating in the Federal Family Education Loan (FFEL) program are Federal property. These reserves are used to pay default claims from FFEL lenders and fees to support agency efforts to avert defaults. The Federal Government reimburses these reserves for default claim payments. The following schedule reflects the balances in these guaranty agency funds.

The Federal Government currently operates two major student loan programs: the FFEL program and the William D. Ford Federal Direct Loan (Direct Loan) program. The Health Care and Education Reconciliation Act of 2010 eliminated the authorization to originate new FFEL loans; as of July 1, 2010, all new loans are originated in the Direct Loan program. This summary section outlines the structure of these two programs and provides text tables displaying program cost data; loan volume, subsidy, default, and interest rates; and other descriptive information.

From its inception in 1965 through the end of June 2010, the FFEL program provided almost \$899 billion in loans to postsecondary students and their parents. Although no new FFEL loans will be originated, billions of outstanding FFEL loans will continue to be serviced by lenders. Since July 1, 1994, the Direct Loan program has provided nearly \$796 billion in new and consolidation loans to students and parents. The Direct Loan program will make \$101.6 billion in new loans available in 2015, excluding Consolidation Loans, the current Perkins program, and the Budget's proposed new Perkins program.

Loan capital in the FFEL program was provided by private lenders, facilitated by the Federal guarantee on the loans. For the outstanding FFEL portfolio, State and private nonprofit guaranty agencies act as agents of the Federal Government, providing a variety of services including collection of some defaulted loans, default avoidance activities, and counseling to schools, students, and lenders. The Government provides substantial payments to these guaranty agencies. The Bipartisan Budget Act of 2013 eliminated the guaranty agencies' current retention share of the original defaulted student loan amount, and reduced the maximum fee they can charge a borrower on the borrower's outstanding balance from 18.5 to 16 percent. Additionally, the Act required these agencies to send the rehabilitated loans to the Department of Education if they cannot find a private lender buyer, but maintained their right to the 16 percent collection fee. The Government also pays interest subsidies to lenders for certain borrowers, as well as most costs associated with loan defaults and other write-offs.

Under the Direct Loan program, the Federal Government provides loan capital through the Treasury while loan origination and servicing is handled by private-sector companies under performance-based contracts with the Department. The Direct Loan program began operation in academic year 1994–1995 with 7 percent of overall loan volume but now originates all new loans.

The Direct Loan program offers four types of loans: Stafford, Unsubsidized Stafford, PLUS, and Consolidation. Evidence of financial need is required for an undergraduate student to receive a subsidized Stafford loan (graduate and professional students are not eligible). The other three loan programs are available to borrowers at all income levels. Loans can be used only to meet qualified educational expenses.

The Bipartisan Student Loan Certainty Act of 2013 changed the calculation for student loan interest rates. The rates will be set annually based on the 10-year Treasury note but those rates will remain fixed for the life of the loan. For Subsidized Stafford loans available to undergraduates, the interest rate will be equal to the 10-year Treasury note plus 2.05 percent and capped at 8.25 percent. Loans originated in academic year 2013–2014 have an interest rate of 3.86 percent. Interest payments for these loans are fully subsidized by the Federal Government while a student is in school (up to 150 percent of program length) and during grace and deferment periods. The Consolidated Appropriations Act, 2012, provides that interest on Stafford loans issued between July 1, 2012 and July 1, 2014 will begin to accrue during the six-month grace period after a borrower leaves school.

The interest rate on new Unsubsidized Stafford loans for undergraduate borrowers is the same as that on subsidized Stafford loans for undergraduates.

The Unsubsidized Stafford loan interest rate for graduate and professional students is equal to the 10-year Treasury note plus 3.6 percent and capped at 9.5 percent; loans originated in academic year 2013–2014 have an interest rate of 5.41 percent. The borrower interest rate on PLUS loans to graduate and professional students and parents of undergraduate borrowers is equal to

the 10-year Treasury note plus 4.6 percent and capped at 10.5 percent; loans originated in academic year 2013–2014 have an interest rate of 6.41 percent.

For loans originated in the FFEL program, lenders may receive an interest subsidy, known as a special allowance payment, from the Government to ensure a guaranteed rate of return on the loans. Special allowance payments vary by loan type, are determined quarterly, and are based on current borrower interest rates and market-yield formulas. The guarantee percentage paid to lenders on most defaults is 97 percent of unpaid loan principal (including any accrued interest on the full loan principal). The Consolidated Appropriations Act, 2012, gave holders of Federal student loans the option to change the basis for the special allowance calculation from commercial paper to the London Interbank Offered Rate (LIBOR), beginning April 1, 2012.

Consolidation loans allow borrowers to combine FFEL, Direct Loans, and Perkins Loans, as well as some loans made under the Public Health Service Act. The interest rate for new Consolidation loans equals the weighted average of the interest rate on the loans consolidated, rounded up to the nearest one-eighth of a percent.

For most types of Direct Loans, the origination fee is a base rate of one percent, but an additional surcharge for sequestration was added in 2013 and in 2014. The base origination fee for PLUS loans is four percent, but is also subject to an additional surcharge in 2013 and 2014. Loans are discharged when borrowers die, are totally and permanently disabled, or, under some circumstances, declare bankruptcy.

New borrowers after October 1, 1998, who are employed as teachers in schools serving low-income populations for five consecutive, complete school years, qualify for up to \$5,000 in loan forgiveness; this benefit is increased to \$17,500 for mathematics, science, and special education teachers considered highly qualified under criteria established in the Elementary and Secondary Education Act.

In addition, under a loan forgiveness program for public-sector employees, qualifying borrowers who have worked for 10 years while making payments on their student loans will have any remaining loan balance forgiven. This benefit is only available in the Direct Loan program, though FFEL borrowers may receive the benefit by taking out a Direct Consolidation Loan. Forgiveness is available for all borrowers, regardless of when they took out their loans. The 2015 Budget proposes to reform some of the terms of several loan repayment plans and to expand the reformed PAYE to all student borrowers.

Student borrowers may choose from four general types of repayment plans: standard, graduated, extended, and income-driven. The repayment period is 10 years for the standard, graduated, and income sensitive repayment plans; 20 years for the Pay As You Earn (PAYE) plan; and 25 years for the extended, income-based, and income-contingent repayment plans. The extended repayment plan is available for borrowers with outstanding loans totaling more than \$30,000. Income-driven plans generally require partial financial hardship in order to qualify for reduced payments and the monthly payment is capped at the monthly payment of the 10-year Standard plan. At the end of the repayment term, the borrower's remaining balance is forgiven. FFEL borrowers may change repayment plans annually. Direct Loan borrowers may switch between repayment plans at any time.

The 2015 Budget proposes to: expand PAYE to all qualified student borrowers regardless of when they took out loans: eliminate the current standard payment cap in PAYE; calculate payments for married borrowers filing separately on the combined household Adjusted Gross Income; cap Public Sector Loan For-

FEDERAL DIRECT STUDENT LOAN PROGRAM ACCOUNT—Continued  
givenness (PSLF) at \$57,500 (the independent undergraduate student Direct Loan limit); establish a 25-year forgiveness period for borrowers with a debt above \$57,500; prevent payments made under non-income-driven repayment plans from counting toward PSLF terms; and cap the amount of interest that can accrue at 50 percent when a borrower's monthly payment is insufficient to cover the interest.

The following tables display performance indicators and program data; including projected overall Direct Loan and FFEL costs; and a summary of default rates.

<sup>1</sup>Default rates displayed in this table, which reflect projected defaults over the life of a loan cohort, are used in developing program cost estimates. The Department uses other rates based on defaults occurring in the first 3 years of repayment to determine institutional eligibility to participate in Federal loan programs. These 3-year rates are lower than those included in this table.

FFEL program payments are made to lenders (interest subsidies, loan defaults, and discharges) and guaranty agencies (default collection costs, administrative services). These payments

are partially offset by an annual consolidation loan holder fee. In Direct Loans, cash outflows are primarily payments to Treasury. Cash inflows include principal and interest payments on outstanding Direct Loans.

The following table shows Government payments to and from lenders, guaranty agencies, and borrowers for specific years, regardless of when loans were originated. These flows do not reflect long-term costs to the Government, nor the value of outstanding loan assets, which are reflected in credit reform subsidy estimates.

The Federal Credit Reform Act of 1990 accounts for differences in the amount and timing of cash flows among direct and guaranteed loan programs to make cost estimates for these programs comparable with each other and other Federal programs.

Notes: For 2013, the rates are current; these include the actual executed rates for 2013 and the effect of re-estimates on those rates. The 2013 cohort for Consolidation Loans includes volume and subsidy from the Special Direct Consolidation Loan program.

The table above describes Direct Loan costs on a subsidy rate basis: program costs calculated under the Federal Credit Reform Act of 1990 and comparably projected estimates of Federal administrative costs. As with any long-term projection, the comparison is based on assumed future interest rates, borrower characteristics, administrative costs, and other factors over the life of the loan cohort. To the degree actual conditions differ from projections, estimated subsidy rates will change.

The Federal Credit Reform Act of 1990 requires the cost of existing loan cohorts to be reestimated to reflect changes in actual and assumed borrower behavior, interest rates, and other factors. The following table shows the impact of these reestimates in FFEL and Direct Loans.

**Loan Disbursement and Subsidy Costs**

(in billions of dollars)

	FFEL	Direct Loans
Original Subsidy Costs	+\$77.1	-\$77.0
Cumulative Reestimates	-\$50.7	+\$7.3
Net Subsidy Costs	+\$26.3	-\$69.8
Total Disbursements	+\$898.7	+\$795.9

Changes in interest rate projections are a significant factor in FFEL and Direct Loan reestimates; recent declines in interest rates below historical averages have been a major driver in changes to program costs. In addition, the number of borrowers enrolled in income-based repayment plans has begun to increase which reflects program costs.

As required by the Federal Credit Reform Act of 1990, this program account records the subsidy costs associated with Federal Family Education Loans (FFEL), formerly guaranteed student loans (GSL), committed in 1992 and beyond. Beginning with the 1993 cohort of loans, mandatory administrative costs, specifically contract collection costs, are included in the FFEL subsidy estimates of each year's cohort. Subsidy amounts are estimated on a net present value basis.

A description of the FFEL program and accompanying tables are included under the Federal Direct Student Loan program account.

#### Research and Statistics:

**Research, development, and dissemination.**—Funds support a diverse portfolio of investigator-led research and development, evaluation studies, research and development centers, and dissemination activities that provide parents, teachers, and schools with evidence-based information on effective educational practices. Funds requested in 2015 would be used to sustain and expand research and evaluation efforts on topics in early childhood, elementary, secondary, and postsecondary education.

**Statistics.**—Funds support the Department's statistical data collection activities, which are conducted by the National Center for Education Statistics (NCES). NCES collects, analyzes, and disseminates education statistics at all levels, from preschool through postsecondary and adult education, including statistics on international education activities. The 2015 request would allow NCES to continue its on-going portfolio of activities, including collecting and reporting information on sub-baccalaureate education and training for adults, as well as to obtain State-level Program for International Student Assessment (PISA) data for a sample of States and to collect student-level administrative National Postsecondary Student Aid Survey (NPSAS) data every two years, providing more timely information on educational costs, financial aid, enrollment, and student progress.

**Regional educational laboratories.**—Funds support a network of 10 regional laboratories that provide expert advice, including training and technical assistance, to help States and school districts apply proven research findings in their school improvement efforts.

**Assessment.**—Funds support the National Assessment of Educational Progress (NAEP) and the National Assessment Governing Board (NAGB). NAEP administers assessments to samples of students in order to gather reliable information about educational attainment in important academic areas. NAGB is responsible for formulating NAEP policy; developing student achievement levels; and selecting, consistent with the requirements of the statute, the subjects to be assessed. The request for 2015 would provide support for conducting reading, mathematics, and science assessments at grades 4, 8, and 12.

**Research in special education.**—Funds support research to address gaps in scientific knowledge in order to improve special education and early intervention services and results for infants, toddlers, and children with disabilities.

**Statewide data systems.**—Funds support competitive grant awards to States to foster the design, development, and implementation of longitudinal data systems. In 2015, funding would support linking K-12 systems to systems that include early childhood, postsecondary, and workforce information, or further developing such systems. In addition, funds would support awards

to public and private agencies to improve data coordination, quality, and use at the local, State, and national levels.

*Special education studies and evaluations.*—Funds support studies, evaluations, and assessments related to the implementation of the Individuals with Disabilities Education Act in order to improve special education and early intervention services and results for infants, toddlers, and children with disabilities.

The Program Administration account includes the direct Federal costs of providing grants and administering elementary and secondary education; Indian education; English language acquisition; higher education; career, technical, and adult education; special education programs; and programs for persons with disabilities. It also supports assessment, statistics, and research activities.

In addition, this account includes the cost of providing centralized support and administrative services, overall policy development, and strategic planning for the Department. Included in the centralized activities are rent and mail services; telecommunications; contractual services; financial management and accounting, including payments to schools, education agencies and other grant recipients, and preparation of auditable financial statements; information technology services; personnel management; personnel security; budget formulation and execution; legal services; congressional and public relations; and intergovernmental affairs.

Included in this account is the Department of Education's cost to relocate staff and renovate buildings occupied by Department staff.

Also included in this account are contributions from the public. Activities supported include receptions for Blue Ribbon Schools and Historically Black Colleges and Universities. Contributions not designated for a specific purpose are in the account's Gifts and Bequests Miscellaneous Fund.

*Reimbursable program.*—Reimbursements to this account are for providing administrative services to other agencies.

**GENERAL PROVISIONS**

GENERAL PROVISIONS

SEC. 301. No funds appropriated in this Act may be used for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to overcome racial imbalance in any school or school system, or for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to carry out a plan of racial desegregation of any school or school system.

SEC. 302. None of the funds contained in this Act shall be used to require, directly or indirectly, the transportation of any student to a school other than the school which is nearest the student's home, except for a student requiring special education, to the school offering such special education, in order to comply with title VI of the Civil Rights Act of 1964. For the purpose of this section an indirect requirement of transportation of students includes the transportation of students to carry out a plan involving the reorganization of the grade structure of schools, the pairing of schools, or the clustering of schools, or any combination of grade restructuring, pairing, or clustering. The prohibition described in this section does not include the establishment of magnet schools.

SEC. 303. No funds appropriated in this Act may be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools.

(TRANSFER OF FUNDS)

SEC. 304. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which

are appropriated for the Department of Education in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: *Provided*, That the transfer authority granted by this section shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: *Provided further*, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

SEC. 305. The Outlying Areas may consolidate funds received under this Act, pursuant to 48 U.S.C. 1469a, under part A of title V of the ESEA.

SEC. 306. Section 105(f)(1)(B)(ix) of the Compact of Free Association Amendments Act of 2003 (48 U.S.C. 1921d(f)(1)(B)(ix)) shall be applied by substituting ["2014"] "2015" for "2009".

【SEC. 307. (a) Section 206 of the Department of Education Organization Act (20 U.S.C. 3416) is amended—

(1) by striking out the heading and inserting "Office of Career, Technical, and Adult Education";

(2) by striking out "Office of Vocational and Adult Education" and inserting "Office of Career, Technical, and Adult Education";

(3) by striking out "Assistant Secretary for Vocational and Adult Education" and inserting "Assistant Secretary for Career, Technical, and Adult Education"; and

(4) by striking out "vocational and adult education" each place it appears and inserting "career, technical, and adult education".

(b) Section 202 of the Department of Education Organization Act (20 U.S.C. 3412) is amended—

(1) in subsection (b)(1)(C), by striking out "Assistant Secretary for Vocational and Adult Education" and inserting "Assistant Secretary for Career, Technical, and Adult Education"; and

(2) in subsection (h), by striking out "Assistant Secretary for Vocational and Adult Education" each place it appears and inserting "Assistant Secretary for Career, Technical, and Adult Education".

(c) Section 1 of the Department of Education Organization Act (20 U.S.C. 3401 note) is amended by striking out the entry for section 206 and inserting "Sec. 206. Office of Career, Technical, and Adult Education".

(d) Section 114(b)(1) of the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2324(b)(1)) is amended by striking out "Office of Vocational and Adult Education" and inserting "Office of Career, Technical, and Adult Education".】

SEC. 【308】307. The Secretary may reserve funds under section 9601 of the ESEA (subject to the limitations in subsections (b) and (c) of that section) in order to carry out activities authorized under that section with respect to any ESEA program funded in this Act and without respect to the source of funds for those activities: *Provided*, That any funds reserved under this section shall be available from July 1, 【2014】 2015, through September 30, 【2015】 2016: *Provided further*, That not later than 10 days prior to the initial obligation of funds reserved under this section,

the Secretary shall submit an evaluation plan to the Senate Committees on Appropriations and Health, Education, Labor, and Pensions and the House Committees on Appropriations and Education and the Workforce which identifies the source and amount of funds reserved under this section, the impact on program grantees if funds are withheld, and the programs to be evaluated with such funds.

【SEC. 309. (a) CONSOLIDATIONS.—For fiscal year 2006 and each succeeding fiscal year, if a local educational agency described in subsection (b) is formed at any time after 1938 by the consolidation of 2 or more former school districts, the local educational agency may elect to have the Secretary determine its eligibility for any fiscal year on the basis of 1 or more of those former districts, as designated by the local educational agency.

(b) ELIGIBLE LOCAL EDUCATIONAL AGENCIES.—A local educational agency referred to in subsection (a) is—

(1) any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied, and was determined to be eligible under, section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as that section was in effect for that fiscal year; or

(2) a local educational agency formed by the consolidation of 2 or more districts, at least 1 of which was eligible for assistance under this section for the fiscal year preceding the year of the consolidation, if—

(A) for fiscal years 2006 through 2013 the local educational agency notified the Secretary not later than 30 days after the date of enactment of this Act; and

(B) for fiscal year 2014 the local educational agency includes the designation in its application under section 8005 or any timely amendment to such application.

(c) AMOUNT.—A local educational agency eligible under subsection (b) shall receive a foundation payment as provided for under subparagraphs (A) and (B) of subsection (h)(1), as in effect on the date of enactment of this Act, except that the foundation payment shall be calculated based on the most recent payment received by the local educational agency based on its former common status.】

SEC. 【310】308. The Secretary of Education shall—

(1) modify the Free Application for Federal Student Aid described in section 483 of the HEA so that the Free Application for Federal Student Aid contains an individual box for the purpose of identifying students who are foster youth or were in the foster care system; and

(2) utilize such identification as a tool to notify students who are foster youth or were in the foster care system of their potential eligibility for Federal student aid, including postsecondary education programs through the John H. Chafee Foster Care Independence Program and any other Federal programs under which such students may be eligible to receive assistance.

*Federal Salaries and Expenses (previously Office of the Administrator).*—This account provides the Federal salaries and other expenses of the National Nuclear Security Administration (NNSA) mission and mission support staff, including the Federal personnel for Defense Programs, Defense Nuclear Nonproliferation, Emergency Operations, Defense Nuclear Security, Acquisition and Project Management, the Office of the Chief Information Officer, Safety and Health, the Administrator's direct staff, and Federal employees at the Albuquerque Complex and site offices. The Office of the Administrator creates a well-managed, inclusive, responsive, and accountable organization through the strategic management of human capital and greater integration of budget and performance data. Program direction for Naval Reactors is within that program's account, and program direction for Secure Transportation Asset is within the Weapons Activities account. The FY 2015

request includes funding for a standardized corporate project management enterprise.

**Naval Reactors.**—This account funds all naval nuclear propulsion work. It begins with reactor technology development and design, continues through reactor operation and maintenance, and ends with reactor plant disposal. The program ensures the safe and reliable operation of reactor plants in nuclear-powered submarines and aircraft carriers (constituting over 40 percent of the Navy's combatants), and fulfills the Navy's requirements for new nuclear propulsion plants that meet current and future national defense requirements. Due to the crucial nature of nuclear reactor work, Naval Reactors is a centrally managed organization. Federal employees oversee and set policies/procedures for developing new reactor plants and operating existing nuclear plants and the facilities that support these plants.

Programs funded within the Weapons Activities appropriation support the Nation's current and future defense posture, and its attendant nationwide infrastructure of science, technology and engineering capabilities. Weapons Activities provides for the maintenance and refurbishment of nuclear weapons to continue sustained confidence in their safety, reliability, and performance; continued investment in scientific, engineering, and manufacturing capabilities to enable certification of the enduring nuclear weapons stockpile; and manufacture of nuclear weapon components. Weapons Activities also provides for continued maintenance and investment in the NNSA nuclear complex to be more responsive and cost effective. The major elements of the program include the following:

**Directed Stockpile Work.**—Encompasses all activities that directly support the nuclear weapons stockpile. These activities include: maintenance and surveillance; planned refurbishment; reliability assessment; weapon dismantlement and disposal; and research, development, and certification technology efforts to meet stockpile requirements.

**Campaigns.**—Focuses on scientific, technical, and engineering efforts to develop and maintain critical capabilities, tools, and processes needed to support science based stockpile stewardship, weapons refurbishments, and continued certification of the stockpile over the long-term in the absence of underground nuclear testing.

**Readiness in Technical Base and Facilities.**—Provides the underlying physical infrastructure and operational readiness for the nuclear security enterprise. RTBF ensures essential weapon activity capabilities are available and the facilities are operational, safe, secure, and compliant with regulatory requirements. RTBF provides these services through both a defined level of readiness as well as capability and facility investments.

**Secure Transportation Asset.**—Provides for the safe, secure movement of nuclear weapons, special nuclear material, and weapon components to meet projected DOE, Department of Defense (DOD), and other customer requirements. The Program Direction in this account provides for the secure transportation workforce, including the Federal agents.

**Nuclear Counterterrorism Incident Response (NCTIR).**—Strategically manages people with specialized expertise and equipment to provide a technically trained response to nuclear or radi-

ological incidents worldwide, mitigates nuclear or radiological threats through research and development and provides inter-agency training and support to the Nation from the threat of nuclear terrorism.

**Counterterrorism and Counterproliferation (CTCP).**—Advances the U.S. Government counterterrorism and counterproliferation goals through innovative science, technology, and policy-driven solutions. The CTCP programs consolidate the Nuclear Counterterrorism subprogram for the NCTIR program and the Nations Security Applications program into an integrated program of technical work that materially contributes to the Department of Energy's goal of enhancing nuclear security through preventing nuclear terrorism.

**Site Stewardship.**—Ensures the overall health and viability of the NNSA, DOE, and other national missions, with a focus on maintaining environmental compliance, dispositioning of nuclear materials, and developing the needed skills and talent for NNSA's enduring technical workforce at the labs and production plants.

**Defense Nuclear Security.**—Provides protection for NNSA personnel, facilities, and nuclear weapons from a full spectrum of threats, most notably terrorism. Provides for all safeguards and security requirements including protective forces and systems at all NNSA sites including protective forces and systems.

**NNSA Chief Information Officer Activities.**—Provides for research and development of information technology and cyber security solutions such as identity, credential, and access management to help meet energy security, proliferation resistance, and climate goals.

NNSA's request reflects the partnership between NNSA and DOD to maintain and modernize the nuclear deterrent. DOD's NNSA Program Support account has the amounts for Weapons Activities that are shown in the table below, underscoring the close link between these activities and DOD nuclear weapons-related requirements and missions. OMB will ensure that future budget year allocations to NNSA occur in the required amounts.

Programs funded within the Defense Nuclear Nonproliferation appropriation account support the mission to: 1) prevent the spread of materials, technology, and expertise relating to weapons of mass destruction (WMD); 2) advance the technologies to detect the proliferation of WMD worldwide; 3) eliminate or secure inventories of surplus materials and infrastructure usable for nuclear weapons; and 4) respond to nuclear or radiological incidents worldwide. The programs address the danger that hostile nations or terrorist groups may acquire WMD or weapons-usable material, dual-use production technology, or WMD expertise. The major elements of the appropriation account include the following:

**Global Threat Reduction Initiative (GTRI).**—The GTRI mission is to reduce and protect vulnerable nuclear and radiological materials located at civilian sites worldwide. The GTRI program directly supports the international effort, initiated by President Obama's Prague Agenda, to secure all vulnerable nuclear material around the world. GTRI supports DOE's Strategic Plan goal to reduce nuclear dangers by preventing terrorists from acquiring nuclear and radiological materials that could be used in WMD or acts of terrorism by: 1) converting or verifying the permanent shutdown of research reactors and isotope production facilities from the use of highly enriched uranium to low enriched uranium, 2) removing and disposing of excess nuclear and radiological materials, and 3) protecting highly-priority nuclear and radiological materials from theft. These three key aspects of GTRI-convert, remove, and protect-together provide a comprehensive approach to achieving its mission and denying terrorists access to nuclear and radiological materials.

**Defense Nuclear Nonproliferation Research and Development (DNN R&D).**—This program drives the innovation of unilateral and multi-lateral technical capabilities to detect, identify, and characterize: 1) foreign nuclear weapons programs, 2) illicit diversion of special nuclear materials, and 3) nuclear detonations. To meet national and departmental nuclear security requirements, DNN R&D leverages the unique facilities and scientific skills of the Department of Energy, academia, and industry for the performance of research, conduct of technology demonstrations, and development of prototypes for integration into operational systems.

**Nonproliferation and International Security (NIS).**—The NIS mission is to prevent and counter the proliferation of WMD, including materials, technologies, and expertise, by states and non-state actors. The program provides policy and technical support for nonproliferation and associated treaties and agreements, do-

mestic and international legal and regulatory controls, and diplomatic and counter-proliferation initiatives, and it cooperates with international organizations and foreign partners on export controls, safeguards, and security. The program makes vital contributions to strengthen international security and the nuclear nonproliferation regime in four main areas: (1) Nuclear Safeguards and Security, (2) Nuclear Controls, (3) Nuclear Verification, and (4) Nonproliferation Policy. Working in concert, these programs: safeguard and secure materials and facilities, detect and prevent illicit trafficking of materials, technology and expertise; develop policy and technical solutions for transparent nuclear reductions and treaty monitoring and compliance; and develop crosscutting policy and technical solutions and programs and strategies to strengthen international security and the nuclear nonproliferation regime.

**International Materials Protection and Cooperation (IMPC).**—The IMPC program supports one of the President's top priorities to lead a global effort to secure all nuclear weapons materials at vulnerable sites -the most effective way to prevent terrorists from acquiring a nuclear bomb. The IMPC program prevents nuclear terrorism by working in Russia and other regions of concern to: 1) secure vulnerable nuclear weapons and weapons materials, and 2) install and sustain mobile and fixed detection equipment at international crossing points and ports to prevent and detect the illicit transfer of nuclear material. The program continues to improve the security of nuclear material and nuclear warheads in Russia and other countries of proliferation concern by installing Material, Protection, Control and accounting (MPC&A) upgrades and providing sustainability support to sites with previously installed MPC&A upgrades. Reducing the potential for diversion of nuclear materials and deterring, detecting, and interdicting material outside of regulatory control is a critical national security priority for the United States.

**Fissile Materials Disposition (FMD).**—The program goal is to dispose of surplus Russian and U.S. weapon-grade plutonium and and highly enriched uranium. To dispose of U.S. plutonium, the program has been building the Mixed Oxide (MOX) Fuel Fabrication Facility, which would enable the Department of Energy to dispose of plutonium by fabricating it into MOX fuel and irradiating it in commercial nuclear reactors. A review of this approach has determined that the MOX fuel approach is significantly more expensive than planned and it is not viable within the FY 2015 funding levels. The Department of Energy is developing alternative approaches to plutonium disposition and will engage with stakeholders to determine a viable alternative. As a result, the MOX project will be placed in cold standby while an alternative approached is determined. The Administration remains firmly committed to the overarching goals of the plutonium disposition program to: 1) dispose of excess U.S. plutonium; and 2) achieve Russian disposition of equal quantities of plutonium. The Administration recognizes the importance of the U.S.-Russia Plutonium Management and Disposition Agreement (PMDA), whereby each side committed to dispose of at least 34 metric tons of weapon-grade plutonium.

The Defense Environmental Cleanup program is responsible for protecting human health and the environment by identifying and reducing risks, as well as managing waste and facilities, at sites where the Department carried out defense-related nuclear

research and production activities. Those activities resulted in radioactive, hazardous, and mixed -waste contamination requiring remediation, stabilization, decontamination and decommissioning, or some other type of cleanup action. The budget displays the cleanup program by site.

*Closure Sites.*—Funds post-closure administration costs after the physical completion of cleanup, including costs for contract closeout and litigation support.

*Hanford Site.*—Funds cleanup and environmental restoration to protect the Columbia River and surrounding communities. The Hanford site cleanup is managed by two Environmental Management (EM) site offices: the Richland Operations Office and the Office of River Protection.

The Richland Office is responsible for cleanup activities on most of the geographic area making up the Hanford site. The primary cleanup focus is decontamination and decommissioning legacy facilities and enhancing contaminated groundwater characterization and treatment.

The Office of River Protection is responsible for the safe storage, retrieval, treatment, immobilization, and disposal of 56 million gallons of radioactive waste stored in 177 underground tanks. It is also responsible for related operation, maintenance, engineering, and construction activities, including those connected to the Waste Treatment and Immobilization Plant being built to solidify the liquid tank waste in a glass form that can be safely stored.

*Idaho.*—Funds retrieval, treatment, and disposition of nuclear and hazardous wastes .

*NNSA Sites.*—Funds the safe and efficient cleanup of the environmental legacy past operations at National Nuclear Security Administration (NNSA) sites including Los Alamos National Laboratory, Nevada National Security Site, Sandia National Laboratories, Lawrence Livermore National Laboratory, and the Separations Process Research Unit. The cleanup strategy follows a risk-informed approach that focuses first on those soil and groundwater contaminant plumes and sources that are the greatest contributors to risk. The overall goal is first to ensure that risks to the public and workers are controlled, then to clean up soil and groundwater using a risk-informed methodology. NNSA is responsible for long-term stewardship of its sites after physical cleanup is completed.

*Oak Ridge.*—Funds defense-related cleanup of the three facilities that make up the Oak Ridge Reservation: the East Tennessee Technology Park, the Oak Ridge National Laboratory, and the Y-12 Plant. The overall cleanup strategy is based on surface water considerations, encompassing five distinct watersheds that feed the adjacent Clinch River.

*Savannah River Site.*—Funds the safe stabilization, treatment, and disposition of legacy nuclear materials, spent nuclear fuel, and waste at the Savannah River site. Activities include operating the Defense Waste Processing Facility, which is solidifying waste contained in underground tanks, and the Actinide Removal Process and Modular Caustic Side Solvent Extraction units being used to separate various tank waste components for treatment. In addition, it includes construction of the Salt Waste Processing Facility.

*Waste Isolation Pilot Plant.*—Funds the world's first permitted deep geologic repository for the permanent disposal of radioactive waste, and the Nation's only disposal site for defense-generated transuranic waste. The Waste Isolation Pilot Plant, managed by the Carlsbad Field Office, is an operating facility, supporting the cleanup of transuranic waste from waste generator and storage sites across the cleanup program. The Waste Isolation Pilot Plant is crucial to the Department of Energy (DOE) completing its cleanup and closure mission.

**Program Direction.**—Funds the Federal workforce responsible for the overall direction and administrative support of the EM program, including both Headquarters and field personnel.

**Program Support.**—Funds management and direction for various crosscutting EM and DOE initiatives, intergovernmental activities, and analyses and integration activities across DOE in a consistent, responsible, and efficient manner.

**Safeguards and Security.**—Funds activities to protect against unauthorized access, theft, diversion, loss of custody or destruction of DOE assets, and hostile acts that could cause adverse impacts to fundamental national security or the health and safety of DOE and contractor employees, the public or the environment.

**Technology Development and Deployment.**—Funds projects managed through Headquarters to address the immediate, near- and long-term technology needs identified by the EM sites, enabling them to accelerate their cleanup schedules, treat orphaned wastes, improve worker safety, and provide technical foundations for the sites' cleanup decisions. These projects focus on maturing and deploying the technologies necessary to accelerate tank waste processing, treatment, and waste loading.

**Environment, Health, Safety and Security Mission Support.**—The program supports the Department's health, safety, environment, and security programs to enhance productivity while maintaining the highest standards of safe operation, protection of national assets, and environmental sustainability. The program functions include: policy and guidance development and technical assistance; analysis of health, safety, environment, and security performance; nuclear safety; domestic and international health studies; medical screening programs for former workers; Energy Employee Occupational Illness Compensation Program Act support; quality assurance programs; interface with the Defense Nuclear Facilities Safety Board; national security information programs; and security for the Department's facilities and personnel in the National Capital Area.

**Independent Enterprise Assessments.**—The program supports independent oversight of security, cyber security, emergency management, environment, safety and health performance; worker and nuclear safety; classified information security enforcement; and safety and security professional development and training.

**Office of Specialized Security Activities.**—The program supports national security related analyses requiring highly specialized skills and capabilities.

**Office of Legacy Management.**—The program supports long-term stewardship activities (e.g., groundwater monitoring, disposal cell maintenance, records management, and management of natural resources) at sites where active remediation has been completed. In addition, Legacy Management funds the pensions and/or post-retirement benefits for former contractor employees.

**Office of Hearings and Appeals.**—The Office of Hearings and Appeals adjudicates personnel security cases, as well as whis-

tleblower reprisal complaints filed by DOE contractor employees. The office is the appeal authority in various other areas, including Freedom of Information Act and Privacy Act appeals. In addition, the office decides requests for exception from DOE orders, rules, regulations, and is responsible for the DOE's alternative dispute resolution function.

**All Other.**—Obligations are included for defense-related administrative support.

**Advanced Scientific Computing Research.**—The Advanced Scientific Computing Research (ASCR) program supports advanced computational research, applied mathematics, computer science, and networking. The program also supports the development, maintenance, and operation of large high performance computing and network facilities, including the Leadership Computing Facilities at Oak Ridge and Argonne National Laboratories, the National Energy Research Scientific Computing Facility at Lawrence Berkeley National Laboratory, and the Energy Sciences Network. The request includes research, in partnership with other science programs, on the application of high performance computer simulation and modeling to science problems. Research will continue to focus on coordinated efforts to address the challenges for emerging computing hardware such as energy management and fault tolerance. Research will also continue to address the challenges of data-intensive science including the massive quantities of data generated by Office of Science facilities and collaborations. ASCR efforts will consider and integrate the full spectrum of these challenges from hardware to applications.

**Basic Energy Sciences.**—The Basic Energy Sciences (BES) program supports fundamental research in materials science, chemistry, geosciences, and biosciences to understand, predict, and ultimately control matter and energy at the electronic, atomic, and molecular levels. BES core research awards support individual scientists and small groups to pursue discovery-driven research with broad energy relevance. BES also supports two innovative approaches to integrated research: Energy Frontier Research Centers (EFRCs) and Energy Innovation Hubs. The EFRCs support multi-year, multi-investigator scientific collaborations focused on overcoming hurdles in basic science that hinder advances in energy technologies. The two BES-managed Energy Innovation Hubs—the Fuels from Sunlight Hub and the Batteries

## SCIENCE—Continued

and Energy Storage Hub—consist of larger, highly integrated teams working to solve priority science and technology challenges. A new investment in computational materials science is also requested in FY 2015 to develop community software codes for the design of functional materials.

The BES program operates large national user research facilities: a complementary set of light sources, neutron scattering centers, and research centers for nanoscale science with electron beam characterization capabilities. These facilities probe materials in space, time, and energy to investigate the inner workings of matter and answer some of the most challenging grand science questions. The request includes support to use these state-of-the-art national user facilities at optimal levels. Research areas that will benefit from these facilities include materials science, chemistry, structural biology, and energy technology development. The request supports construction of the Linac Coherent Light Source-II (LCLS-II) and increased funding for early operations of the National Synchrotron Light Source-II (NSLS-II), while NSLS ceases operations. The request also supports two major item of equipment projects: the Advanced Photon Source Upgrade and the NSLS-II Experimental Tools. The BES operations of the Lujan Neutron Scattering Center will cease and funding is requested for safe storage of facility components.

*Biological and Environmental Research.*—The Biological and Environmental Research (BER) science portfolio examines complex biological, climatic, and environmental systems across spatial scales ranging from sub-cellular to global, individual molecules to entire ecosystems, and temporal scales ranging from nanoseconds to millennia. BER-supported research and scientific facilities address the science underpinning diverse and critical global challenges, from the sustainable and affordable production of renewable biofuels in an environmentally conscientious manner to the simulation and prediction of climate change and greenhouse gas emissions relevant to energy production. Multidisciplinary systems approaches are employed to study and predict dynamic biological interactions from the subcellular molecular level to large scale processes performed by complex plant and microbial communities. The program plays a vital role in supporting research examining atmospheric processes; climate change; and the impacts of climate change, including warmer temperatures, changes in precipitation, increased levels of greenhouse gases, changing distributions of weather extremes on different ecosystems. The program also seeks understanding of the critical role that biogeochemical processes play in controlling the cycling and mobility of materials in the Earth's subsurface and across key surface-subsurface interfaces in the environment.

The budget continues support for key core research areas and scientific user facilities in bioenergy, climate, and environmental research. The three DOE Bioenergy Research Centers continue to address the fundamental science underpinning the development of cost-effective cellulosic biofuels. Genomic sciences investments target the development of synthetic biology tools and technologies and integrative computation-driven analysis of experimental datasets to accelerate the interpretation of complex genomes that are sequenced and analyzed at the DOE Joint Genome Institute. Mesoscale research targets multiscale biomimicry of subcellular organization and communication. Observational research on clouds and aerosols at the Atmospheric Radiation Measurement Climate Research Facility (ARM) will improve understanding of the priority climatic sensitive regions of the Arctic and tropics, and modeling efforts will shift their emphasis from global scale dynamics to higher resolution scale interactions for these priority regions. New investment in Climate

Model Development and Validation will enable restructuring the model architecture, new software engineering and computational upgrades, and incorporating scale-aware physics in all model components. The new Climate and Environmental Data, Analysis, and Visualization activity will combine Earth system models with energy and infrastructure models and field observations to provide enhanced tools for analysis and visualization. The Environmental Molecular Sciences Laboratory enables experimental and computational research on physical, chemical, and biological processes to resolve molecular-scale challenges in areas such as atmospheric aerosols and trace gases, biofuel feedstocks, biogeochemistry subsurface science and energy materials.

*Fusion Energy Sciences.*—The Fusion Energy Sciences (FES) program aims to expand the fundamental understanding of matter at very high temperatures and densities and to build the scientific foundation needed to develop a fusion energy source. Understanding the scientific character of the burning plasma state, as well as establishing the science for maintaining this state for long durations, is a major objective of FES research. Another major research objective is increasing the fundamental understanding of basic plasma science for a broad range of science-based applications. In addition to funding U.S. contributions to ITER, an international project that aims to demonstrate the scientific and technical feasibility of fusion energy, the FES request continues support for three domestic fusion research facilities (National Spherical Torus Experiment, DIII-D, and Alcator C-Mod); international partnerships that leverage U.S. expertise, high-performance computational simulations based on experimentally validated theoretical models; the development of advanced fusion-relevant materials and technology innovations; and the invention of new measurement techniques. FES will also continue to support the pursuit of discovery plasma science, including research in plasma astrophysics and low-temperature plasmas, intermediate-scale magnetic confinement experimental platforms, and high energy density laboratory plasmas.

*High Energy Physics.*—The High Energy Physics (HEP) program aims to understand how our universe works at its most fundamental level by discovering the most elementary constituents of matter and energy, probing the interactions among them, and exploring the basic nature of space and time itself. The program encompasses both experimental and theoretical particle physics research at the Energy, Intensity, and Cosmic Frontiers, as well as related advanced accelerator and detector technology research and development (R&D). The primary mode of experimental research involves the study of collisions of beams of intense and/or energetic particles using large particle accelerators or colliding beam facilities.

The HEP request supports Intensity Frontier research, primarily at the Fermi National Accelerator Laboratory, including a diverse portfolio of experiments studying the fundamental properties of neutrinos, quarks and leptons, and searching for new forces and phenomena. The HEP request also supports the Energy Frontier research program at the Large Hadron Collider (LHC), including support for software and computing, pre-operations, and maintenance of the U.S.-built systems that are part of the LHC detectors and accelerator commissioning and accelerator physics studies using the LHC, and the Cosmic Frontier program focused on discovering the nature of dark matter and dark energy using sensitive, state-of-the-art detectors underground, in space, and mounted on telescopes.

In addition to contributing to breakthrough scientific discoveries, HEP research also makes major contributions to accelerator technology development and provides the expertise necessary for the expansion of such technology into medicine, industry, and

homeland security, as well as materials, biology, and chemistry research using light sources. The request includes continued support for the Accelerator R&D Stewardship program initiated in FY 2014 to foster development of novel accelerator technology with broad applications.

**Nuclear Physics.**—The Nuclear Physics (NP) program addresses three broad yet tightly interrelated scientific thrusts: strong interactions among quarks and gluons (quantum chromodynamics) and how they assemble into the various forms of matter; the structure of atomic nuclei at their limits of existence and nuclear astrophysics to address the origin of the elements and the evolution of the cosmos; and measurements of fundamental symmetries of neutrons and nuclei to improve understanding of fundamental interactions and the properties of neutrinos and nuclei.

NP develops the scientific knowledge, technologies, and trained workforce needed to underpin NP and DOE's mission areas. The advancement of knowledge of nuclear matter and its properties is intertwined with nuclear power, nuclear medicine, national security, environmental and geological sciences, and isotope production.

The request provides continued support of the Relativistic Heavy Ion Collider at Brookhaven National Laboratory to characterize new states of matter and phenomena that occur in hot, dense nuclear matter; the Continuous Electron Beam Accelerator Facility (CEBAF) at Thomas Jefferson National Accelerator Facility to understand the substructure of the nucleon; and the Argonne Tandem Linear Accelerator System at Argonne National Laboratory for the study of nuclear structure and nuclear astrophysics. Construction continues on the 12 GeV CEBAF Upgrade project to double the electron beam energy at CEBAF, which will open the opportunity for new discoveries and an understanding of quark confinement; and on the Facility for Rare Isotope Beams at Michigan State University, which will provide intense beams of rare isotopes for a wide variety of studies in nuclear structure, nuclear astrophysics and fundamental symmetries. The Isotope Development and Production for Research and Applications program will continue to develop and produce commercial and research radioisotopes that are in short supply, for provision to medical institutions, universities, research organizations, and industry for a wide array of uses and applications.

**Science Laboratories Infrastructure.**—The mission of Science Laboratories Infrastructure (SLI) program is to support scientific and technological innovation at Office of Science (SC) laboratories by funding and sustaining mission-ready infrastructure and fostering safe and environmentally responsible operations. Revitalizing facilities and providing modern laboratory infrastructure is critical to ensuring the continued mission readiness of SC laboratories. The program provides the modern laboratory infrastructure necessary to support world leadership by the SC national laboratories in the area of basic scientific research now and in the future.

**Safeguards and Security.**—The mission of Safeguards and Security (S&S) program is to support the Department's research at SC laboratories by ensuring appropriate levels of protection against unauthorized access, theft, or destruction of Department assets, and hostile acts that may have adverse impacts on fundamental science, national security, the health and safety of DOE and contractor employees, the public, and the environment.

**Workforce Development for Teachers and Scientists.**—The Workforce Development for Teachers and Scientists (WDTS) program supports undergraduate internships, graduate thesis research, and visiting faculty programs at the DOE laboratories; the Albert Einstein Distinguished Educator Fellowship for K-12 STEM teachers, which is administered by WDTS for DOE and

for other federal agencies; and nationwide, middle- and high-school science competitions that annually culminate in the National Science Bowl in Washington, D.C. These investments help develop the next generation of scientists and engineers to support the DOE mission, administer its programs, and conduct its research. WDTS activities leverage the assets of DOE's 17 laboratories, which employ more than 30,000 workers with STEM backgrounds. The DOE laboratory system provides access to leading scientists; world-class scientific user facilities and instrumentation; and large-scale, multidisciplinary research programs unavailable in universities or industry.

**Program Direction.**—This program provides a highly skilled Federal workforce to develop and sustain world-class science programs that deliver the scientific discoveries and technological innovations needed to solve our nation's energy and environmental challenges and enable the U.S. to maintain its global competitiveness. The SC workforce is responsible for overseeing taxpayer dollars for science program development; program and project execution and management; managing the administrative, business, and technical aspects of research grants and contracts; overseeing 10 of the 17 DOE national laboratories; and providing public access to DOE's R&D results.

The Advanced Research Projects Agency-Energy (ARPA-E) within the Department of Energy was established by the America COMPETES Act of 2007 (Pub. L. No. 110-69), as amended. The mission of ARPA-E is to overcome the long-term and high-risk technological barriers to the development of new energy technologies that increase energy efficiency and reduce emissions, including greenhouse gases.

ARPA-E will facilitate initiatives to enhance the energy and economic security of the United States through the development of new energy technologies and ensure that the United States maintains a technological lead in developing and deploying advanced energy technologies. ARPA-E will identify and promote revolutionary advances in energy-related applied sciences,

translating scientific discoveries and cutting-edge inventions into technological innovations. It will also accelerate transformational technological advances in areas where industry by itself is not likely to invest due to technical and financial uncertainty. The role of ARPA-E is not to duplicate DOE's basic research and applied programs but to focus on novel early-stage energy research and development with technology applications.

The Office of Nuclear Energy funds a range of research and development activities as well as supports the Nation's nuclear facilities. The FY 2015 budget continues programmatic support for advanced reactor R&D activities; fuel cycle R&D, including work on storage, transportation, disposal, and process development activities that support the Administration's *Strategy for the Management and Disposal of Used Nuclear Fuel and High Level Radioactive Waste*; the safe, environmentally compliant, and cost-effective operation of the Department's facilities vital to nuclear energy R&D activities. The Reactor Concepts Research, Development and Demonstration program will support R&D focused on innovative small modular reactors, Light Water Reactor Sustainability, and other advanced reactor concepts. The Nuclear Energy Enabling Technologies program will support R&D focused on a broad spectrum of nuclear energy issues that crosscut reactor types and fuel cycle issues, including materials, proliferation risk assessment, and advanced sensors and instrumentation. The budget will also support cutting-edge nuclear technology R&D across the full spectrum of nuclear energy issues to inspire creative solutions to the broad array of nuclear energy challenges. In addition, the Office of Nuclear Energy will continue to fund ongoing responsibilities under the Nuclear Waste Policy Act, including administration of the Nuclear Waste Fund and the Standard Contract, and will lead future waste management activities. A new programmatic effort for FY 2015 is the Supercritical Transformational Electric Power Generation (STEP) initiative, a collaborative DOE demonstration project to rapidly accelerate pre-commercial development and validation of Supercritical Carbon Dioxide (SCO2) Brayton cycle energy conversion technology.

**NUCLEAR ENERGY**

(Legislative proposal, subject to PAYGO)

In January 2013 the Administration released its *Strategy for the Management and Disposal of Used Nuclear Fuel and High Level Radioactive Waste*. This Strategy lays out a broad outline for a stable, integrated system capable of transporting, storing, and disposing of high-level nuclear waste from civilian nuclear power generation, defense, national security and other activities. The Administration is working with Congress to build and implement this new program and believes that providing adequate and timely funding is critical to success.

Currently approximately 70,000 metric tons heavy metal (MTHM) of used nuclear fuel are stored at 72 commercial power plants around the country with almost 2,000 MTHM added to that amount every year. As a result of litigation by contract holders, the government was found in partial breach of contract, and is now liable for damages to some utilities to cover the costs of that on-site, at-reactor storage. The FY 2015 Budget continues to reflect a more complete estimate of those liability payments in the baseline. Please see additional discussion of the cost of the government's liability in the Budget Process chapter in the *Analytical Perspectives* volume.

To support the nuclear waste management program over the long term, reform of the current funding arrangement is necessary and the Administration believes the funding system should consist of the following elements: ongoing discretionary appropriations, access to annual fee collections provided in legislation either through their reclassification from mandatory to discretionary or as a direct mandatory appropriation, and eventual access to the balance or "corpus" of the Nuclear Waste Fund. The FY 2015 Budget includes a proposal to implement such reform. Discretionary appropriations are included for this new program for the duration of the effort. These funds would be used to fund expenses that are regular and recurring, such as program management costs, including administrative expenses, salaries and benefits, studies, and regulatory interactions. Mandatory appropriations in addition to the discretionary funding are proposed to be provided annually beginning in 2018 to fund the balance of the annual program costs.

The program envisioned in the FY 2015 Budget is a very long term, flexible, multi-faceted approach to dispose of the nation's commercial and defense waste. The estimated programmatic cost of this effort over its first 10 years is approximately \$5.7 billion. As part of this program, the Budget assumes the construction and operation of a pilot interim waste storage facility within the next 10 years as well as notable progress on both full-scale interim storage and long-term permanent geologic disposal. The deployment of pilot interim storage within the next 10 years allows the government to begin picking up waste, thus enabling the collection of one-time fees owed by certain generators that will offset some of this spending. Over the 10-year budget window, the projected net mandatory cost would be in the range of \$1.3 billion.

The sooner that legislation enables progress on implementing a nuclear waste management program, the lower the ultimate cost will be to the taxpayers. This proposal is intended to limit, and then end, liability costs by making it possible for the government to begin performing on its contractual obligations.

**ELECTRICITY DELIVERY AND ENERGY RELIABILITY**

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for electricity delivery and energy reliability activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, **[\$147,306,000] \$180,000,000**, to remain available until expended: *Provided*, That **[\$27,606,000] \$29,000,000** shall be available until September 30, **[2015] 2016**, for program direction. The mission of the Office of Electricity Delivery and Energy Reliability (OE) is to drive electric grid modernization and *resiliency* in energy infrastructure. OE leads the Department of Energy's efforts to ensure a resilient, reliable, and flexible electricity system through research, partnerships, facilitation, modeling and analytics, and emergency preparedness. OE programs include:

**Clean Energy Transmission and Reliability (CETR).**—The CETR program focuses on improving the reliability and resiliency of the U.S. transmission system by developing advanced modeling, monitoring, and control applications, and analytic and predictive capabilities.

**Smart Grid.**—The Smart Grid program targets modernization of the electric system at the distribution level. The program develops tools and applications with a goal of achieving a self-healing system for improved reliability, resiliency, integration of demand-side management, and system efficiency.

**Cybersecurity for Energy Delivery System (CEDS).**—The CEDS program develops advanced cybersecurity technologies and operational capabilities to enhance the reliability and resiliency of the Nation's energy infrastructure by reducing the risk of energy disruptions due to cyber events.

**Energy Storage.**—The Energy Storage program conducts research, development, and demonstrations to enhance the stability, reliability, and flexibility of the electric grid by accelerating the development and deployment of advanced grid-scale energy storage in the electric system.

**National Electricity Delivery (NED).**—The NED program provides technical assistance to states, regional entities, and tribes to help them develop and improve their programs, policies, and laws that facilitate the development of reliable and affordable electricity infrastructure. The program implements the electricity grid modernization requirements contained in the Energy Policy Act of 2005 and the Energy Independence and Security Act of 2007, and authorizes the export of electric energy and processes permits for the construction of transmission infrastructure across international borders.

**Infrastructure Security and Energy Restoration (ISER).**—The ISER program leads efforts for securing the U.S. energy infrastructure against all hazards, reducing the impact of disruptive events, and responding to and facilitating recovery from energy

disruptions, in collaboration with industry and State and local governments.

**Program Direction.**—Program Direction provides for the costs associated with the federal workforce and contractor services that support OE's mission. These costs include salaries, benefits, travel, training, building occupancy, IT systems, and other related expenses.

The Department of Energy's Office of Energy Efficiency and Renewable Energy (EERE) supports clean energy research, development, demonstration, and deployment activities to advance the state-of-the-art in efficiency and renewable energy technologies and to transition them from early-stage research to the private sector. EERE programs accelerate the development and commercialization of new generations of energy technologies for buildings, factories, and vehicles that are clean, reliable, efficient, and affordable and that help the country meet its economic, environmental, and energy security goals. These technologies can provide the basis for increased domestic manufacturing and economic growth; protect the environment by reducing greenhouse gas emissions and improving air and water quality; reduce petroleum use; increase diversity and choice in energy sources and services; and decrease energy use and costs for consumers. As EERE technologies become more cost competitive, grid integration issues associated with higher penetration on the power grid of EERE technologies such as variable renewable electricity generation, electric vehicle charging, building efficiency, and demand response emerge as high priority barriers to address.

EERE programs include:

**Hydrogen and Fuel Cell Technologies.**—This program aims to reduce petroleum use, greenhouse gas emissions, and criteria air pollutants, and to contribute to a more diverse and efficient domestically-based energy infrastructure by supporting the development of affordable, high efficiency and low emissions hydrogen and fuel cell technologies for widespread commercialization. The program supports applied research, development, and demonstration of transformative advances in hydrogen and fuel cell technologies, as well as efforts to overcome economic and institutional barriers to their commercial deployment.

**Bioenergy Technologies.**—This program funds RD&D projects to advance biofuels technologies and to validate and assist in the commercialization of integrated biorefinery technologies that will help transform the nation's transportation sector. The program's activities include the development of biomass conversion technologies to produce a variety of biofuels, bioproducts, and biopower. The program also works to evaluate environmentally sustainable feedstocks and to develop economically viable feedstock logistics systems to sustainably supply the biofuels industry. With the completion of the program's technology development for cost-competitive cellulosic ethanol, the program is now partnering with the private sector to demonstrate economic viability at larger scales. It is also developing follow-on technology for more infrastructure-compatible biofuels, such as bio-based gasoline, diesel and jet fuel. This work is coordinated closely with the Departments of Agriculture and Defense.

**Solar Energy.**—This program's main objectives under the Sun-Shot Initiative are to make solar energy cost-competitive with other sources of electricity, across the nation and without subsidies, by 2020—a goal of approximately 5–6 cents per kWh for installed systems; and to create reliable domestic solar energy options manufactured in the United States that enhance our economy, reduce our reliance on fossil fuels, and support a resilient electric grid. To achieve these objectives, the program supports solar energy research, development, and demonstration at universities and the national laboratories and in collaboration with industry and industry-led consortia. The Photovoltaic (PV) R&D subprogram focuses on lowering the cost of PV through increased conversion efficiency and reduction in cell and module costs. The Concentrating Solar Power (CSP) subprogram supports the development of thermal storage, heat transfer fluids, and component and systems research and optimization to enable CSP

to provide baseload power on demand. Additionally, the Systems Integration and Balance of Systems Soft Cost Reduction subprograms support cost goals for the deployment of solar technologies by addressing grid integration issues, the balance-of-system and non-hardware costs of installation, and other market barriers. The Innovations in Manufacturing Competitiveness subprogram focuses on manufacturing technology improvements and on increasing the competitiveness of the U.S. solar energy manufacturing industry and supply chain.

*Wind Energy.*—This program develops technology in partnership with industry to improve the reliability and affordability of land-based and offshore wind energy systems, with an increased focus on next generation technologies that could leapfrog global competition (e.g., floating platform designs, etc.), enable America's sizable offshore wind resources to be captured at a competitive price, and create domestic manufacturing. The program also supports advanced turbine component research and design, wind resource assessments and modeling, advanced turbine and system modeling and optimization of entire wind plants, and improved approaches to systems interconnection and integration with the electric transmission grid. These efforts also help reduce barriers to technology acceptance and enable increased market penetration of this variable resource.

*Geothermal Technologies.*—This program conducts research, development and demonstration in partnership with industry, academia, and the national laboratories to improve the discovery of new geothermal resources and to develop innovative methods for accessing and using those resources for cost-effective baseload renewable electricity generation. The program's geothermal work will concentrate on improved exploration technologies and on developing new technologies for enhanced geothermal systems (EGS) that offer the potential for tapping into enormous geothermal resources across America. The program's new competitively selected Frontier Observatory for Research in Geothermal Energy (FORGE) will be a dedicated, DOE-managed, industry/stakeholder operated site dedicated to creating a commercial pathway to EGS through field testing with laboratory accuracy, which will enable transformative, high-impact technologies and techniques to be rapidly demonstrated and improved by increasing technology sharing and leverage with the private sector.

*Water Power.*—This program conducts research, development, and validation testing and demonstration of innovative water power technologies to enable improved, cost-effective, and environmentally responsible renewable power generation from water. The program focuses on a diverse array of marine and hydrokinetic technologies for producing electricity from waves, tides, and currents in oceans and rivers. It also focuses on advanced hydro-power technologies and tools that significantly improve energy and environmental performance. In addition, the program supports resource assessments, cost assessments, environmental studies, and advanced modeling aimed at determining and demonstrating the viability of emerging water power technologies and reducing the market barriers to their deployment.

*Vehicle Technologies.*—This program's research and development (R&D) seeks technology breakthroughs that will enable the U.S. to greatly reduce transportation petroleum use and greenhouse gas emissions while reducing the costs of light-duty and heavy-duty vehicle operation. To accomplish this, the program focuses on a suite of technologies from transportation electrification to lightweight materials, advanced combustion engines, and non-petroleum fuels and lubricant technologies. The program incorporates a DOE grand challenge, the EV Everywhere Initiative, to develop the technologies to make electric-powered vehicles as affordable and convenient as gasoline-powered vehicles for

the average American family by 2022. The EV Everywhere Initiative will include accelerated R&D on emerging battery technologies and innovative battery manufacturing processes, power electronics, lightweight materials, and electric motors. The program also supports early demonstration, field validation, and community-scale deployment of advanced vehicle technologies, as well as efforts to reduce the vehicle miles traveled by the public.

*Building Technologies.*—In partnership with the buildings industry, this program develops, demonstrates, and integrates energy technologies and practices to make buildings more efficient and affordable. The program accelerates the availability of innovative, highly efficient building technologies and practices through high impact R&D; increases the minimum efficiency of buildings and equipment through the promotion of model building efficiency codes and the promulgation of national lighting and appliance standards; and addresses barriers and encourages the use of energy-efficient and renewable energy technologies and practices in residential and commercial buildings through integration activities such as Better Buildings, Building America, and the ENERGY STAR partnership with EPA.

*Advanced Manufacturing.*—This program supports research, development, and demonstration focused on high-impact energy-efficient manufacturing processes and materials technologies that will both increase domestic manufacturing productivity and stimulate manufacturing where the nation has competitive advantages like next generation clean energy technology. The program is accelerating its activities to develop cross-cutting manufacturing process technologies and advanced industrial materials that will enable U.S. companies to cut the costs of manufacturing by using less energy while improving product quality and accelerating product development. These activities include managing the Energy Innovation Hub on Critical Materials and managing Clean Energy Manufacturing Innovation Institutes as part of a larger proposed interagency network aimed at bringing together universities, companies, and the government to co-invest in solving industry-relevant manufacturing challenges. The program seeks to demonstrate materials and processes at a convincing scale to prove reductions in energy intensity and in the life-cycle energy consumption of manufactured products, plus promote a corporate culture of continuous improvement in energy efficiency among existing facilities and manufacturers.

*Federal Energy Management Program.*—This program enables the Federal Government to meet its relevant energy, water, greenhouse gas, and transportation goals as defined in existing legislation and Executive Orders by providing interagency coordination, technical expertise, training, financing resources, and contracting support. FEMP also assists agencies in implementing and monitoring performance-based contracting to improve the efficiency of Federal buildings. As part of FEMP, the Sustainability Performance Office supports management of DOE specific investments to achieve these goals at DOE.

*Strategic Programs.*—The mission of the Office of Strategic Programs (OSP) is to increase the effectiveness and impact of all EERE activities by funding and guiding EERE-wide cross-cutting activities, analysis, and support functions. The office focuses on accelerating development, commercialization, and adoption of energy efficiency and renewable energy technologies through strategic partnerships to support the transition of EERE technologies to market, communications and engagement with energy stakeholders, development and catalysis of international markets for U.S. clean energy companies, and analytical support for decision making and management of the EERE portfolio including sector analyses, feasibility studies, and evaluations to character-

ENERGY EFFICIENCY AND RENEWABLE ENERGY—Continued

ize technology cost and performance, understand market trends, and estimate impacts; long-term strategic planning; and outreach to consumers and other stakeholders on the progress and benefits of clean energy development.

**Facilities and Infrastructure.**—This activity sustains research, development, and demonstration (RD&D) infrastructure and supports EERE's clean energy RD&D by providing funding for general plant projects, maintenance and repair, general purpose equipment, upgrades to accommodate new research requirements, and safeguards and security operations at the National Renewable Energy Laboratory (NREL). Facilities and Infrastructure also supports the operation of the NREL Energy Systems Integration Facility as a DOE Technology User Facility. This new facility provides component and system testing and grid simulation capability to DOE programs and the private sector, helping to integrate clean energy technologies seamlessly into electrical grid infrastructure and utility operations at the speed and scale required to meet national goals.

**Weatherization and Intergovernmental.**—This program supports clean energy deployment in partnership with State, local, U.S. territory, and tribal governments. The State Energy Program provides technical and financial resources to States to help them achieve their energy efficiency and renewable energy goals through interactions with utilities and through building codes and other local policies. Funding also supports technical assistance on innovative energy efficiency and renewable energy strategies that meet local needs. The Tribal Energy Program and its activities to support feasibility assessments and the development of implementation plans for clean energy projects on Tribal lands is proposed for consolidation into the Office of Indian Energy Policy and Programs. The Weatherization Assistance Program lowers energy use and costs for low income families by supporting energy-efficient home retrofits through State-managed networks of local weatherization providers. These programs provide critical State, regional, and local expertise, education, and replicable clean energy models.

Office of Indian Energy Policy and Programs.—The Office of Indian Energy Policy and Programs is charged to direct, foster, coordinate, and implement energy planning, education, management, and competitive grant programs that assist tribes with clean energy development and infrastructure, capacity building, energy costs, and electrification of Indian lands and homes. Indian Energy coordinates programmatic activity across the Department related to development of clean energy resources on Indian lands, and works with other federal government agencies, Indian tribes, and tribal organizations to promote Indian energy policies and initiatives.

The Non-Defense Environmental Cleanup program includes funds to manage and clean up sites used for civilian energy research and non-defense related activities. These activities resulted in radioactive, hazardous, and mixed waste contamination that requires remediation, stabilization, or some other type of corrective action, as well as the decontamination and decommissioning

of former research and production buildings and supporting infrastructure. The budget displays the cleanup program by site.

**West Valley Demonstration Project.**—Funds waste disposition, building decontamination, and removal of non-essential facilities in the near-term.

**Gaseous Diffusion Plants.**—Funds surveillance and maintenance of the former Uranium Program facilities and manages legacy polychlorinated biphenyl contamination. The program also includes the operation of two depleted uranium hexafluoride conversion facilities at Paducah, Kentucky, and Portsmouth, Ohio, which are converting the depleted uranium hexafluoride into a more stable form for reuse or disposition.

**Fast Flux Test Facility.**—Funds the long-term surveillance and maintenance and eventual decontamination and decommissioning of the Fast Flux Test Facility, constructed and operated from the 1960s through 1980s.

**Small Sites.**—Funds cleanup, closure, and post-closure environmental activities at a number of geographic sites across the nation, including the Energy Technology Engineering Center and Moab, as well as non-defense activities at Idaho and Oak Ridge. Some sites are associated with other Department of Energy programs, particularly the Office of Science, and will have continuing missions after EM completes the cleanup. Others will transition to the Office of Legacy Management or private-sector entities for post-closure activities.

The Fossil Energy Research and Development program supports research that will improve the Nation's ability to use fossil energy resources cleanly, affordably, and efficiently. The program funds research and development with academia, national laboratories, and the private sector to advance the technology base used to develop new products and processes. Fossil Energy R&D supports activities ranging from early concept research in universities and national laboratories to applied R&D and proof-of-concept projects with private-sector firms.

*Research, Development & Demonstration.*—Program activities, including National Energy Technology Laboratory (NETL) in-house R&D, focus on: 1) CO2 capture technology applicable to both new and existing fossil-fueled facilities; 2) CO2 storage, with emphasis on modeling, simulation, and CO2 monitoring, verification and accounting; 3) advanced fossil-fueled power systems that support carbon capture and storage (CCS), including integrated gasification combined cycle (IGCC) and oxy-combustion technologies; and 4) cross-cutting research to bridge fundamental science and applied engineering development. The Department will continue to work with the private sector and academia to conduct and direct research toward overcoming critical challenges to reducing greenhouse gas emissions from fossil energy power generation in the United States. The program will continue working with the Department of the Interior and the Environmental Protection Agency to ensure that hydraulic fracturing for natural gas development is conducted in a manner that is environmentally sound and protective of human health and safety. In FY 2015 the program will initiate new work focused on developing technology to monitor and reduce emissions from midstream natural gas infrastructure. Also, methane hydrates R&D activities will continue to advance our understanding of naturally-occurring gas hydrates.

*Program Direction and Management Support.*—The program provides the funding for all headquarters and field personnel and other operating expenses in Fossil Energy R&D. In addition, it provides support for day-to-day project management functions and operating expenses for NETL. Also included is the Import/Export Authorization program, which will continue regulatory reviews and oversight of the transmission of natural gas across the U.S. borders.

*Environmental Restoration.*—The program provides the funding for environmental cleanup of former and present Fossil Energy project sites, security and safeguard services for NETL, and health, safety, and environmental protection programs at NETL.

Following the sale of the government's interests in Naval Petroleum Reserve 1 (NPR-1) (Elk Hills) mandated by the National Defense Authorization Act for Fiscal Year 1996 (P.L. 104–106), post-sale activities required by legally binding agreements involve the environmental cleanup/remediation under the Corrective Action Consent Agreement with the State of California Department of Toxic Substances Control (DTSC). Program activities encompass execution of a technical baseline, interim measures, environmental sampling and analysis, corrective measures, waste removal and disposal, confirmatory sampling, and requests to DTSC for release from further corrective actions. The account also funds activities at the Naval Petroleum Reserve 3 (NPR-3) in Wyoming (Teapot Dome field), a stripper well oil field. Disposition of NPR-3 will be the primary focus. NPR-3 will continue

implementing the approved disposition plan. Final disposition of the property, following a competitive sale in FY 2014, is estimated to occur in FY 2015. NPR-3 will be utilized for production and testing operations in order to retain asset value during preparation to transfer to new ownership. Production facilities will remain operational as long as economic, until date of transfer. The program will continue Rocky Mountain Oilfield Testing Center (RMOTC) testing for 100 percent funds-in projects until date of transfer. Environmental remediation of NPR-3 facilities will continue to facilitate the sale/disposition of the property in a manner consistent with the approved property disposition plan.

The Strategic Petroleum Reserve (SPR) Program has the national security mission to reduce the vulnerability of the United States to energy supply disruptions by maintaining a crude oil stockpile capable of rapid deployment at the direction of the President. This program protects the United States against foreign and domestic disruptions in its critical petroleum supplies that would result from international incidents, hurricanes or terrorism, and fulfills the United States obligations under the International Energy Program (the charter of the International Energy Agency). The United States gains access to worldwide emergency assistance through its International Energy Agency alliance in the event of a petroleum supply disruption. This account provides for the management, operations, maintenance and security of the SPR storage facilities, drawdown testing and readiness of the Reserve, and program administration. The FY 2015 budget continues to provide insurance against oil supply disruptions that could harm the U.S. economy by pursuing a SPR program that is environmentally responsible and fully responsive to the needs of the Nation and the public. The FY 2015 budget funds the management, operations, maintenance, and security of the Government's four SPR storage sites; continued degasification operations at the West Hackberry site for treating the oil to safe vapor pressure levels to restore the availability of the entire crude oil inventory for emergency use; and continues a cavern casing inspection and remediation program to comply with state inspection regulations and address wellbore and casing component failures. The overall maximum SPR drawdown rate remains at 4.25 million barrels per day versus the designed rate of 4.4 million barrels per day.

The Energy Information Administration (EIA) is the statistical and analytical agency within the U.S. Department of Energy. EIA collects, analyzes, and disseminates independent and impartial energy information to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment. EIA is the Nation's premier source of energy information and, by law, its data, analyses, and forecasts are independent of approval by any other officer or employee of the United States Government. EIA conducts a data collection program with the goal of covering the full spectrum of energy sources, end uses, and energy flows; generates short- and long-term domestic and international energy projections; and performs informative energy analyses. As EIA's data products, analyses, and reports are primarily disseminated through its website, the agency endeavors to provide continuous improvement for its customers by enabling access to desired information in a format and structure usable with minimal additional effort. Priority areas for FY 2015 include developing an interface to enable groups with common interests to crowd-source, or pool information to determine the actual effectiveness of specific building efficiency technologies, practices, and characteristics in reducing energy use while maintaining energy services; improving the capability to track and report on rapidly-changing domestic market dynamics through expanded collection of domestic oil and gas production and collaboration with member states of the Ground Water Protection Council to make EIA a repository for well-level data from states; explaining domestic energy markets within the broader context of the world energy system, including the global markets for liquefied natural gas, crude oil, and refined products; and continuing the modernization of the systems and processes used to manage EIA's extensive data operations.

The Federal Energy Regulatory Commission (Commission) regulates and oversees key interstate aspects of the electric power (including hydropower), natural gas and oil pipeline industries. The Commission assists consumers in obtaining reliable, efficient and sustainable energy services at a reasonable cost through

## FEDERAL ENERGY REGULATORY COMMISSION—Continued

appropriate regulatory and market means. Regulated entities pay fees and charges sufficient to recover the Commission's full cost of operations.

*Ensure Just and Reasonable Rates, Terms and Conditions.*—One of the Commission's fundamental statutory responsibilities is to ensure that rates, terms and conditions for wholesale sales and transmission of electric energy and for transportation of natural gas are just and reasonable and not unduly discriminatory or preferential. To fulfill this responsibility, the Commission uses a combination of market and regulatory means, complemented by oversight and enforcement measures. For example, the Commission seeks to improve the competitiveness of organized wholesale electric markets, which in turn encourages new entry by supply-side and demand-side resources, spurs innovation and deployment of new technologies, improves operating performance, and exerts downward pressure on costs. The Commission will continue to pursue market reforms to allow all resources to compete in jurisdictional markets on a level playing field. Another example of the Commission's use of market and regulatory means in support of this goal is found in the Commission's requirements for public utility transmission providers to participate in an open and transparent regional transmission planning process and to allocate appropriately the costs of new transmission facilities stemming from such a process. In addition, the Commission approves cost-based, and where appropriate, market-based rates for the interstate transportation of natural gas and oil on jurisdictional pipelines, and for the interstate transmission and wholesale sales of electric energy. The Commission also prevents the accumulation and exercise of market power by reviewing merger and other transactions in the electric industry to ensure that these proposals will not harm the public interest. The Commission accepts tariff provisions, as appropriate, to allow natural gas and oil pipelines and public utilities to modify their services to meet their customers' needs. Oversight and enforcement are essential complements to the Commission's approach to ensure that rates, terms and conditions of service are just and reasonable and not unduly discriminatory or preferential. The Commission will review internal compliance programs as part of its compliance audits, issue publicly available audit reports, and engage in formal and informal outreach efforts to promote effective compliance programs. Audits are planned and prioritized using a risk-based approach in order to maximize the impact of the Commission's resources. The Commission also conducts public and non-public investigations of possible violations of the statutes, regulations, rules, orders, and tariffs administered by the Commission. When violations of sufficient seriousness are discovered, the Commission attempts to resolve the investigation through settlement with appropriate sanctions and future compliance improvements before recommending that the Commission initiate further enforcement proceedings.

*Promote Safe, Reliable, Secure, and Efficient Infrastructure.*—The Commission plays an important role in the development of energy infrastructure that operates efficiently, safely and reliably. One aspect of the Commission's role in energy infrastructure development stems from siting authority that includes licensing non-federal hydropower projects, certificating interstate natural gas pipelines and storage projects, authorizing liquefied natural gas (LNG) facilities, and, in certain circumstances, permitting electric transmission lines. Throughout all of these processes, the Commission's goal is to expedite application processing without compromising environmental responsibilities or public participation. The Commission encourages, and sometimes requires, project proponents to engage in early involvement with

state and federal agencies, Indian tribes, affected landowners and the public. Another aspect of the Commission's role in energy infrastructure development stems from the Commission's responsibility for the safety of LNG and non-federal hydropower facilities throughout the entire life cycle of a project: design review, construction and operation. To meet this mandate, FERC primarily relies on physical inspections of the facilities. The Commission is incorporating risk-informed decision making into its dam safety program. By doing so, the Commission is focusing its resources on those structures that pose the greatest risk. The Commission also has an important role in maintaining the reliability of the electric transmission grid. A Commission-certified Electric Reliability Organization (ERO) develops and enforces mandatory reliability standards, subject to the Commission's oversight and approval. The Reliability Standards development process uses an open and inclusive process that employs extensive negotiation, consultation and coordination among many stakeholders. Regional Entities may also develop regional Reliability Standards or regional modifications to a national Reliability Standard. In all such cases, the Commission must either accept or remand these filings. The Commission may also, upon its own motion or upon complaint, order the ERO to submit a proposed reliability standard or a modification of an existing reliability standard that addresses a specific reliability matter. Once proposed standards are filed, it is important that the Commission respond in a timely manner so that mandatory and enforceable standards affecting reliability can be implemented in a timely manner. In addition, the Commission will provide leadership, expertise and assistance in identifying, communicating and seeking comprehensive solutions to significant potential cyber and physical security risks to the energy infrastructure under the Commission's jurisdiction.

*Mission Support through Organizational Excellence.*—The public interest is best served when the Commission operates in an efficient, responsive and transparent manner. The Commission achieves this operational state by maintaining processes and providing services in accordance with governing statutes, authoritative guidance, and prevailing best practices. Facilitating understanding of how the Commission carries out its responsibilities and maintaining public trust in the Commission are important components of the Commission's commitment to organizational excellence. Trust and understanding increase acceptance of FERC decisions and reduces the potential for contentiousness toward FERC rules and regulations, thus enabling the creation and enforcement of policy. Through the use of the Commission's eLibrary and eSubscriptions web pages, the public can obtain extensive information concerning documents both submitted to and issued by the Commission. The Commission also manages several social media sites to promote transparency and open communication. In FY 2015, the Commission expects to have advanced tracking software that will monitor and measure the effectiveness and reach of its social media. More generally, the Commission prioritizes resource allocations and makes prudent investments in relation to specific program activities or challenges. In meeting this commitment, the Commission is making new investments in its human capital, information technology resources, and physical infrastructure. Because Commission employees are directly responsible for achieving FERC's mission, the Commission allocates over two-thirds of its budget to directly cover the compensation costs of its employees on an annual basis. Given this significant investment, the Commission places extremely high value on its employees and is focused on ensuring their success. The Commission continues to focus its human capital efforts on the competencies and positions most affected by the potential loss of approximately 30 percent of its staff to retirement

by FY 2018. The Commission will focus on the execution of its hiring processes to ensure it maximizes allocated financial resources in a timely fashion. At the same time, the headquarters building lease term expires in September 2015. The Commission is seeking to exercise the lease extension and will oversee a complex multi-year renovation effort to realize mandated space-savings.

Title XXXIV, Subtitle B of Public Law 104-106 required the Department to sell the government's interest in Naval Petroleum Reserve No. 1 (NPR-1; Elk Hills) pursuant to the terms of the Act. The sale occurred in February 1998. Section 3415 of the Act required, among other things, that the Department make an offer of settlement based on the fair value of the State of California's longstanding claims to two parcels of land ("school lands") within the Reserve. Under the Act, nine percent of the net proceeds were reserved in a contingent fund in the Treasury for payment to the State. In compliance with the Act and in order to remove any cloud over title which could diminish the sales value of the Reserve, the Department entered into a settlement agreement with the State on October 11, 1996, in which the Department agreed to compensate the State of California for its claim of title to two sections of land with NPR-1. The "Settlement Agreement" stipu-

lates installments reserved by the Act will be paid to the State. Installments totaling \$299,520,000 have been paid to date. On April 21, 2011 the Department settled NPR-1 final equity with Chevron. Under the terms of the settlement, Chevron paid \$108,000,000 to the United States. That, in turn, increased the net proceeds of the sale. On August 3, 2011, the Department and the State agreed on the final payment of \$15,579,815 with respect to the longstanding claim on the two sections of land.

The Northeast Home Heating Oil Reserve provides an emergency supply of home heating oil supply for the Northeast States during times of inventory shortages and significant threats to immediate further supply. In order to comply with Northeast states' emission standards, the Reserve was converted from 2 million barrels of high sulfur heating oil to 1 million barrels of Ultra Low Sulfur Diesel (ULSD). This fuel is stored in commercial terminals located at Groton, CT and Boston, MA. The FY 2015 Budget continues the operation and management of the Reserve, including the solicitation of new leases for the Northeast commercial storage terminals.

A new nuclear waste management approach was outlined in the Administrations January 2013 *Strategy for the Management and Disposal of Used Nuclear Fuel and High Level Radioactive Waste* and the FY 2015 Budget reflects this new Strategy. The Budget includes a proposal to implement funding reforms needed to support the new approach, which includes the collection of one-time fees anticipated to begin in the 2023 timeframe. Additional discussion of the proposal can be found in the narrative for the Department of Energy's Nuclear Energy account.

In FY 2010, the Department closed the Yucca Mountain Project and the Office of Civilian Radioactive Waste Management. Residual obligations and outlays in the Nuclear Waste Disposal account are associated with Yucca project closeout activities and remaining legacy activities such as accounting.

Section 136 of the Energy Independence and Security Act of 2007 established a direct loan program to support the development of advanced technology vehicles and associated components in the United States, known as the Advanced Technology Vehicles Manufacturing Loan Program (ATVM). The 2009 Continuing Resolution (CR), enacted on September 30, 2008, appropriated \$7.5 billion to support a maximum of \$25 billion in loans under the ATVM. The ATVM provides loans to automobile and automobile part manufacturers for the cost of re-equipping, expanding, or establishing manufacturing facilities in the United States to produce advanced technology vehicles or qualified components and for associated engineering integration costs.

The FY 2015 Budget reflects placeholder estimates for direct loan subsidy costs. These estimates are not related to any specific project proposals. DOE will calculate the credit subsidy cost of any direct loan on a case-by-case basis in accordance with Federal Credit Reform Act of 1990 (FCRA) and OMB Circular A-11. For any project, the terms and conditions of the loan, the risks associated with the project, and any other factor that affects the amount and timing of such cash flows will affect the credit subsidy cost calculations.

The Department requests \$4 million in FY 2015 to operate the ATVM and support personnel and associated costs. To ensure that the Department meets statutory and regulatory requirements and implements effective management and oversight of its loan guarantee activities, program funding also will support

ADVANCED TECHNOLOGY VEHICLES MANUFACTURING LOAN PROGRAM—Continued

the procurement of providers of outside expertise in areas such as finance, project engineering, and commercial market assessment. The costs of these outside advisors are paid from the ATVM administrative budget.

As required by the FCRA, this account records, for this program, the subsidy costs associated with the direct loans committed in 1992 and beyond (including modifications of direct loans that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Loan Programs Office (LPO) will consider and coordinate Departmental action on all loan guarantee applications submitted to the Department of Energy in compliance with Title XVII of the Energy Policy Act of 2005 (EPAAct of 2005). Section 1703 of that Act authorizes the Department to provide loan guarantees for projects in categories including renewable energy systems, advanced nuclear facilities, coal gasification, carbon sequestration, energy efficiency, and various other types of projects. These projects must avoid, reduce, or sequester air pollutants or anthropogenic emissions of greenhouse gases; employ new or significantly improved technologies compared to commercial technologies in service in the United States at the time the guarantee is issued;

TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM—Continued and offer a reasonable prospect of repayment of the principal and interest on the guaranteed obligation. DOE has been implementing Section 1703 of this program under authorizing law that allows borrowers to pay the credit subsidy costs of these loan guarantees ("self-pay" authority).

Section 406 of the American Recovery and Reinvestment Act of 2009, P.L. No. 111–5 (the "Recovery Act"), amended the LGPO's authorizing legislation, by establishing Section 1705, a temporary program for the rapid deployment of renewable energy and electric power transmission projects. For the Section 1705 program, \$2.435 billion (after rescissions and transfers) in appropriated credit subsidy was provided, which allowed the Secretary to make loan guarantees available for the following categories of projects that commenced construction not later than September 30, 2011: renewable energy systems, including incremental hydropower, that generate electricity or thermal energy, and facilities that manufacture related components; electric power transmission systems, including upgrading and reconditioning projects; and leading edge biofuel projects that will use technologies performing at the pilot or demonstrations scale that the Secretary determines are likely to become commercial technologies and will produce transportation fuels that substantially reduce life-cycle greenhouse gas emissions compared to other transportation fuels. The authority to enter into loan guarantees under Section 1705 expired on September 30, 2011.

The decision to issue loan guarantees depends on the merits and benefits of particular project proposals and their compliance with statutory and regulatory requirements.

As of January 2014, \$34 billion in self-pay loan guarantee authority is available to support projects eligible under Section 1703. In addition, the FY 2011 full-year continuing resolution provided \$170 million in appropriated credit subsidy for Section 1703 loan guarantees for energy efficiency and renewable energy projects. Loan volume utilized may not be reused. The FY 2015 Budget does not include any additional loan authority or appropriated credit subsidy as the program will focus on deploying the significant amount of remaining resources appropriated in prior years. The FY 2015 Budget reflects estimates based on illustrative examples, unrelated to any specific project.

The Loan Programs Office will ensure all processes and criteria are applied uniformly in accordance with established requirements, procedures and guidelines. The Department requests \$42 million in FY 2015 to operate the Office and support personnel and associated costs. This request is intended to be offset by \$35 million in collections authorized under the EAct of 2005. To ensure that the Department meets statutory and regulatory requirements and implements effective management and oversight of its loan guarantee activities, program funding also will support the procurement of outside expertise in areas such as finance, project engineering, and commercial market assessment. The costs of these outside advisors are paid for by applicants to the Section 1703 Loan Guarantee Program.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as the administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Trust will be funded from existing royalty revenues generated from Federal oil and gas development. Establishing a guaranteed source of funding will allow the Department of Energy to maintain targeted and sustained investments that will directly advance U.S. energy security.

OPERATION AND MAINTENANCE, ALASKA POWER ADMINISTRATION

The Alaska Power Administration (APA) was created in 1967 by the Secretary of the Interior to assume the functions of the Bureau of Reclamation in Alaska. These functions include operations, maintenance, transmission, and power marketing of the two Federal hydroelectric projects (Eklutna and Snettisham), and the investigation of future water and power development programs. All Alaska activities of APA, including the Juneau headquarters office, were terminated on September 30, 1998. A fund is maintained to liquidate the remaining obligations of the APA.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

The Southeastern Power Administration (Southeastern) markets power generated at 22 U.S. Army Corps of Engineers' hydroelectric generating plants in an eleven-State area of the Southeast. Power deliveries are made by means of contracting for use of transmission facilities owned by others.

Southeastern sells wholesale power primarily to publicly and cooperatively-owned electric distribution utilities. Southeastern does not own or operate any transmission facilities. Its long-term contracts provide for periodic electric rate adjustments to ensure that the Federal Government recovers the costs of operations and the capital invested in power facilities, with interest, in keeping with statutory requirements. As in past years, the budget continues to provide funding for annual expenses and purchase power and wheeling expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

*Program Direction.*—Provision is made for negotiation and administration of transmission and power contracts, collection of revenues, development of wholesale power rates, amortization of the Federal power investment, energy efficiency and competitiveness program, investigation and planning of proposed water resources projects, scheduling and dispatch of power generation, scheduling storage and release of water, administration of contractual operation requirements, and determination of methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources.

*Purchase Power and Wheeling.*—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with the disposal of power under contracts with utility companies. Customers are encouraged to use alternative funding mechanisms, including customer advances and net billing to finance these activities. Offsetting collections to fund these ongoing operating services are also available up to \$73.6 million in 2015.

*Reimbursable Program.*—The Consolidated Appropriations Act, 2008 (Pub. L. No. 110-161) provided Southeastern with authority to accept advance payment from customers for reimbursable work associated with operations and maintenance activities, consistent with those authorized in section 5 of the Flood Control Act of 1944. Funds received from any State, municipality, corporation, association, firm, district or individual as an advance payment for reimbursable work will be credited to Southeastern's account and remain available until expended.

CONTINUING FUND, SOUTHEASTERN POWER ADMINISTRATION

A continuing fund maintained from receipts from the sale and transmission of electric power in the Southeastern service area is available to defray emergency expenses necessary to ensure continuity of service (16 U.S.C. 825s-2). The fund was last activated in fiscal year 2009 to finance power purchases associated with below normal hydro power generation due to severe drought. Consistent with sound business practices, the Southeastern Power Administration has implemented a policy to recover all emergency costs associated with purchased power and wheeling within one year from the time funds are expended.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, for construction and acquisition of transmission lines, substations and appurtenant facilities, and for administrative expenses, including official reception and representation expenses in an amount not to exceed \$1,500 in carrying out section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the Southwestern Power Administration, **[\$45,456,000]** \$46,240,000, to remain available until expended: *Provided*, That notwithstanding 31 U.S.C. 3302 and section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), up to **[\$33,564,000]** \$34,840,000 collected by the Southwestern Power Administration from the sale of power and related services shall be credited to this account as discretionary offsetting collections, to remain available until expended, for the sole purpose of funding the annual expenses of the Southwestern Power Administration: *Provided further*, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year **[2014]** 2015 appropriation estimated at not more than **[\$11,892,000]** \$11,400,000: *Provided further*, That, notwithstanding 31 U.S.C. 3302, up to **[\$42,000,000]** \$53,000,000 collected by the Southwestern Power Administration pursuant to the Flood Control Act of 1944 to recover purchase power and wheeling expenses shall be

credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures: *Provided further*, That, for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred (excluding purchase power and wheeling expenses). The Southwestern Power Administration (Southwestern) operates in a six-state area marketing and delivering renewable hydroelectric power produced at the U.S. Army Corps of Engineers' dams. Southwestern operates and maintains 1,380 miles of high voltage transmission lines, 25 substations and switching stations, associated power system controls, and communication sites.

Southwestern is also responsible for the construction of these facilities.

Southwestern markets and delivers its power at wholesale rates primarily to public bodies and rural electric cooperatives. In compliance with statutory requirements, Southwestern's power sales contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operations, other costs allocated to power, and the capital investments in power facilities, with interest. Southwestern is also responsible for scheduling and dispatching power and negotiating power sales contracts to meet changing customer load requirements. As in past years, the budget continues to provide funding for annual expenses and purchase power and wheeling expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

**Program Direction.**—Provides compensation and all related expenses for personnel who market, deliver, operate, and maintain Southwestern's high-voltage interconnected power system and associated facilities.

**Operations and Maintenance.**—Provides essential electrical and communications equipment replacements and upgrades, capitalized moveable equipment, technical services, and supplies and materials necessary for the safe, reliable, and cost effective operation and maintenance of the power system.

**Purchase Power and Wheeling.**—Provides for the purchase and delivery of energy to meet limited peaking power contractual obligations. Federal power receipts and alternative financing methods, including net billing, bill crediting, and customer advances are used to fund system-purchased power support and other contractual services. Customers will provide other power resources and/or purchases for the remainder of their firm loads.

**Construction.**—Provides for replacement, addition or upgrade of existing infrastructure to sustain reliable delivery of power to its customers, contain annual maintenance costs, and improve overall efficiency.

**Reimbursable Program.**—This activity involves services provided by Southwestern to others under various types of reimbursable arrangements.

## WHITE RIVER MINIMUM FLOW

In 2010, Southwestern compensated the licensee of Federal Energy Regulatory Commission (FERC) Project No. 2221 \$26,563,700 for impacts of the White River Minimum Flows project. Under this legislation, Southwestern also has the authority to collect and disburse receipts for Purchase Power and Wheeling expenses as a result of the implementation of the White

River Minimum Flows project. Southwestern has made final payment to the licensee of FERC Project No. 2221 from this account.

A continuing fund maintained from receipts from the sale and transmission of electric power in the Southwestern service area, is available permanently for emergency expenses necessary to ensure continuity of electric service and continuous operation of the facilities. The fund is also available on an ongoing basis to pay for purchase power and wheeling expenses when the Administrator determines that such expenses are necessary to meet contractual obligations for the sale and delivery of power during periods of below-average generation (16 U.S.C. 825s-1 as amended further by Public Law No. 101-101). The fund was last activated in fiscal year 2009 to repair and replace damaged transmission lines due to an ice storm.

The Western Area Power Administration (Western) markets electric power in 15 central and western states from federally-owned power plants operated primarily by the Bureau of Reclamation, the Army Corps of Engineers, and the International Boundary and Water Commission. Western operates and main-

tains about 17,000 circuit-miles of high-voltage transmission lines, more than 300 substations/switchyards and associated power system controls, and communication and electrical facilities for 15 separate power projects. Western also constructs additions and modifications to existing facilities.

In keeping with statutory requirements, Western's long-term power contracts allow for periodic rate adjustments to ensure that the Federal Government recovers costs of operations, other costs allocated to power, and the capital investment in power facilities, with interest.

Power is sold to wholesale customers such as municipalities, cooperatives, irrigation districts, public utility districts, State and Federal Government agencies, and private utilities. Receipts are deposited in the Reclamation Fund, the Falcon and Amistad Operating and Maintenance Fund, the General Fund, the Colorado River Dam Fund and the Colorado River Basins Power Marketing Fund.

As in past years, the budget continues to provide funding for annual expenses and purchase power and wheeling expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

This account includes appropriations enacted in the American Recovery and Reinvestment Act of 2009 for use by Western Area Power Administration to complete activities authorized in section 402 of the Act.

*Systems Operation and Maintenance.*—Provides essential electrical and communication equipment replacements and upgrades, capitalized moveable equipment, technical services, and supplies and materials necessary for safe reliable operation and cost-effective maintenance of the power systems.

*Purchase Power and Wheeling.*—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with the distribution of power under contracts with utility companies, including the cost of voluntary participation in state greenhouse gas programs. Customers are encouraged to contract for power and wheeling on their own, or use alternative funding mechanisms, including customer advances, net billing and bill crediting to finance these activities. Ongoing operating services are also available on a reimbursable basis.

*System Construction.*—Western's construction and rehabilitation activity emphasizes replacement and upgrades of existing infrastructure to sustain reliable power delivery to its customers, to contain annual maintenance costs, and to improve overall operational efficiency. Western will continue to participate in joint construction projects with customers to encourage more widespread transmission access.

*Program Direction.*—Provides compensation and all related expenses for the workforce that operates and maintains Western's high-voltage interconnected transmission system (systems operation and maintenance program), and those that plan, design, and supervise the construction of replacements, upgrades and additions (system construction program) to the transmission facilities.

*Reimbursable Program.*—This program involves services provided by Western to others under various types of reimbursable arrangements. Western will continue to spend out of the Colorado River Dam Fund for operations and maintenance activities associated with the Boulder Canyon Project via a reimbursable arrangement with the Interior Department's Bureau of Reclamation. The Colorado River Dam Fund is a revolving fund operated by the Bureau of Reclamation. Authority for

Western to obligate directly from the Colorado River Dam Fund comes from section 104(a) of the Hoover Power Plant Act of 1984.

The American Recovery and Reinvestment Act of 2009 (the Act) provided Western Area Power Administration (Western) borrowing authority for the purpose of constructing, financing, facilitating, planning, operating, maintaining or studying construction of new or upgraded electric power transmission lines and related facilities with at least one terminus within the area served by Western, and for delivering or facilitating the delivery of power generated by renewable energy resources constructed or reasonably expected to be constructed after the date of enactment. This authority to borrow from the United States Treasury is available to Western on a permanent, indefinite basis, with the amount of borrowing outstanding not to exceed \$3.25 billion at any one time. Western has established a separate program and office to administer the borrowing authority. The Transmission Infrastructure Program will support Western's and the Department of Energy's priorities by facilitating the delivery of renewable energy resources to market.

The fund was last activated in fiscal year 2010 to repair and replace damaged transmission lines due to severe winter storm conditions. This work has since been completed.

**FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND**

For operation, maintenance, and emergency costs for the hydroelectric facilities at the Falcon and Amistad Dams, **[\$5,330,671] \$4,727,000**, to remain available until expended, and to be derived from the Falcon and Amistad Operating and Maintenance Fund of the Western Area Power Administration, as provided in section 2 of the Act of June 18, 1954 (68 Stat. 255): *Provided*, That notwithstanding the provisions of that Act and of 31 U.S.C. 3302, up to **[\$4,910,671] \$4,499,000** collected by the Western Area Power Administration from the sale of power and related services from the Falcon and Amistad Dams shall be credited to this account as discretionary offsetting collections, to remain available until expended for the sole purpose of funding the annual expenses of the hydroelectric facilities of these Dams and associated Western Area Power Administration activities: *Provided further*, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year **[2014] 2015** appropriation estimated at not more than **[\$420,000] \$228,000**: *Provided further*, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred: *Provided further*, That for fiscal year **[2014] 2015**, the Administrator of the Western Area Power Administration may accept up to **[\$865,000] \$802,000** in funds contributed by United States power customers of the Falcon and Amistad Dams for deposit into the Falcon and Amistad Operating and Maintenance Fund, and such funds shall be available for the purpose for which contributed in like manner as if said sums had been specifically appropriated for such purpose: *Provided further*, That any such funds shall be available without further appropriation and without fiscal year limitation for use by the Commissioner of the United States Section of the International Boundary and Water Commission for the sole purpose of operating, maintaining, repairing, rehabilitating, replacing, or upgrading the hydroelectric facilities at these Dams in accordance with agreements reached between the Administrator, Commissioner, and the power customers. (*Energy and Water Development and Related Agencies Appropriations Act, 2014.*)

Pursuant to section 2 of the Act of June 18, 1954, as amended, Western Area Power Administration is requesting funding for the Falcon and Amistad Operating and Maintenance Fund to defray operations, maintenance, and emergency (OM&E) expenses for the hydroelectric facilities at Falcon and Amistad Dams on the Rio Grande River. Most of these funds will be made available to the United States Section of the International Boundary and Water Commission through a reimbursable agreement. Within the fund, \$200,000 is for an emergency reserve that will remain unobligated unless unanticipated expenses arise. Revenues in excess of OM&E will be paid to the General Fund to repay the costs of replacements and the original investment with interest. The budget provides funding for annual expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

Western Area Power Administration's (Western) operation and maintenance (O&M) and power marketing expenses for the Colorado River Storage Project, the Colorado River Basin Project, the Seedskadee Project, the Dolores Project and the Fort Peck Project are financed from power revenues.

*Colorado River Storage Project.*—Western markets power and operates and maintains the power transmission facilities of the Colorado River Storage Project consisting of four major storage units: Glen Canyon on the Colorado River in Arizona, Flaming Gorge on the Green River in Utah, Navajo on the San Juan River in New Mexico, and the Wayne N. Aspinall unit on the Gunnison River in Colorado.

*Colorado River Basin Project.*—This project includes Western's expenses associated with the Central Arizona Project and the United States entitlement from the Navajo coal-fired powerplant. Revenues in excess of operating expenses are transferred to the Lower Colorado River Basin Development Fund.

*Seedskadee Project.*—This project includes Western's expenses for O&M, power marketing, and transmission of hydroelectric power from the Fontenelle Dam power plant in southwestern Wyoming.

*Dolores Project.*—This project includes Western's expenses for O&M, power marketing, and transmission of hydroelectric power from power plants at McPhee Dam and Towaoc Canal in southwestern Colorado.

*Fort Peck Project.*—Revenues collected by Western are used to defray operation and maintenance and power marketing expenses associated with the power generation and transmission facilities of the Fort Peck Project, and Western operates and maintains the transmission system and performs power marketing functions.

*Equipment, Contracts and Related Expenses.*—Western operates and maintains approximately 4,000 miles of transmission lines, substations, switchyards, communications and control equipment associated with this fund. Wholesale power is provided to utilities over interconnected high-voltage transmission systems. In keeping with statutory requirements, long-term power contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of O&M, and all capital invested in power, with interest. This activity provides for the supplies, materials, services, capital equipment replacements and additions, including communications and control equipment, purchase power, transmission and wheeling services, and interest payments to the U.S. Treasury.

**Program Direction.**—The personnel compensation and related expenses for all these activities are quantified under Program Direction.

Bonneville Power Administration (BPA) is a Federal electric power marketing agency in the Pacific Northwest. BPA markets hydroelectric power from 21 multipurpose water resource projects of the U.S. Army Corps of Engineers and 10 projects of the U.S. Bureau of Reclamation, plus some energy from non-Federal generating projects in the region. These generating resources and BPA's transmission system are operated as an integrated power system with operating and financial results combined and reported as the Federal Columbia River Power System (FCRPS). BPA provides about 50 percent of the region's electric energy supply and about three-fourths of the region's high-voltage electric power transmission capacity.

BPA is responsible for meeting the net firm power requirements of its requesting customers through a variety of means, including energy conservation programs, acquisition of renewable and other resources, and power exchanges with utilities both in and outside the region.

BPA will finance its operations with a business-type budget under the Government Corporation Control Act, 31 U.S.C. 9101-10, on the basis of the self-financing authority provided by the Federal Columbia River Transmission System Act of 1974 (Transmission Act) (Public Law 93-454) and the U.S. Treasury borrowing authority provided by the Transmission Act, the Pacific Northwest Electric Power Planning and Conservation Act (Pacific Northwest Power Act) (Public Law 96-501) for energy conservation, renewable energy resources, capital fish facilities, and other purposes, the American Recovery and Reinvestment Act of 2009 (Public Law 111-5), and other legislation. Authority to borrow from the U.S. Treasury is available to the BPA on a permanent, indefinite basis. The amount of U.S. Treasury borrowing outstanding at any time cannot exceed \$7.70 billion. BPA finances its approximate \$4.3 billion annual cost of operations and investments primarily using power and transmission revenues and loans from the U.S. Treasury.

*Operating Expenses.—Transmission Services.*—Provides for operating over 15,000 circuit miles of high-voltage transmissions

lines and 261 substations, and for maintaining the facilities and equipment of the Bonneville transmission system in 2015.

*Power Services.*—Provides for the planning, contractual acquisition and oversight of reliable, cost effective resources. These resources are needed to serve BPA's portion of the region's forecasted net electric load requirements. This activity also includes protection, mitigation and enhancement of fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries in accordance with the Pacific Northwest Power Act. This activity provides for payment of the operation and maintenance (O&M) costs allocated to power the 31 U.S. Army Corps of Engineers and U.S. Bureau of Reclamation hydro projects, amortization on the capital investment in power generating facilities, and irrigation assistance at U.S. Bureau of Reclamation facilities. This activity also provides for the planning, contractual acquisition and oversight of reliable, cost effective conservation. It also provides for extending the benefits of low cost Federal power to the residential and small farm customers of investor-owned and publicly-owned utilities, in accordance with the Pacific Northwest Power Act and for activities of the Pacific Northwest Electric Power and Conservation Planning Council required by the Pacific Northwest Power Act.

*Interest.*—Provides for payments to the U.S. Treasury for interest on U.S. Treasury borrowings to finance BPA's capital investments under \$7.70 billion of U.S. Treasury borrowing authority provided by the Transmission Act, the Pacific Northwest Power Act for energy conservation, renewable energy resources, capital fish facilities, and other purposes, the American Recovery and Reinvestment Act of 2009, and other legislation. This interest category also includes interest on U.S. Army Corps of Engineers, BPA and U.S. Bureau of Reclamation appropriated debt.

*Capital Investments-Transmission Services.*—Provides for the planning, design and construction of transmission lines, substation and control system additions, replacements, and enhancements to the FCRPS transmission system for a reliable, efficient and cost-effective regional transmission system. Provides for planning, design, and construction work to repair or replace existing transmission lines, substations, control systems, and general facilities of the FCRPS transmission system.

*Power Services.*—Provides for direct funding of additions, improvements, and replacements at existing Federal hydroelectric projects in the Northwest. It also provides for capital investments to implement environmental activities, and protect, mitigate, and enhance fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries, in accordance with the Pacific Northwest Power Act. This activity provides for the planning, contractual acquisition and oversight of reliable, cost effective conservation. *Capital Equipment/Capitalized Bond Premium.*—Provides for capital information technologies, and office furniture and equipment, and software capital development in support of all BPA programs. It also provides for bond premiums incurred for refinancing of bonds.

*Total Capital Obligations.*—The 2015 capital obligations are estimated to be \$1.1 billion.

*Contingencies.*—Although contingencies are not specifically funded, the need may arise to provide for purchase of power in low-water years; for repair and/or replacement of facilities affected by natural and man-made emergencies, including the resulting additional costs for contracting, construction, and operation and maintenance work; for unavoidable increased costs for the planned program due to necessary but unforeseen adjustments, including engineering and design changes, contractor and other claims and relocations; or for payment of a retrospective premium adjustment in excess nuclear property insurance.

**Financing.**—The Transmission Act provides for the use by BPA of all receipts, collections, and recoveries in cash from all sources, including the sale of bonds, to finance the annual budget programs of BPA. These receipts result primarily from the sale of power and transmission services. The Transmission Act also provides for authority to borrow from the U.S. Treasury at rates comparable to borrowings at open market rates for similar issues. BPA has \$7.70 billion of U.S. Treasury borrowing authority provided by the Transmission Act, the Pacific Northwest Power Act for energy conservation, renewable energy resources, capital fish facilities, and other purposes, the American Recovery and Reinvestment Act of 2009, and other legislation. At the end of 2013, BPA had outstanding bonds with the U.S. Treasury of \$3.9 billion. At the end of 2013, BPA also had \$6.8 billion of non-Federal debt outstanding, including Energy Northwest bonds. BPA will rely primarily on its U.S. Treasury borrowing authority to finance capital projects, but may also elect to use cash reserves generated by revenues from customers or seek third party financing sources when feasible to finance some of these investments.

In 2013, BPA made payments to the Treasury of \$692 million and also expects to make payments of \$658 million in 2014 and \$715 million in 2015. The 2015 payment will be distributed as follows: interest on bonds and appropriations (\$416 million), amortization (\$209 million), and other (\$90 million). BPA also received credits totaling \$84 million applied against its Treasury payments in 2013 to reflect amounts diverted to fish mitigation efforts, but not allocable to power, in the Columbia and Snake River systems.

BPA, with input from its stakeholders, considers other strategies to sustain funding for its infrastructure investment requirements as well. BPA's recently updated Financial Plan defines strategies and policies for guiding how BPA will manage risk and variability of electricity markets and water years. It also describes how BPA will continue to manage to ensure it meets its Treasury repayment responsibilities.

**Direct Loans.**—During 2015, no new direct loan obligations may be made.

**Operating Results.**—Total revenues are forecast at approximately \$4.1 billion in 2015.

It should be noted that BPA's revenue forecasts are based on several critical assumptions about both the supply of and demand for Federal energy. During the operating year, deviation from the conditions assumed in a rate case may result in a variation in actual revenues of several hundred million dollars from the forecast.

Consistent with Administration policy, BPA will continue to fully recover, from the sale of electric power and transmission, funds sufficient to cover the full cost of Civil Service Retirement System and Post-Retirement Health Benefits for its employees. The entire cost of BPA and the power share of FCRPS U.S. Army Corps of Engineers and U.S. Bureau of Reclamation employees working under the Federal Employees Retirement System is fully recovered in wholesale electric power and transmission rates.

**Chief Financial Officer (CFO).**—The Office of the Chief Financial Officer's mission is to assure the effective management and financial integrity of DOE programs, activities, and resources by developing, implementing, and monitoring Department-wide policies and systems in the areas of budget administration, finance and accounting, internal controls and financial policy, corporate financial systems, and strategic planning.

**Chief Information Officer (CIO).**—The Office of the Chief Information Officer provides advice and assistance to the Secretary of Energy and other senior managers to ensure that information

technology is acquired and information resources are managed in a manner that complies with policies and procedures of legislation including the Paperwork Reduction Act, the Clinger Cohen Act and the Federal Information Security Act.

**Energy Policy and Systems Analysis (EPSA).**—The Office of Energy Policy and Systems Analysis serves as the principal policy advisor to the Secretary of Energy on energy and related integration of energy systems. The Office serves as a focal point for policy coordination within the Department on the formulation, analysis, and implementation of energy policy and related programmatic options and initiatives that could facilitate the transition to a low-carbon and secure energy economy.

**International Affairs (IA).**—The Office of International Affairs advises Departmental leadership on strategic implementation of the United States' international energy policy. IA develops and leads the Department's bilateral and multilateral R&D cooperation, including investment and trade activities with other nations and international agencies, and represents the Department and the United States Government in interagency processes, intergovernmental forums, and bilateral and multilateral proceedings that address the development and implementation of energy policies, strategies and objectives.

**Management (MA).**—The Office of Management provides DOE with centralized direction and oversight for the full range of management, procurement and administrative services. MA is responsible for project and contract management policy development and oversight, acquisition and contract administration, cost estimating, and delivery of procurement services to DOE headquarters organizations. MA's administrative activities include the management of headquarters facilities and the delivery of other services critical to the proper functions of the Department.

**Chief Human Capital Officer (HC).**—The Office of the Chief Human Capital Officer provides leadership to the Department on the impact and use of policies, proposals, programs, partnership agreements and relationships related to all aspects of human capital management. HC seeks solutions that address workforce issues in the areas of recruiting, hiring, motivating, succession planning, competency development, training and learning, retention, and diversity. The Office also provides leadership and direction on DOE human capital issues with the Office of Personnel Management (OPM), Government Accountability Office (GAO), the Merit Systems Protection Board (MSPB), Federal Labor Relations Authority (FLRA), and other organizations.

**Congressional and Intergovernmental Affairs (CI).**—The Office of Congressional and Intergovernmental Affairs is responsible for the Department's liaison, communication, coordinating, directing, and promoting the Secretary's and the Department's policies and legislative initiatives with Congress, State, territorial, Tribal and local government officials, other Federal agencies, and the general public.

**Public Affairs (PA).**—The Office of Public Affairs is responsible for directing and managing the Department's policies and initiatives with the public, news media, and other stakeholders on energy issues. The Office serves as the Department's chief spokesperson with the news media, shapes initiatives aimed at educating the press and public about energy issues, builds and maintains the Department's innovative and cost-saving Energy.gov internet platform, and oversees all public affairs efforts. This includes public information, press and media services, employee communications, speech writing, special projects, editorial services, and review of proposed publications and audiovisuals.

**General Counsel (GC).**—The Office of the General Counsel is responsible for providing legal services to all Department of En-

ergy offices, and for determining the Department's authoritative position on any question of law with respect to all Department offices and programs, except for those belonging exclusively to the Federal Energy Regulatory Commission. GC's responsibilities include the provision of legal opinions, advice, and services to administrative and program offices, and participation in or management of both administrative and judicial litigation. GC is responsible for the coordination and clearance of proposed legislation affecting energy policy and Department activities. The General Counsel serves as the Department's Regulatory Policy Officer under Executive Order 12866, and is responsible for ensuring consistency and legal sufficiency of the Department's regulations. GC administers and monitors standards of conduct requirements, conducts patent program and intellectual property activities, and coordinates rulemaking actions of the Department with other federal agencies.

*The Office of the Secretary (OSE).*—Directs and leads the management of the Department and provides policy guidance to line and staff organizations in the accomplishment of DOE's mission.

*Economic Impact and Diversity (ED).*—The Office of Economic Impact and Diversity develops and executes Department-wide policies to implement applicable legislation and Executive Orders that strengthen diversity goals affecting equal employment opportunities, minority businesses, minority banks, minority educational institutions, and historically underrepresented communities. The Office identifies and implements ways of ensuring that underrepresented population groups are afforded an opportunity to participate fully in the energy programs of the Department. ED serves as a strong advocate for equal employment opportunities, civil rights concerns, and non-discriminatory practices at the Department. In addition, the Office is charged with creating and sustaining a high performing, inclusive workforce by leveraging diversity and empowering all employees to achieve superior results.

*Office of Small and Disadvantaged Business Utilization (OSDBU).*—The Office of Small and Disadvantaged Business Utilization is responsible for maximizing contracting and subcontracting opportunities for small businesses interested in doing business with the Department. A primary responsibility of OSDBU is to work in partnership with DOE program elements to achieve Departmental prime and subcontracting small business goals set forth by the U.S. Small Business Administration.

*Cost of Work for Others.*—This activity covers the cost of work performed under orders placed with the Department by non-DOE entities which are precluded by law from making advance payments and certain revenue programs. Reimbursement for these costs is made through deposits of offsetting collections to this account.

This appropriation provides Department-wide (including the National Nuclear Security Administration and the Federal Energy Regulatory Commission) audit, inspection, and investigative functions to identify and recommend corrections for management and administrative deficiencies, which create conditions for existing or potential instances of fraud, waste, abuse and violations of law. The audit function provides financial and performance audits of programs and operations. The inspection function provides independent inspections and analyses of the performance of programs and operations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations. Through these efforts, the OIG identifies opportunities for cost savings and operational efficiencies; identifies programs that are not

## GENERAL PROVISIONS—DEPARTMENT OF ENERGY

(INCLUDING TRANSFER OF FUNDS)

**[SEC. 301.** (a) No appropriation, funds, or authority made available by this title for the Department of Energy shall be used to initiate or resume any program, project, or activity or to prepare or initiate Requests For Proposals or similar arrangements (including Requests for Quotations, Requests for Information, and Funding Opportunity Announcements) for a program, project, or activity if the program, project, or activity has not been funded by Congress.

(b)(1) Unless the Secretary of Energy notifies the Committees on Appropriations of the House of Representatives and the Senate at least 3 full business days in advance, none of the funds made available in this title may be used to—

(A) make a grant allocation or discretionary grant award totaling \$1,000,000 or more;

(B) make a discretionary contract award or Other Transaction Agreement totaling \$1,000,000 or more, including a contract covered by the Federal Acquisition Regulation;

(C) issue a letter of intent to make an allocation, award, or Agreement in excess of the limits in subparagraph (A) or (B); or

(D) announce publicly the intention to make an allocation, award, or Agreement in excess of the limits in subparagraph (A) or (B).

(2) The Secretary of Energy shall submit to the Committees on Appropriations of the House of Representatives and the Senate within 15 days of the conclusion of each quarter a report detailing each grant allocation or discretionary grant award totaling less than \$1,000,000 provided during the previous quarter.

(3) The notification required by paragraph (1) and the report required by paragraph (2) shall include the recipient of the award, the amount of the award, the fiscal year for which the funds for the award were appropriated, the account and program, project, or activity from which the funds are being drawn, the title of the award, and a brief description of the activity for which the award is made.

(c) The Department of Energy may not, with respect to any program, project, or activity that uses budget authority made available in this title under the heading "Department of Energy—Energy Programs", enter into a multiyear contract, award a multiyear grant, or enter into a multiyear cooperative agreement unless—

(1) the contract, grant, or cooperative agreement is funded for the full period of performance as anticipated at the time of award; or

(2) the contract, grant, or cooperative agreement includes a clause conditioning the Federal Government's obligation on the availability of future year budget authority and the Secretary notifies the Committees on Appropriations of the House of Representatives and the Senate at least 3 days in advance.

(d) Except as provided in subsections (e), (f), and (g), the amounts made available by this title shall be expended as authorized by law for the programs, projects, and activities specified in the "Final Bill" column in the "Department of Energy" table included under the heading "Title III—Department of Energy" in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act).

(e) The amounts made available by this title may be reprogrammed for any program, project, or activity, and the Department shall notify the Committees on Appropriations of the House of Representatives and the Senate at least 30 days prior to the use of any proposed reprogramming which would cause any program, project, or activity funding level to increase or decrease by more than \$5,000,000 or 10 percent, whichever is less, during the time period covered by this Act.

(f) None of the funds provided in this title shall be available for obligation or expenditure through a reprogramming of funds that—

(1) creates, initiates, or eliminates a program, project, or activity;

(2) increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act; or

(3) reduces funds that are directed to be used for a specific program, project, or activity by this Act.

(g)(1) The Secretary of Energy may waive any requirement or restriction in this section that applies to the use of funds made available for the Department of Energy if compliance with such requirement or restriction would pose a substantial risk to human health, the environment, welfare, or national security.

(2) The Secretary of Energy shall notify the Committees on Appropriations of the House of Representatives and the Senate of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver. ]

**SEC. [302]301.** The unexpended balances of prior appropriations provided for activities in this Act may be available to the same appropriation accounts for such activities established pursuant to this title. Available balances may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

**SEC. [303]302.** Funds appropriated by this or any other Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year [2014] 2015 until the enactment of the Intelligence Authorization Act for fiscal year [2014] 2015.

**SEC. [304]303.** None of the funds made available in this title shall be used for the construction of facilities classified as high-hazard nuclear facilities under 10 CFR Part 830 unless independent oversight is conducted by the Office of Health, Safety, and Security to ensure the project is in compliance with nuclear safety requirements.

**SEC. [305]304.** None of the funds made available in this title may be used to approve critical decision-2 or critical decision-3 under Department of Energy Order 413.3B, or any successive departmental guidance, for construction projects where the total project cost exceeds \$100,000,000, until a separate independent cost estimate has been developed for the project for that critical decision.

**SEC. 305.** Section 15(g) of Public Law 85-536 (15 U.S.C. 644), as amended, is further amended by striking paragraph (3).

**[SEC. 306.** (a) Any determination (including a determination made prior to the date of enactment of this Act) by the Secretary pursuant to section 3112(d)(2)(B) of the USEC Privatization Act (110 Stat. 1321-335), as amended, shall be valid for not more than 2 calendar years subsequent to such determination.

(b) Not less than 30 days prior to the provision of uranium in any form the Secretary shall notify the House and Senate Committees on Appropriations of the following:

(1) the amount of uranium to be provided;

(2) an estimate by the Secretary of the gross fair market value of the uranium on the expected date of the provision of the uranium;

(3) the expected date of the provision of the uranium;

(4) the recipient of the uranium; and

(5) the value the Secretary expects to receive in exchange for the uranium, including any adjustments to the gross fair market value of the uranium. ]

**[SEC. 307.** Section 20320 of the Continuing Appropriations Resolution, 2007, Public Law 109-289, division B, as amended by the Revised Continuing Appropriations Resolution, 2007, Public Law 110-5, is amended by striking in subsection (c) "an annual review" after "conduct" and inserting in lieu thereof "a review every three years". ]

**[SEC. 308.** None of the funds made available by this or any subsequent Act for fiscal year 2014 or any fiscal year hereafter may be used to pay the salaries of Department of Energy employees to carry out the amendments made by section 407 of division A of the American Recovery and Reinvestment Act of 2009. ]

**SEC. [309]306.** Notwithstanding section 307 of Public Law 111-85, of the funds made available by the Department of Energy for activities at Government-owned, contractor-operated laboratories funded in this or any subsequent Energy and Water Development Appropriations Act for any fiscal year, the Secretary may authorize a specific amount, not to exceed 6 percent of such funds, to be used by such laboratories for laboratory directed research and development.

**[SEC. 310.** Notwithstanding section 301(c) of this Act, none of the funds made available under the heading "Department of Energy—Energy Programs—Science" may be used for a multiyear contract, grant, cooperative agreement, or Other Transaction Agreement of \$1,000,000 or less unless the contract, grant, cooperative agreement, or Other Transaction Agreement is funded for the full period of performance as anticipated at the time of award.]

**[SEC. 311.** (a) Not later than June 30, 2014, the Secretary shall submit to the Committees on Appropriations of the House of Representatives and the Senate a tritium and enriched uranium management plan that provides—

(1) an assessment of the national security demand for tritium and low and highly enriched uranium through 2060;

(2) a description of the Department of Energy's plan to provide adequate amounts of tritium and enriched uranium for national security purposes through 2060; and

(3) an analysis of planned and alternative technologies which are available to meet the supply needs for tritium and enriched uranium for national security purposes, including weapons dismantlement and down-blending.

(b) The analysis provided by (a)(3) shall include a detailed estimate of the near- and long-term costs to the Department of Energy should the Tennessee Valley Authority no longer be a viable tritium supplier.]

**[SEC. 312.** The Secretary of Energy shall submit to the congressional defense committees (as defined in U.S.C. 101(a)(16)), a report on each major warhead refurbishment program that reaches the Phase 6.3 milestone, and not later than April 1, 2014 for the B61–12 life extension program, that provides an analysis of alternatives which includes—

(1) a full description of alternatives considered prior to the award of Phase 6.3;

(2) a comparison of the costs and benefits of each of those alternatives, to include an analysis of trade-offs among cost, schedule, and performance objectives against each alternative considered;

(3) identification of the cost and risk of critical technology elements associated with each alternative, including technology maturity, integration risk, manufacturing feasibility, and demonstration needs;

(4) identification of the cost and risk of additional capital asset and infrastructure capabilities required to support production and certification of each alternative;

(5) a comparative analysis of the risks, costs, and scheduling needs for any military requirement intended to enhance warhead safety, security, or maintainability, including any requirement to consolidate and/or integrate warhead systems or mods as compared to at least one other feasible refurbishment alternative the Nuclear Weapons Council considers appropriate; and

(6) a life-cycle cost estimate for the alternative selected that details the overall cost, scope, and schedule planning assumptions. For the B61–12 life extension program, the life cycle cost estimate shall include an analysis of reduced life cycle costs for Option 3b, including cost savings from consolidating the different B61 variants.]

**[SEC. 313.** (a) **IN GENERAL.**—Subject to subsections (b) through (d), the Secretary may appoint, without regard to the provisions of chapter 33 of title 5, United States Code, governing appointments in the competitive service, exceptionally well qualified individuals to scientific, engineering, or other critical technical positions.

(b) **LIMITATIONS.**—

(1) **NUMBER OF POSITIONS.**—The number of critical positions authorized by subsection (a) may not exceed 120 at any one time in the Department.

(2) **TERM.**—The term of an appointment under subsection (a) may not exceed 4 years.

(3) **PRIOR EMPLOYMENT.**—An individual appointed under subsection (a) shall not have been a Department employee during the 2-year period ending on the date of appointment.

(4) **PAY.**—

(A) **IN GENERAL.**—The Secretary shall have the authority to fix the basic pay of an individual appointed under subsection (a) at a rate to be determined by the Secretary up to level I of the Executive Schedule without regard to the civil service laws.

(B) **TOTAL ANNUAL COMPENSATION.**—The total annual compensation for any individual appointed under subsection (a) may not exceed

the highest total annual compensation payable at the rate determined under section 104 of title 3, United States Code.

(5) **ADVERSE ACTIONS.**—An individual appointed under subsection (a) may not be considered to be an employee for purposes of subchapter II of chapter 75 of title 5, United States Code.

(c) **REQUIREMENTS.**—

(1) **IN GENERAL.**—The Secretary shall ensure that—

(A) the exercise of the authority granted under subsection (a) is consistent with the merit principles of section 2301 of title 5, United States Code; and

(B) the Department notifies diverse professional associations and institutions of higher education, including those serving the interests of women and racial or ethnic minorities that are underrepresented in scientific, engineering, and mathematical fields, of position openings as appropriate.

(2) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary and the Director of the Office of Personnel Management shall submit to Congress a report on the use of the authority provided under this section that includes, at a minimum, a description or analysis of—

(A) the ability to attract exceptionally well qualified scientists, engineers, and technical personnel;

(B) the amount of total compensation paid each employee hired under the authority each calendar year; and

(C) whether additional safeguards or measures are necessary to carry out the authority and, if so, what action, if any, has been taken to implement the safeguards or measures.

(d) **TERMINATION OF EFFECTIVENESS.**—The authority provided by this section terminates effective on the date that is 4 years after the date of enactment of this Act.]

**[SEC. 314.** Section 804 of Public Law 110–140 (42 U.S.C. 17283) is hereby repealed.]

**[SEC. 315.** Section 205 of Public Law 95–91 (42 U.S.C. 7135), as amended, is hereby further amended:

(1) in paragraph (i)(1) by striking "once every two years" and inserting "once every four years"; and

(2) in paragraph (k)(1) by striking "once every three years" and inserting "once every four years".]

**[SEC. 316.** Notwithstanding any other provision of law, the Department may use funds appropriated by this title to carry out a study regarding the conversion to contractor performance of any function performed by Federal employees at the New Brunswick Laboratory, pursuant to Office of Management and Budget Circular A-76 or any other administrative regulation, directive, or policy.]

**[SEC. 317.** Of the amounts appropriated for non-defense programs in this title, \$7,000,000 are hereby reduced to reflect savings from limiting foreign travel for contractors working for the Department of Energy, consistent with similar savings achieved for Federal employees. The Department shall allocate the reduction among the non-security appropriations made in this title.]

**[SEC. 318.** Section 15(g) of Public Law 85–536 (15 U.S.C. 644), as amended, is hereby further amended by inserting the following at the end: "(3) First tier subcontracts that are awarded by Management and Operating contractors sponsored by the Department of Energy to small business concerns, small businesses concerns owned and controlled by service disabled veterans, qualified HUBZone small business concerns, small business concerns owned and controlled by socially and economically disadvantaged individuals, and small business concerns owned and controlled by women, shall be considered toward the annually established agency and Government-wide goals for procurement contracts awarded.".]

**[SEC. 319.** (a) **ESTABLISHMENT.**—The Secretary shall establish an independent commission to be known as the "Commission to Review the Effectiveness of the National Energy Laboratories." The National Energy Laboratories refers to all Department of Energy and National Nuclear Security Administration national laboratories.

(b) **MEMBERS.**—

(1) The Commission shall be composed of nine members who shall be appointed by the Secretary of Energy not later than May 1, 2014, from among persons nominated by the President's Council of Advisors on Science and Technology.

(2) The President's Council of Advisors on Science and Technology shall, not later than March 15, 2014, nominate not less than 18 per-

sons for appointment to the Commission from among persons who meet qualification described in paragraph (3).

(3) Each person nominated for appointment to the Commission shall—

- (A) be eminent in a field of science or engineering; and/or
- (B) have expertise in managing scientific facilities; and/or
- (C) have expertise in cost and/or program analysis; and
- (D) have an established record of distinguished service.

(4) The membership of the Commission shall be representative of the broad range of scientific, engineering, financial, and managerial disciplines related to activities under this title.

(5) No person shall be nominated for appointment to the Board who is an employee of—

- (A) the Department of Energy;
- (B) a national laboratory or site under contract with the Department of Energy;
- (C) a managing entity or parent company for a national laboratory or site under contract with the Department of Energy; or
- (D) an entity performing scientific and engineering activities under contract with the Department of Energy.

(c) COMMISSION REVIEW AND RECOMMENDATIONS.—

(1) The Commission shall, by no later than February 1, 2015, transmit to the Secretary of Energy and the Committees on Appropriations of the House of Representatives and the Senate a report containing the Commission's findings and conclusions.

(2) The Commission shall address whether the Department of Energy's national laboratories—

- (A) are properly aligned with the Department's strategic priorities;
- (B) have clear, well understood, and properly balanced missions that are not unnecessarily redundant and duplicative;
- (C) have unique capabilities that have sufficiently evolved to meet current and future energy and national security challenges;
- (D) are appropriately sized to meet the Department's energy and national security missions; and
- (E) are appropriately supporting other Federal agencies and the extent to which it benefits DOE missions.

(3) The Commission shall also determine whether there are opportunities to more effectively and efficiently use the capabilities of the national laboratories, including consolidation and realignment, reducing overhead costs, reevaluating governance models using industrial and academic bench marks for comparison, and assessing the impact of DOE's oversight and management approach. In its evaluation, the Commission should also consider the cost and effectiveness of using other research, development, and technology centers and universities as an alternative to meeting DOE's energy and national security goals.

(4) The Commission shall analyze the effectiveness of the use of laboratory directed research and development (LDRD) to meet the Department of Energy's science, energy, and national security goals. The Commission shall further evaluate the effectiveness of the Department's oversight approach to ensure LDRD-funded projects are compliant with statutory requirements and congressional direction, including requirements that LDRD projects be distinct from projects directly funded by appropriations and that LDRD projects derived from the Department's national security programs support the national security mission of the Department of Energy. Finally, the Commission shall quantify the extent to which LDRD funding supports recruiting and retention of qualified staff.

(5) The Commission's charge may be modified or expanded upon approval of the Committees on Appropriations of the House of Representatives and the Senate.

(d) RESPONSE BY THE SECRETARY OF ENERGY.—

(1) The Secretary of Energy shall, by no later than April 1, 2015, transmit to Committees on Appropriations of the House of Representatives and the Senate a report containing the Secretary's approval or disapproval of the Commission's recommendations and an implementation plan for approved recommendations.】

【SEC. 320. The Committees on Appropriations of the House of Representatives and the Senate shall receive a 30-day advance notification with a detailed explanation of any waiver or adjustment made by the National Nuclear Security Administration's Fee Determining Official to at-risk award fees for Management and Operating contractors that result in award term extensions.】

【SEC. 321. To further the research, development, and demonstration of national nuclear security-related enrichment technologies, the Secretary of Energy may transfer up to \$56,650,000 of funding made available in this title under the heading "National Nuclear Security Administration" to "National Nuclear Security Administration, Weapons Activities" not earlier than 30 days after the Secretary provides to the Committees on Appropriations of the House of Representatives and the Senate a cost-benefit analysis of available and prospective domestic enrichment technologies for national security needs, the scope, schedule, and cost of his preferred option, and after congressional notification and approval of the Committees on Appropriations of the House of Representatives and the Senate.】

【SEC. 322. None of the funds made available in this Act may be used—

(1) to implement or enforce section 430.32(x) of title 10, Code of Federal Regulations; or

(2) to implement or enforce the standards established by the tables contained in section 325(i)(1)(B) of the Energy Policy and Conservation Act (42 U.S.C. 6295(i)(1)(B)) with respect to BPAR incandescent reflector lamps, BR incandescent reflector lamps, and ER incandescent reflector lamps.】

## TITLE V—GENERAL PROVISIONS

SEC. 501. None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

SEC. 502. None of the funds made available by this Act may be used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to any corporation that was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless 【the】a Federal agency has considered suspension or debarment of the corporation and 【has】 made a determination that this further action is not necessary to protect the interests of the Government.

SEC. 503. None of the funds made available by this Act may be used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless 【the】a Federal agency has considered suspension or debarment of the corporation and 【has】 made a determination that this further action is not necessary to protect the interests of the Government.

【SEC. 504. (a) None of the funds made available in title III of this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by or transfer authority provided in this Act or any other appropriations Act for any fiscal year, transfer authority referenced in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), or any authority whereby a department, agency, or instrumentality of the United States Government may provide goods or services to another department, agency, or instrumentality.

(b) None of the funds made available for any department, agency, or instrumentality of the United States Government may be transferred to accounts funded in title III of this Act, except pursuant to a transfer made by or transfer authority provided in this Act or any other appropriations Act for any fiscal year, transfer authority referenced in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), or any authority whereby a department, agency, or instrumentality of the United States Government may provide goods or services to another department, agency, or instrumentality.

(c) The head of any relevant department or agency funded in this Act utilizing any transfer authority shall submit to the Committees on Appropriations of the House of Representatives and the Senate a semiannual report detailing the transfer authorities, except for any

authority whereby a department, agency, or instrumentality of the United States Government may provide goods or services to another department, agency, or instrumentality, used in the previous 6 months and in the year-to-date. This report shall include the amounts transferred and the purposes for which they were transferred, and shall not replace or modify existing notification requirements for each authority.】

SEC. 【505】504. None of the funds made available by this Act may be used in contravention of Executive Order No. 12898 of February 11, 1994 ("Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations"). The Food and Drug Administration (FDA) promotes and protects public health by overseeing the safety, efficacy, quality, and security of human and veterinary drugs, biological products, medical devices, foods, cosmetics, and products that emit radiation. FDA also has responsibility for regulating the manufacturing, marketing, and distribution of tobacco products to protect public health and to reduce tobacco use by minors. FDA advances public health by helping to speed innovations that make medicines more effective, safer, and more affordable and by helping the public get the accurate, science-based information they need to use medicines and foods to maintain and improve their health. FDA supports the Nation's counterterrorism capability by ensuring the security of the food supply and by fostering the development of medical products and countermeasures to respond to deliberate and naturally emerging public health threats. The FY 2015 Budget provides funding to support food and medical product safety, including implementation of the Food Safety Modernization Act and increased oversight of the pharmacy compounding industry, promote development of medical countermeasures, and maintain the integrity of operations and infrastructure.

The 2015 Budget includes a number of new user fees. Legislation will be proposed to allow FDA to collect fees for food import and food facility registration and inspection to implement the requirements of the FDA Food Safety Modernization Act (FSMA). The additional resources, estimated at \$169 million for the food import program, would support FDA's food safety efforts to modernize the import system. The fees collected for the food facility registration and inspection program, estimated at \$60 million, would enable FDA to target new and improved activities required by FSMA to modernize the food safety system and support improvements in safety science and risk analysis to prevent food safety outbreaks. The Budget also repropose user fees to support activities related to cosmetics and food contact notification activities, and fees to support inspection-related activities at domestic courier facilities.

Resources displayed here support categorical grants and contracts managed by Health Resources and Services Administration (HRSA). These activities include support for Federally Qualified Health Centers, treatment and care for those living with HIV/AIDS, health professions training, maternal and child health care services, promotion of organ and bone marrow donation, and the medical malpractice claims funds, which pay malpractice claims filed against employees of federally-supported health centers and free clinics. HRSA is also responsible for oversight of the 340B Drug Discount Program. The 2015 Budget proposes a new user fee for this program to improve administration and oversight of this activity.

HRSA administers the following revolving loan programs: Health Professions Student Loans (HPSL), Nursing Student Loans (NSL), Primary Care Loans (PCL) and Loans for Disadvantaged Students (LDS). These programs are financed through revolving accounts (Federal Capital Contribution) and do not receive annual appropriations. Through these revolving fund accounts, funds are awarded to institutions that in turn provide loans to individual students. As borrowers pay back loans the programs revolving account gets replenished, and the collected funds are then used to give out new loans in the following academic years. If the program's revolving account has excess funds that will not be used to provide new loans, these excess funds are returned to HRSA. Funds returned to HRSA are then awarded to programs that are in need of additional funds. The information below reflects Academic Year 2012–2013 data reported in the Annual Operating Report.

The Vaccine Injury Compensation Program was established pursuant to Public Law 99-660 and Public Law 100-203, and serves as a source of funds to pay claims for compensation for vaccine related injury or death. Payment of claims associated with vaccine related injury or death occurring before October 1, 1988 are financed from the General Fund and are reflected in this account. Given sufficient carry-over funds from prior years' appropriations to pay for the balance of the pre-1988 claims yet to be adjudicated, no appropriation is requested to cover payment of pre-1988 claims. By statute, no new claims are accepted for this account. Payment of claims associated with vaccine related injury or death occurring after October 1, 1988 are reflected in the Vaccine Injury Compensation Program trust fund account.

Implemented in 2014, CDC's new Working Capital Fund has extended availability and serves as the funding mechanism to finance centralized business services support across CDC. Services rendered under the fund are performed at pre-established rates that are used to cover the full cost of operations and future investments. Contributions are collected for services, thereby creating market-like incentives to maximize efficiency and quality.

HHS along with CDC began implementing provisions of The James Zadroga 9/11 Health and Compensation Act of 2010 (P.L. 111-347) on July 1, 2011, to provide monitoring and treatment benefits to eligible responders and survivors. CDC/NIOSH serves as the Program Administrator for the WTC Health Program. The WTC Health Program provides quality care for WTC-related health conditions, conducts WTC research, and maintains a health registry to collect data on victims of the September 11, 2001, terrorist attacks. The amounts included for 2014 and 2015 Budget reflect estimated Federal obligations for the WTC Health Program.

Medicaid assists States in providing medical care to their low-income populations by granting Federal matching payments

under title XIX of the Social Security Act to States with approved plans.

Medicaid estimates assume budget authority for expenses that are incurred but not reported (IBNR).

Authorized as part of Title XIX, Vaccines for Children (VFC) finances the purchase of vaccines for low-income, eligible children. VFC is administered by the Centers for Disease Control and Prevention and is funded entirely by the Federal Government.

Patient Protection and Affordable Care Act (P.L. 111–148), and the Health Care and Education Reconciliation Act of 2010 (P.L. 111–152).

The Budget includes an unobligated balance of approximately \$9 million for activities authorized by Section 203 and \$130 million for activities authorized by Section 204 of the Ticket to Work and Work Incentives Improvement Act. Thus, pursuant to 31 U.S.C. 1555, any remaining balance (whether obligated or unobligated) will be withdrawn and returned to the Treasury two years after there has been no disbursement made against the appropriation.

QUALITY IMPROVEMENT ORGANIZATIONS—Continued

Part B of Title XI of the Social Security Act, as amended by the Peer Review Improvement Act of 1982, provides the statutory authority for the Medicare Quality Improvement Organization (QIO) Program. The mission of the program is to promote the effectiveness, efficiency, economy, and quality of services delivered to Medicare beneficiaries and to ensure that those services are reasonable and necessary. The program is funded through transfers from the Medicare Hospital Insurance Trust Fund and the Medicare Supplementary Medical Insurance Trust Fund. In FY 2012, a Treasury account specific to the QIO program was established to improve budgetary operations.

The Balanced Budget Act of 1997 established the Children's Health Insurance Program (CHIP) under Title XXI of the Social Security Act. Title XXI provides Federal matching funds to States to enable them to extend coverage to uninsured children from low-income families. States are able to use Title XXI funds for obtaining health benefit coverage for uninsured children through a separate CHIP program, a CHIP Medicaid expansion program, or a combination of both. The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3, CHIPRA) reauthorized the CHIP program and appropriated funding for CHIP through 2013. CHIPRA made some modifications to the program including increased funding for States and territories, bonus payments for States that exceed Medicaid child enrollment targets, and support for child health quality and outreach activities. A contingency fund to assist States who project spending above their available allocated CHIP funds was also created by CHIPRA and funding is included in a separate account. The Patient Protection and Affordable Care Act of 2010 (P.L. 111-148) extended funding for CHIP, providing appropriations through 2015.

The Center for Medicare and Medicaid Innovation ("Innovation Center") was established by section 1115A of the Social Security Act (as added by section 3021 of the Affordable Care Act). The Innovation Center is tasked with testing innovative payment and service delivery models to reduce program expenditures while preserving or enhancing the quality of care provided to individuals under Medicare, Medicaid, or Children's Health Insurance Program (CHIP). The statute provides \$10 billion in mandatory funding for these purposes in fiscal years 2011 through 2019.

The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3, CHIPRA) established the Child Enrollment Contingency Fund under Title XXI of the Social Security Act. Beginning in 2009, a State may qualify for a contingency fund payment if it projects a funding shortfall for the fiscal year and if its average monthly child enrollment exceeds its target average number of enrollees for the fiscal year. The Patient Protection and Affordable Care Act of 2010 (P.L. 111-148) extended the contingency fund through 2015.

The fund received an initial appropriation equal to 20 percent of the FY 2009 national allotment (\$2.1 billion). In fiscal years 2010 through 2015, the statute appropriates the amount necessary to make payments to eligible States, but not to exceed 20 percent of the total annual appropriation for CHIP allotments to States. Any amounts in excess of this aggregate cap will be made available for CHIP performance bonus payments. The contingency fund is invested in interest bearing securities of the United States, and the income derived from these investments constitutes a part of the fund.

The Affordable Care Act (P.L. 111-148) amends Section 2794 of the Public Health Service Act and provides that the Secretary shall carry out a program to award grants to States for a five-year period beginning in fiscal year 2010. The Grants to States for Health Insurance Premium Review program provides funding to help States develop or enhance their current rate review activities. The program provides \$250,000,000 over the five-year period beginning with fiscal year 2010. States may receive no less than \$1,000,000 and no more than \$5,000,000 in any one grant year. Grant recipients are required to submit data to the Secretary on health insurance rate trends.

This account funds the Pre-Existing Condition Insurance Plan Program (PCIP), which makes health insurance available to people who have been unable to get insurance due to a pre-existing condition. Enrollees pay monthly premiums similar to those charged in the commercial individual market, and the Federal government pays for remaining costs that exceed enrollee contri-

butions. The funding for this program, including operating costs, was provided in the FY 2010 appropriation by the Affordable Care Act (P.L. 111–148). The FY 2015 President's Budget obligation and outlays projections are based on policy assumptions to manage costs in the program to the \$5 billion appropriation.

The Affordable Care Act (P.L. 111–148) authorized and appropriated \$5 billion for the Early Retiree Reinsurance Program (ERRP). ERRP provides reimbursement to participating sponsors of certified plans that provide health benefits to early retirees (age 55 and older and not eligible for Medicare), their spouses, and surviving spouses and dependents. Reimbursement is equal to 80 percent of the actual cost of health expenses paid for an individual (net of price concessions) between a cost threshold of \$15,000 and cost limit of \$90,000 beginning in 2010. The cost threshold and cost limit are adjusted for inflation each year based on the Medical Care Component of the consumer price index for all urban consumers. Reimbursements to sponsors shall be used to reduce the sponsor's health benefit or premium costs, provide premium and cost sharing relief to plan participants, or both. By statute, ERRP sunsets on January 1, 2014 and is no longer providing reimbursements to plan sponsors.

This program provides funding for Planning and Establishment Grants to States for their activities to implement Affordable Insurance Exchanges, which are also referred to as Marketplaces. The Exchanges will facilitate the purchase of qualified health plans in the individual market and provide for the establishment of a Small Business Health Options Program to allow small businesses to offer qualified health plans to their employees. Section 1311 of the Patient Protection and Affordable Care Act (P.L. 111-148) provides amounts necessary to enable the Secretary to award grants to States beginning no later than March 23, 2011, and allows for renewal grants through January 1, 2015.

Section 1343 of the Affordable Care Act (P.L. 111-148) established a permanent risk adjustment program for non-grandfathered plans in the individual and small group markets. Charges are collected from health insurance issuers that enroll healthier than average enrollees and payments are made to issuers that enroll sicker than average enrollees. Risk adjustment may be operated by a State, or by the Federal government in the event a State chooses not to operate risk adjustment. Payments and charges are made in the year following the plan year for which they are calculated.

Section 1341 of the Affordable Care Act (P.L. 111-148) established a transitional, temporary, three-year reinsurance program to minimize the impact of high-cost enrollees in plans in the individual market for plan years 2014, 2015, and 2016. The Centers for Medicare & Medicaid Services assesses health insurance issuers and group health plans a per enrollee fee to fund the reinsurance contributions, and makes payments to issuers in the individual market for enrollees whose medical costs exceed a certain threshold, up to a reinsurance cap. Reinsurance collections and

payments are made in the year following the plan year for which they are applicable.

Section 1322 of the Affordable Care Act (P.L. 111-148) authorized and appropriated funding for the Consumer Operated and Oriented Plan (CO-OP) Program. The CO-OP Program fosters the creation of qualified nonprofit health insurance issuers that operate with a strong consumer focus to offer qualified health plans in the individual and small group markets in the States. The Secretary shall award loans to qualified nonprofit issuers to fund start-up costs and reserves which enable qualified issuers to meet state solvency requirements. The Secretary may also award loans for the purposes of encouraging the establishment of CO-OPs in states where no issuer applies to be a qualified nonprofit issuer under Section 1322.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with CO-OP Program grants and loans, as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Hospital Insurance (HI) program funds the costs of hospital and related care for individuals age 65 or older and for eligible disabled people.

The status of the trust fund is as follows. In addition, the Budget includes a package of proposals that improve Medicare's sustainability by promoting high-quality, efficient care; aligning payments with the costs of providing care; encouraging beneficiaries to seek high-value services; and reducing the Federal subsidy of Medicare costs for those beneficiaries who can most afford them.

The Health Insurance Portability and Accountability Act of 1996 (P.L. 104–191) established the Health Care Fraud and Abuse Control (HCFAC) account within the Federal Hospital Insurance Trust Fund and appropriated funds from the Trust Fund to the HCFAC account for specified health care fraud and abuse control activities of the Department of Health and Human Services (HHS), the Department of Justice, and other agencies.

The Budget includes a discretionary request for efforts to safeguard Centers for Medicare and Medicaid Services (CMS) program integrity that will supplement other CMS program integrity funds. See additional discussion in the Budget Process chapter in the *Analytical Perspectives* volume.

For FY 2015, the Budget proposes \$378 million in mandatory funds for the Health Care Fraud and Abuse Control program and proposes \$319 million through discretionary appropriations. After 2015, no discretionary funding is being proposed for this purpose. In addition, an annual reduction to the discretionary spending limits in section 251(c) of the BBEDCA, as amended, is proposed beginning in 2016 to offset the cost of shifting the FY 2014 enacted portion of the base funding from discretionary to mandatory. The more stable mandatory program integrity funding will produce new net deficit savings of over \$2 billion over 10 years.

The Supplementary Medical Insurance (SMI) program is a voluntary program that affords protection against the costs of physician and certain other medical services. The program also covers treatment of end-stage renal disease for eligible enrollees. SMI costs are generally financed by premium payments from enrollees and contributions from the general revenues.

The status of the trust fund is as follows. In addition, the Budget includes a package of proposals that improve Medicare's sustainability by promoting high-quality, efficient care; aligning payments with the costs of providing care; encouraging beneficiaries to seek high-value services; and reducing the Federal subsidy of Medicare costs for those who need the subsidy the least.

This account provides for payments to States for child support enforcement and other family support programs, including access and visitation programs for families. The Federal share of child support collections is returned to the Treasury in a receipt account. The Budget proposes a Child Support and Fatherhood Initiative, a comprehensive set of proposals which promotes using child support payments in the best interest of the child, supports noncustodial parents becoming and staying involved in their children's lives, and improves establishment and enforcement procedures by closing loopholes and improving Federal processes.

The request prioritizes investments in early learning to improve outcomes for children. A total of \$8.9 billion is requested to support an early learning initiative to expand access to high quality infant and toddler care, Head Start services, and support the transition between new and incumbent Head Start grantees in the Designation Renewal System. This Budget also requests an additional \$1 million for family violence prevention, \$9 million for research to improve effectiveness of programs serving children and adolescents, and \$2 million to study the prevalence, needs and characteristics of homeless youth. This request discontinues funding for the Rural Communities Facilities and the Community Economic Development programs.

This account provides formula grants for Foster Care, Adoption Assistance, Guardianship Assistance, and the Chafee Foster Care Independence Program as well as technical assistance and implementation services for Tribal programs.

**Foster Care**—The proposed level will support eligible low-income children who must be placed outside the home. An average of 150,800 children per month are estimated to be served in FY 2015.

**Adoption Assistance**—The proposed funding level will support subsidies for families adopting eligible low-income children with special needs. An average of 452,000 children per month are estimated to be served in FY 2015.

**Guardianship Assistance**—The proposed funding level will provide payments for relatives taking legal guardianship of eligible children who have been in foster care. An average of 21,100 children per month are estimated to be served in FY 2015.

This account includes a new initiative to address over-prescription of psychotropic medications for children in foster care and a new requirement to use child support collected on behalf of children in foster care in the best interest of the child.

Note.—The reimbursable program (HCFAC) in the Administration for Community Living (ACL) reflects the actual distribution of the allocation account for 2013. Future allocations will be determined annually.

This account provides funding for formula grant programs that provide nutrition, supportive services and caregiver support services, and protection and advocacy services through a network of aging- and disability-related organizations to help older Americans and people with disabilities, with the assistance of their families and caregivers, maintain their independence in their homes and communities. The Budget proposes to transfer the Senior Community Services Employment Program (SCSEP), authorized under title V of the Older Americans Act, from the Department of Labor to the Department of Health and Human Services (HHS), which administers the remainder of the Older Americans Act. SCSEP offers participants work-based community service training so that they can gain on-the-job experience and prepare to enter or to re-enter the workforce. As a part of the proposed transfer to HHS, the Department will make improving program performance a priority.

Note.—The reimbursable program (HCFAC) in the General Department Management (GDM) account reflects estimates of the allocation account for 2015. Actual allocation will be determined annually.

General Departmental Management (GDM) funds activities that provide leadership, policy, legal, and administrative guidance to HHS components, and support research to develop policy initiatives and improve existing HHS programs. GDM also funds the activities of the Office of the Assistant Secretary for Health, including adolescent health, disease prevention and health promotion, physical fitness and sports, minority health, research integrity, women's health, and programs funded through the Prevention and Public Health Fund. This includes funding the continuation of grants for medically accurate and age appropriate programs to reduce teen pregnancy, including funds for research, demonstration grants, and replication of programs that have been proven effective through rigorous evaluation to reduce teen pregnancy.

The Public Health and Social Services Emergency Fund (PHSSEF) provides resources to support a comprehensive program to prepare for the health and medical consequences of bioterrorism or other public health emergencies. This account includes funding for the Office of the Assistant Secretary for Pre-

paredness and Response, as authorized by the Pandemic and All-Hazards Preparedness Reauthorization Act. Funds will be used for hospital preparedness and other emergency preparedness activities including the National Disaster Medical System. The PHSSEF also supports the HHS Cybersecurity and Security and Strategic Information programs, and the Medical Reserve Corps.

The PHSSEF also continues to support the advanced development and procurement of biodefense and pandemic influenza countermeasures.

A Strategic Investor corporation will be established to invest in the private sector, specifically focusing on disruptive technologies including novel antimicrobials and multi-use platform technologies for diagnostics and medical countermeasures.

Public Law 111-148 established the Patient-Centered Outcomes Research Trust Fund (PCORTF). Beginning in FY 2011, a total of 20 percent of the funds appropriated or credited to the PCORTF will be transferred each year to the Department of Health and Human Services (HHS). As authorized in section 937 of the Public Health Service Act, HHS will disseminate research findings from the Patient-Centered Outcomes Research Institute and other government-funded comparative clinical effectiveness research and build research and data capacity for comparative clinical effectiveness research. Transferred funds will be distributed to the Secretary of HHS and the Agency for Healthcare Research and Quality to carry out these activities.

HHS Service and Supply Fund (SSF) provides a wide range of logistical and support services to components of the Department and other Federal agencies. The Program Support Center includes activities such as personnel and payroll support, information technology, financial management operations, and administrative services, including acquisitions management, building and property management, telecommunication services, medical supplies repackaging and distribution services, and the Federal Occupational Health Service. The Office of Secretary activities include the fund manager, departmental contracts, audit resolutions, Commissioned Corps force management, web management, claims, acquisition integration and modernization, small business, grants tracking, the physical access aspects of the Department's

implementation of Homeland Security Presidential Directive 12, and commercial services management.

Most Commissioned Corps officers work for agencies in the Department of Health and Human Services and are reflected in the agencies' personnel summaries. However, some officers are assigned to other Federal agencies. The allocation account section in the following personnel summary shows officers assigned to other agencies, which are paid directly by that agency, either through an allocation account or by directly citing that agency's appropriation.

The mission of the Office of Inspector General (OIG) is to protect the integrity of the U.S. Department of Health and Human Services (HHS) programs and the health and welfare of the people they serve. As established by the Inspector General Act of 1978, OIG is an independent and objective organization that fights fraud, waste, and abuse and promotes efficiency, economy, and effectiveness in HHS programs and operations. OIG works to ensure that Federal dollars are used appropriately and that HHS programs well serve the people that use them. OIG fulfills its mission through a broad range of audits, evaluations, investigations, and enforcement and compliance activities. In addition to discretionary appropriations, OIG receives funds through the Health Care Fraud and Abuse Control (HCFA) account created by the Health Insurance Portability and Accountability Act of 1996.

**GENERAL PROVISIONS**

SEC. 201. Funds appropriated in this title shall be available for not to exceed \$50,000 for official reception and representation expenses when specifically approved by the Secretary.

SEC. 202. The Secretary shall make available through assignment not more than 60 employees of the Public Health Service to assist in child survival activities and to work in AIDS programs through and with funds provided by the Agency for International Development, the United Nations International Children's Emergency Fund or the World Health Organization.

SEC. 203. None of the discretionary funds appropriated in this title shall be used to pay the salary of an individual, through a grant or other extramural mechanism, at a rate in excess of Executive Level II.

SEC. 204. None of the funds appropriated in this Act may be expended pursuant to section 241 of the PHS Act, except for funds specifically provided for in this Act, or for other taps and assessments made by any office located in HHS, prior to the preparation and submission of a report by the Secretary to the Committees on Appropriations of the House of Representatives and the Senate detailing the planned uses of such funds.

SEC. 205. Notwithstanding section 241(a) of the PHS Act, such portion as the Secretary shall determine, but not more than 3.0 percent, of any amounts appropriated for programs authorized under such Act shall be made available for the evaluation (directly, or by grants or contracts) and the implementation and effectiveness of programs funded in this title.

(TRANSFER OF FUNDS)

SEC. 206. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the current fiscal year for HHS in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: *Provided*, That the transfer authority granted by this section shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: *Provided further*, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

(TRANSFER OF FUNDS)

SEC. 207. The Director of the NIH, jointly with the Director of the Office of AIDS Research, may transfer up to 3 percent among institutes and centers from the total amounts identified by these two Directors as funding for research pertaining to the human immunodeficiency virus: *Provided*, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

(TRANSFER OF FUNDS)

SEC. 208. Of the amounts made available in this Act for NIH, the amount for research related to the human immunodeficiency virus, as jointly determined by the Director of NIH and the Director of the Office of AIDS Research, shall be made available to the "Office of AIDS Research" account. The Director of the Office of AIDS Research shall transfer from such account amounts necessary to carry out section 2353(d)(3) of the PHS Act.

SEC. 209. None of the funds appropriated in this Act may be made available to any entity under title X of the PHS Act unless the applicant for the award certifies to the Secretary that it encourages family participation in the decision of minors to seek family planning services and that it provides counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities.

SEC. 210. Notwithstanding any other provision of law, no provider of services under title X of the PHS Act shall be exempt from any State law requiring notification or the reporting of child abuse, child molestation, sexual abuse, rape, or incest.

SEC. 211. None of the funds appropriated by this Act (including funds appropriated to any trust fund) may be used to carry out the Medicare Advantage program if the Secretary denies participation in such program to an otherwise eligible entity (including a Provider Sponsored Organization) because the entity informs the Secretary that it will not provide, pay for, provide coverage of, or provide referrals for abortions: *Provided*, That the Secretary shall make appropriate prospective adjustments to the capitation payment to such an entity (based on an actuarially sound estimate of the expected costs of providing the service

to such entity's enrollees): *Provided further*, That nothing in this section shall be construed to change the Medicare program's coverage for such services and a Medicare Advantage organization described in this section shall be responsible for informing enrollees where to obtain information about all Medicare covered services.

SEC. [212]211. In order for HHS to carry out international health activities, including HIV/AIDS and other infectious disease, chronic and environmental disease, and other health activities abroad during fiscal year [2014] 2015:

(1) The Secretary may exercise authority equivalent to that available to the Secretary of State in section 2(c) of the State Department Basic Authorities Act of 1956. The Secretary shall consult with the Secretary of State and relevant Chief of Mission to ensure that the authority provided in this section is exercised in a manner consistent with section 207 of the Foreign Service Act of 1980 and other applicable statutes administered by the Department of State.

(2) The Secretary is authorized to provide such funds by advance or reimbursement to the Secretary of State as may be necessary to pay the costs of acquisition, lease, alteration, renovation, and management of facilities outside of the United States for the use of HHS. The Department of State shall cooperate fully with the Secretary to ensure that HHS has secure, safe, functional facilities that comply with applicable regulation governing location, setback, and other facilities requirements and serve the purposes established by this Act. The Secretary is authorized, in consultation with the Secretary of State, through grant or cooperative agreement, to make available to public or nonprofit private institutions or agencies in participating foreign countries, funds to acquire, lease, alter, or renovate facilities in those countries as necessary to conduct programs of assistance for international health activities, including activities relating to HIV/AIDS and other infectious diseases, chronic and environmental diseases, and other health activities abroad.

(3) The Secretary is authorized to provide to personnel appointed or assigned by the Secretary to serve abroad, allowances and benefits similar to those provided under chapter 9 of title I of the Foreign Service Act of 1980, and 22 U.S.C. 4081 through 4086 and subject to such regulations prescribed by the Secretary. The Secretary is further authorized to provide locality-based comparability payments (stated as a percentage) up to the amount of the locality-based comparability payment (stated as a percentage) that would be payable to such personnel under section 5304 of title 5, United States Code if such personnel's official duty station were in the District of Columbia. Leaves of absence for personnel under this subsection shall be on the same basis as that provided under subchapter I of chapter 63 of title 5, United States Code, or section 903 of the Foreign Service Act of 1980, to individuals serving in the Foreign Service.

SEC. [213]212. (a) AUTHORITY.—Notwithstanding any other provision of law, the Director of NIH ("Director") may use funds available under section 402(b)(7) or 402(b)(12) of the PHS Act to enter into transactions (other than contracts, cooperative agreements, or grants) to carry out research identified pursuant to such section 402(b)(7) (pertaining to the Common Fund) or research and activities described in such section 402(b)(12).

(b) PEER REVIEW.—In entering into transactions under subsection (a), the Director may utilize such peer review procedures (including consultation with appropriate scientific experts) as the Director determines to be appropriate to obtain assessments of scientific and technical merit. Such procedures shall apply to such transactions in lieu of the peer review and advisory council review procedures that would otherwise be required under sections 301(a)(3), 405(b)(1)(B), 405(b)(2), 406(a)(3)(A), 492, and 494 of the PHS Act.

SEC. [214]213. Funds which are available for Individual Learning Accounts for employees of CDC and the Agency for Toxic Substances and Disease Registry ("ATSDR") may be transferred [to] *between* appropriate accounts of CDC, to be available only for Individual Learning Accounts: *Provided*, That such funds may be used for any individual full-time equivalent employee while such employee is employed either by CDC or ATSDR.

SEC. [215]214. Not to exceed \$45,000,000 of funds appropriated by this Act to the institutes and centers of the National Institutes of Health may be used for alteration, repair, or improvement of facilities, as neces-

sary for the proper and efficient conduct of the activities authorized herein, at not to exceed \$3,500,000 per project.

(TRANSFER OF FUNDS)

SEC. [216]215. Of the amounts made available for NIH, 1 percent of the amount made available for National Research Service Awards ("NRSA") shall be made available to the Administrator of the Health Resources and Services Administration to make NRSA awards for research in primary medical care to individuals affiliated with entities who have received grants or contracts under section 747 of the PHS Act, and 1 percent of the amount made available for NRSA shall be made available to the Director of the Agency for Healthcare Research and Quality to make NRSA awards for health service research.

[SEC. 217. None of the funds made available in this title may be used, in whole or in part, to advocate or promote gun control.]

[SEC. 218. (a) The Secretary shall establish a publicly accessible Web site to provide information regarding the uses of funds made available under section 4002 of the Patient Protection and Affordable Care Act of 2010 ("ACA").

(b) With respect to funds provided under section 4002 of the ACA, the Secretary shall include on the Web site established under subsection (a) at a minimum the following information:

(1) In the case of each transfer of funds under section 4002(c), a statement indicating the program or activity receiving funds, the operating division or office that will administer the funds, and the planned uses of the funds, to be posted not later than the day after the transfer is made.

(2) Identification (along with a link to the full text) of each funding opportunity announcement, request for proposals, or other announcement or solicitation of proposals for grants, cooperative agreements, or contracts intended to be awarded using such funds, to be posted not later than the day after the announcement or solicitation is issued.

(3) Identification of each grant, cooperative agreement, or contract with a value of \$25,000 or more awarded using such funds, including the purpose of the award and the identity of the recipient, to be posted not later than 5 days after the award is made.

(4) A report detailing the uses of all funds transferred under section 4002(c) during the fiscal year, to be posted not later than 90 days after the end of the fiscal year.

(c) With respect to awards made in fiscal years 2013 and 2014, the Secretary shall also include on the Web site established under subsection (a), semi-annual reports from each entity awarded a grant, cooperative agreement, or contract from such funds with a value of \$25,000 or more, summarizing the activities undertaken and identifying any sub-grants or sub-contracts awarded (including the purpose of the award and the identity of the recipient), to be posted not later than 30 days after the end of each 6-month period.

(d) In carrying out this section, the Secretary shall:

(1) present the information required in subsection (b)(1) on a single webpage or on a single database;

(2) ensure that all information required in this section is directly accessible from the single webpage or database; and

(3) ensure that all information required in this section is able to be organized by program or State.]

(TRANSFER OF FUNDS)

[SEC. 219. (a) Within 45 days of enactment of this Act, the Secretary shall transfer funds appropriated under section 4002 of the Patient Protection and Affordable Care Act of 2010 ("ACA") to the accounts specified, in the amounts specified, and for the activities specified under the heading "Prevention and Public Health Fund" in the explanatory statement described in section 4 (in the matter preceding division A of this Consolidated Act) accompanying this Act.

(b) Notwithstanding section 4002(c) of the ACA, the Secretary may not further transfer these amounts.

(c) Funds transferred for activities authorized under section 2821 of the PHS Act shall be made available without reference to section 2821(b) of such Act.]

SEC. [220]216. (a) The Biomedical Advanced Research and Development Authority ("BARDA") may enter into a contract, for more than one but not more than 10 program years, for purchase of research services or of security countermeasures, as that term is defined in section 319F-2(c)(1)(B) of the PHS Act (42 U.S.C. 247d-6b(c)(1)(B)), if—

(1) funds are available and obligated—

(A) for the full period of the contract or for the first fiscal year in which the contract is in effect; and

(B) for the estimated costs associated with a necessary termination of the contract; and

(2) the Secretary determines that a multi-year contract will serve the best interests of the Federal Government by encouraging full and open competition or promoting economy in administration, performance, and operation of BARDA's programs.

(b) A contract entered into under this section:

(1) shall include a termination clause as described by subsection (c) of section 3903 of title 41, United States Code; and

(2) shall be subject to the congressional notice requirement stated in subsection (d) of such section.

【SEC. 221. (a) The Secretary shall publish in the fiscal year 2015 budget justification and on Departmental Web sites information concerning the employment of full-time equivalent Federal employees or contractors for the purposes of implementing, administering, enforcing, or otherwise carrying out the provisions of the Patient Protection and Affordable Care Act of 2010 ("ACA"), and the amendments made by that Act, in the proposed fiscal year and the 4 prior fiscal years.

(b) With respect to employees or contractors supported by all funds appropriated for purposes of carrying out the ACA (and the amendments made by that Act), the Secretary shall include, at a minimum, the following information:

(1) For each such fiscal year, the section of such Act under which such funds were appropriated, a statement indicating the program, project, or activity receiving such funds, the Federal operating division or office that administers such program, and the amount of funding received in discretionary or mandatory appropriations.

(2) For each such fiscal year, the number of full-time equivalent employees or contracted employees assigned to each authorized and funded provision detailed in accordance with paragraph (1).

(c) In carrying out this section, the Secretary may exclude from the report employees or contractors who:

(1) Are supported through appropriations enacted in laws other than the ACA and work on programs that existed prior to the passage of the ACA;

(2) spend less than 50 percent of their time on activities funded by or newly authorized in the ACA;

(3) or who work on contracts for which FTE reporting is not a requirement of their contract, such as fixed-price contracts.】

【SEC. 222. In addition to the amounts otherwise available for "Centers for Medicare and Medicaid Services, Program Management", the Secretary of Health and Human Services may transfer up to \$305,000,000 to such account from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund to support program

management activity related to the Medicare Program: *Provided*, That except for the foregoing purpose, such funds may not be used to support any provision of Public Law 111–148 or Public Law 111–152 (or any amendment made by either such Public Law) or to supplant any other amounts within such account.】

SEC. 【223】217. In lieu of the timeframe specified in section 338E(c)(2) of the PHS Act, terminations described in such section may occur up to 60 days after the execution of a contract awarded in fiscal year 【2014】2015 under section 338B of such Act.

【SEC. 224. The Secretary shall publish, as part of the fiscal year 2015 budget of the President submitted under section 1105(a) of title 31, United States Code, information that details the uses of all funds used by the Centers for Medicare and Medicaid Services specifically for Health Insurance Marketplaces for each fiscal year since the enactment of the Patient Protection and Affordable Care Act (Public Law 111–148) and the proposed uses for such funds for fiscal year 2015. Such information shall include, for each such fiscal year—

(1) the section(s) of such Act under which such funds were appropriated or used;

(2) the program, project, or activity for which such funds were used;

(3) the amount of funds that were used for the Health Insurance Marketplaces within each such program, project, or activity; and

(4) the milestones completed for data hub functionality and implementation readiness.】

【SEC. 225. Activities authorized under part A of title IV and section 1108(b) of the Social Security Act (except for activities authorized in section 403(b)) shall continue through September 30, 2014, in the manner authorized for fiscal year 2013, and out of any money in the Treasury of the United States not otherwise appropriated, there are hereby appropriated such sums as may be necessary for such purpose.】

【SEC. 226. The Secretary shall include in the fiscal year 2016 budget justification an analysis of how section 2713 of the PHS Act will impact eligibility for discretionary HHS programs.】

SEC. 218. *In the event of a public health emergency declared under section 319 of the PHS Act, the Secretary of HHS may, during the duration of the emergency, transfer discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated in this Act for the current fiscal year for HHS between appropriations for costs of responding to and aiding in recovery from such public health emergency: Provided, That no appropriation may be reduced by more than 10 percent under this section: Provided further, That the Committees on Appropriations of the House of Representatives and the Senate shall be promptly notified of such transfers: Provided further, That this transfer authority is in addition to any other transfer authority (Department of Health and Human Services Appropriations Act, 2014.)*

The Analysis and Operations appropriation provides resources for the support of the Office of Intelligence and Analysis (I&A) and the Office of Operations Coordination and Planning (OPS). This appropriation includes both National Intelligence Program (NIP) and non-NIP funds. Even though these two offices are different and distinct in their missions, they work closely together and collaborate with other departmental component agencies and related federal agencies, as well as state, local, tribal, foreign, and private-sector partners, to improve intelligence analysis, information sharing, incident management support, and situational awareness.

*Office of Intelligence and Analysis (I&A).*—I&A's mission is to analyze intelligence and information about homeland security threats and serve as the two-way interface between the national Intelligence Community (IC) and state, local, tribal and private sector partners on homeland security intelligence and information—including warnings, actionable intelligence, and analysis—to ensure that Headquarters leadership, departmental operating Components, federal policy, law enforcement and IC partners, and frontline law enforcement have the tools they need to confront and disrupt terrorist threats. I&A has a unique analytic mission, blending intelligence from the IC with DHS Component and other stakeholder source data, to provide homeland security-centric products. The Under Secretary for Intelligence and Analysis leads I&A and is the Department's Chief Intelligence Officer responsible for managing the entire DHS Intelligence Enterprise. The Under Secretary is also the Department's Chief Information Sharing Officer responsible for implementing the objectives of the Department and the National Strategy on Information Sharing within DHS.

*Office of Operations Coordination and Planning (OPS).*—The mission of OPS is to provide decision support and enable the Secretary's execution of responsibilities across the homeland security enterprise by promoting situational awareness and information sharing, integrating and synchronizing strategic operations and planning, and administering the DHS continuity program. OPS plays a pivotal role in the DHS mission to lead the unified national effort to secure America by facilitating the Secretary's responsibilities across the full spectrum of incident management efforts (i.e., prevention, protection, response and recovery). OPS provides situational awareness, assessments, and operations co-

ordination for the DHS Secretary and facilitates operational information sharing with all DHS components, as well as for Federal, state, local, tribal, private sector, and international partners. In support of the Secretary's role as the Principal Federal Official for domestic incident management, OPS develops and coordinates Departmental and interagency strategic-level operations plans. Additionally, OPS supports the DHS mission to lead the national unified effort to secure America by maintaining the National Operations Center (NOC) and by providing 24/7 incident management capabilities to ensure a seamless integration of threat monitoring and information flow. The NOC serves as a 24/7 multi-agency organization, fusing law enforcement, national intelligence, emergency response, and private sector reporting. The NOC is the primary national-level hub for domestic incident management, operations coordination, and situational awareness.

This account finances the Office of Inspector General's (OIG) cost of conducting and supervising audits, inspections, and investigations relating to the programs and operations of the Department to promote economy, efficiency, and effectiveness and to prevent and detect fraud, waste, and abuse in such programs and operations. The Budget reflects resources that will enable the OIG to perform its oversight responsibilities, as well as assist DHS in achieving its goal of "organizational excellence." The resources requested will increase the number of reports that the OIG is able to produce and its ability to provide a greater number of departmental managers with recommendations to ensure that their program/activities are operating in the most economical, efficient, and effective manner possible. In addition, the resources will enable the OIG to conduct new audits annually, including in-house grant audits of state grantees and local government sub-grantees; adequately staff existing investigative field offices; address major information technology issues facing the Department in the various stages of development and implementation; and continue the prominent operations of the OIG's Emergency Management Oversight office.

The mission of U.S. Citizenship and Immigration Services (USCIS) is to adjudicate and grant immigration and citizenship benefits, provide accurate and useful information to its customers, and promote an awareness and understanding of citizenship in support of immigrant integration, while also protecting the integrity of our Nation's immigration system. USCIS approves millions of immigration benefit applications each year, ranging from work authorization and lawful permanent residency to asylum and refugee status. The Budget continues to invest in technology to improve and automate business operations, eliminate paper-based processing, improve information sharing, and enhance USCIS' ability to identify and prevent immigration benefit fraud.

The Budget assumes that USCIS will continue to be funded primarily through fees on the applications and petitions it adjudicates.

The United States Secret Service has statutory authority to carry out two primary missions: protection of the nation's leaders and investigation of financial and electronic crimes. The Secret Service protects and investigates threats against the President and Vice President, their families, visiting heads of state and government, and other individuals as directed by the President; protects the White House Complex, Vice President's Residence, foreign missions, and other buildings within Washington, D.C.; and manages the security at designated National Special Security Events. The Secret Service also investigates violations of laws relating to counterfeiting of obligations and securities of the United States; financial crimes that include, but are not limited to, access device fraud, financial institution fraud, identity theft, and computer fraud; and computer-based attacks on financial, banking, telecommunications, and other critical infrastructure.

The Budget proposes \$5,933 million in discretionary and mandatory resources for the Transportation Security Administration's aviation security efforts. Of this amount, an estimated \$2,818 million is financed by offsetting collections from passenger and air carrier security fees collected in 2015, while \$104 million is made available from offsetting collections sequestered in 2013. The \$2,818 million amount includes neither the first \$250 million in mandatory passenger security fee collections, which are provided to the Aviation Security Capital Fund, nor an additional \$1,190 million in mandatory passenger security fee collections submitted for deficit reduction.

Overall funding in this account will be used to fund screening personnel, compensation and benefits, and related expenses for transportation security officers; screening technologies; privatized passenger and baggage screening contracts; aviation regulation and enforcement activities, which include domestic and international inspections, explosives detection canine team deployments; airport management and support activities; air cargo screening operations; operational testing; flight deck and air crew security activities; and the Federal Air Marshal Service.

This account also supports a portion of the TSA Pre-Check expedited-screening initiative, which is expanding to airports across the nation. A component of the agency's intelligence-driven, risk-based approach to security, TSA Pre-Check provides expedited screening to select populations who volunteer pre-screening information.

The Budget proposes \$128 million for surface transportation security activities. This funding will support operational requirements associated with day-to-day support personnel and resources dedicated to evaluating the risk of terrorist attack on surface transportation modes, assessing the standards and procedures to address those risks, and ensuring compliance with regulations and policies. This includes resources to support inspectors and multi-modal Visible Intermodal Prevention and Response teams deployed to augment surface transportation security.

The Budget proposes \$312 million in mandatory and discretionary resources of which \$233 million is directly appropriated and the remainder is generated from fees. The mission of the intelligence and vetting programs is to enhance the interdiction of terrorists and their methods of terrorism by streamlining terrorist-related threat assessments. This includes coordinating procedures that detect, identify, track, and interdict people, cargo, conveyances, and other entities and objects posing a threat to homeland security. The programs also safeguard legal rights, including freedoms, civil liberties, and information privacy guaranteed by Federal law. Some of the major vetting programs within this appropriation include: Secure Flight, Commercial Aviation and Airport Workers, Flight Crews, Transportation Worker Identification Credential, Alien Flight Students, Hazardous Materials Endorsement Threat Assessments, Air Cargo Workers, and Risk Based Security initiatives.

The Federal Law Enforcement Training Centers (FLETC) serves as an interagency law enforcement training organization for over 90 Partner Organizations, providing the necessary facilities, equipment, and support services to conduct advanced, specialized, and refresher training for Federal law enforcement personnel. FLETC personnel conduct the instructional programs for basic law enforcement recruits and some advanced training based on agency requests. Additionally, FLETC provides tuition-free or reduced cost training opportunities to state, local, rural, tribal, and territorial law enforcement officers through export training deliveries, distance learning, and, on a space-available basis, advanced training conducted at any of FLETC's domestic campuses. In cooperation with the Department of State, FLETC manages the International Law Enforcement Academy (ILEA) at Gaborone, Botswana; assists in the management of the ILEA in Bangkok, Thailand; and supports training at the other ILEAs in Budapest, Hungary, and San Salvador, El Salvador. FLETC provides other training and assistance internationally in collaboration with, and in support of, the respective U.S. Embassies. Additionally, many international students attend training programs at FLETC each year.

This account provides for the acquisition and related costs for the expansion and maintenance of FLETC, to include funding for construction based on the Facilities Master Plan, Minor Construction and Maintenance, Environmental Compliance, and Communications Systems.

The Master Plan provides the long range blueprint for expansion of facilities to meet the training requirements of over 90 Partner Organizations. Minor Construction and Maintenance provides alterations and maintenance funding for approximately 300 buildings at four locations (Glynco, Georgia; Artesia, New Mexico; Charleston, South Carolina; and Cheltenham, Maryland). Environmental Compliance funding is to ensure compliance with the EPA and State environmental laws and regulations. Communications Systems funding is to maintain and repair or replace the fiber optics telecommunications cable system.

As the largest investigative arm of the Department of Homeland Security, Immigration and Customs Enforcement (ICE) brings a unified and coordinated focus to the enforcement of Federal immigration and customs laws.

SALARIES AND EXPENSES—Continued

The Budget supports ICE's mission to enforce immigration and customs laws. ICE works to protect the United States and its people by deterring, interdicting, and investigating threats arising from the movement of people and goods into and out of the United States.

Major programs funded by the Salaries and Expenses appropriation include:

**Homeland Security Investigations (HSI).**—Investigates a broad range of domestic and international immigration and customs violations such as human smuggling and trafficking; the smuggling of weapons and other types of contraband; export enforcement, such as investigating illegal arms exports and exports of dual-use equipment that may threaten national security; financial crimes, such as money laundering, bulk cash smuggling, and other financial crimes; commercial fraud, including intellectual property violations; cybercrimes; child exploitation; identity and immigration benefit fraud; and human rights violations. HSI is also responsible for the collection, analysis, and dissemination of strategic, operational, and tactical intelligence for use by the operational elements of ICE and DHS.

**Enforcement and Removal Operations (ERO).**—Responsible for promoting the public safety and national security by ensuring the departure from the United States of all removable aliens through the fair enforcement of the nation's immigration laws.

**Office of the Principal Legal Advisor.**—Serves as the legal representative for the U.S. Government at immigration court hearings, and provides legal advice to HSI and ERO on criminal and administrative customs- and immigration enforcement-related activities.

**Management & Administration.**—Manages ICE's financial and human resources, information technology, training for employees and special agents, sensitive property, facilities, and other assets.

Among the missions at the Department of Homeland Security, U.S. Customs and Border Protection (CBP) is responsible for se-

curing America's borders, while facilitating legitimate trade and travel. CBP is responsible for inspecting travelers at land, sea, and air ports-of-entry for immigration, customs, and agriculture compliance, as well as interdicting illegal crossers between ports-of-entry. CBP is responsible for enforcing the laws regarding admission of foreign-born persons into the United States; identifying and apprehending aliens; and ensuring that all goods and persons entering and exiting the United States do so legally.

The Automation Modernization account is divided into four program and project activities, the Automated Commercial Environment (ACE), Critical Operations Protection and Processing Support (COPPS), Information Technology, and Automated Targeting Systems (ATS). The funding for information technology initiatives as well as maintenance of the existing information technology infrastructure at CBP resides in this account. ACE is being developed and deployed in increments and will replace the current trade management system, the Automated Commercial System (ACS). ACE will provide tools and enhance the business processes that are essential to securing U.S. borders while ensuring the efficient processing of legitimate goods. COPPS

AUTOMATION MODERNIZATION—Continued

provides nearly all the CBP Information Technology (IT) infrastructure to operate and maintain mission-critical IT systems requisite to secure the borders while facilitating legitimate trade and travel. IT supports all CBP users by providing integrated, comprehensive technical support that facilitates both CBP and DHS missions. IT is responsible for the development, acquisition, testing, and maintenance of new and legacy applications (both government and commercial), and ensures the reliability of CBP's data infrastructure, which transmits critical data to and from CBP and DHS data centers to CBP agents and officers on the front-line. The ATS is an Intranet-based enforcement and decision support tool that is the cornerstone for all CBP targeting efforts, supports the Agency's effort to increase and improve the quality and amount of information, intelligence, and analysis related to people, goods, and conveyances before they arrive at Ports of Entry.

CBP has consolidated all multi-year facilities-related funding into a single account, except funding resources associated with rent and rent-related costs, so that the agency can consistently plan, finance, and manage its multifaceted facilities portfolio. The consolidation of these budget activities will allow CBP to best fulfill the driving mission needs.

Under Section 559 of the Consolidated Appropriations Act, 2014 (Pub. L. No. 113-76), the Commissioner of Customs and Border Protection (CBP) may approve requests from interested parties to reimburse CBP for enhanced inspectional services. Specifically, CBP is authorized to receive reimbursement from corporations, government agencies, and other interested parties for certain inspection services in the air, land and sea environments at domestic locations. This allows CBP to provide services to requesting parties that it could not provide in the absence of reimbursement.

U.S. Customs and Border Protection (CBP) acts as Puerto Rico's sole customs service. CBP and the Homeland Security Investigation (HSI) directorate of U.S. Immigration and Customs Enforcement (ICE) also perform investigative law enforcement activities under statute, 48 U.S.C. 1469c. This secondary statute provides any U.S. government agency or instrumentality the authority to provide additional services to Puerto Rico, at the Government of Puerto Rico's behest, on a reimbursable basis. Collections in Puerto Rico, less the costs of collecting duties and taxes, are transferred to Puerto Rico's Treasury (Hacienda) to be expended as required by law for the Government of Puerto Rico.

The Global Entry Program is authorized under the Consolidated Appropriations Act of 2008 (P.L. 110-161) Section 565(3)(A). The Global Entry program establishes an international registered traveler program that incorporates technologies, such as biometrics and e-passports, and security threat assessments to expedite screening and processing of international passengers. All applicants must be pre-approved, and they must undergo a rigorous background check and interview before enrollment. Global Entry allows expedited clearance for pre-approved and low-risk travelers upon arrival in the United States. Though intended for frequent international travelers, there is no minimum number of trips necessary to qualify. Participants may enter the United States by using automated kiosks located at selected airports.

P.L.110–53, or the Implementing Recommendations of the 9/11 Commission Act of 2007 established an electronic authorization system to pre-screen aliens prior to arrival in the United States. This mandate was made operational by the creation of the Electronic System for Travel Authorization (ESTA). ESTA operates under informed compliance, requiring all Visa Waiver Program travelers to obtain authorization prior to travel. The Visa Waiver Program allows visitors to travel to the U.S. for business or pleasure for 90 days or less without obtaining a visa.

Funding requested in the Operating Expenses account supports the operations of the Coast Guard as it carries out its duties as a maritime, military, multi-mission operating agency and one of the five armed forces. To fulfill its mission, the Coast Guard employs multipurpose vessels, aircraft, and shore units, strategically located along the coasts and inland waterways of the United States. The account funds operations and maintenance of these assets, sustainment of new and existing Coast Guard Programs, Projects, and Activities, and personnel. In 2015, Coast Guard will continue procurement of their financial management system solution.

Funding requested in this account will support the training of Coast Guard Reserve Forces so that they are prepared to provide qualified personnel to augment active duty forces in the event of conflict, national emergency, or natural and manmade disasters. The Reservists maintain their readiness through both formal training and mobilization exercises and duty alongside regular Coast Guard members during routine and emergency operations. Reservists will continue to serve as a cost-effective surge force for response to man-made and natural disasters.

## ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, renovation, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; and maintenance, rehabilitation, lease, and operation of facilities and equipment; as authorized by law; **[\$1,375,635,000]** **\$1,084,193,000**; of which \$20,000,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)); and of which the following amounts, to remain available until September 30, **[2018]** **2019** (except as subsequently specified), shall be available as follows: **[\$18,000,000]** shall be available for military family housing, of which not more than \$349,996 shall be derived from the Coast Guard Housing Fund established pursuant to 14 U.S.C. 687; **\$999,000,000** shall be available **\$803,000,000** to acquire, effect major repairs to, renovate, or improve vessels, small boats, and related equipment; **[\$175,310,000]** shall be available **\$68,000,000** to acquire, effect major repairs to, renovate, or improve aircraft or increase aviation capability; **[\$64,930,000]** shall be available **\$57,300,000** for other acquisition programs; **[\$5,000,000]** shall be available **\$40,580,000** for shore facilities and aids to navigation, including facilities at Department of Defense installations used by the Coast Guard; and **[\$113,395,000]** **\$115,313,000**, to remain available until September 30, **[2014]**, shall be available **[2015]**, for personnel compensation and benefits and related costs: *Provided*, That the funds provided by this Act shall be immediately available and allotted to contract for the production of the seventh National Security Cutter notwithstanding the availability of funds for post-production costs: *Provided further*, That the funds provided by this Act shall be immediately available and allotted to contract for long lead time materials, components, and designs for the eighth National Security Cutter notwithstanding the availability of funds for production costs or post-production costs: *Provided further*, That the Commandant of the Coast Guard shall submit to the Committees on Appropriations of the Senate and the House of Representatives, at the time the President's budget proposal for fiscal year 2015 is submitted pursuant to section 1105(a) of title 31, United States Code, a future-years capital investment plan for the Coast Guard that identifies for each requested capital asset—(1) the proposed appropriations included in that budget; (2) the total estimated cost of completion, including and clearly delineating the costs of associated major acquisition systems infrastructure and transition to operations; (3) projected funding levels for each fiscal year for the next 5 fiscal years or until acquisition program baseline or project completion, whichever is earlier; (4) an estimated completion date at the projected funding levels; and (5) a current acquisition program baseline for each capital asset, as applicable, that—(A) includes the total acquisition cost of each asset, subdivided by fiscal year and including a detailed description of the purpose of the proposed funding levels for each fiscal year, including for each fiscal year funds requested for design, pre-acquisition activities, production, structural modifications, missionization, post-delivery, and transition to operations costs; (B) includes a detailed project schedule through completion, subdivided by fiscal year, that details—(i) quantities planned for each fiscal year; and (ii) major acquisition and project events, including development of operational requirements, contracting actions, design reviews, production, delivery, test and evaluation, and transition to operations, including necessary training, shore infrastructure, and logistics; (C) notes and explains any deviations in cost, performance parameters, schedule, or estimated date of completion from the original acquisition program baseline and the most recent baseline approved by the Department of Homeland Security's Acquisition Review Board, if applicable; (D) aligns the acquisition of each asset to mission requirements by defining existing capabilities of comparable legacy assets, identifying known capability gaps between such existing capabilities and stated mission requirements, and explaining how the acquisition of each asset will address such known capability gaps; (E) defines life-cycle costs for each asset and the date of the estimate on which such costs are based, including all associated costs of major acquisitions systems infrastructure and transition to operations, delineated by purpose and fiscal year for the projected service life of the asset; (F) includes the earned value management system summary schedule performance index and cost performance index for each asset, if applicable; and (G) includes a phase-out and decommissioning schedule delineated by fiscal year for each existing legacy asset that each asset is intended to replace or recapitalize: *Provided further*, That the Commandant of the Coast Guard shall ensure that amounts specified in the future-

years capital investment plan are consistent, to the maximum extent practicable, with proposed appropriations necessary to support the programs, projects, and activities of the Coast Guard in the President's budget proposal for fiscal year 2015, submitted pursuant to section 1105(a) of title 31, United States Code: *Provided further*, That any inconsistencies between the capital investment plan and proposed appropriations shall be identified and justified: *Provided further*, That subsections (a) and (b) of section 6402 of Public Law 110–28 shall apply with respect to the amounts made available under this heading. Funding requested in this account provides for the acquisition, construction, and improvement of vessels, aircraft, information management resources, shore facilities, and aids to navigation required to execute the Coast Guard's missions and achieve its performance goals. In 2015, the Coast Guard will sustain or acquire assets and systems to continue the recapitalization of boats, major cutters and patrol boats, aircraft, and Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance systems. Furthermore, the Coast Guard will continue fleet sustainment projects to enhance and extend the service life of selected existing aircraft and cutters. The Coast Guard will also invest in shore infrastructure as well as repair aging buildings, and other facilities. These vital recapitalization projects, along with the corresponding development of acquisition personnel and management systems, will provide the Coast Guard with additional capability to perform its missions.

The Internal Revenue Code of 1986, as amended by TEA-21 and SAFETEA-LU, provides for the transfer of Highway Trust Fund revenue derived from the motor boat fuel tax and certain other taxes to the Aquatic Resources Trust Fund. Appropriations are authorized from this fund to meet expenditures for programs specified by law, including sport fish restoration and boating safety. Excise tax receipts for the trust fund include motorboat

fuel tax receipts, plus receipts from excise taxes on sport fishing equipment, sonar and fish finders, small engine fuels, and import duties on fishing equipment and recreational vessels.

The Oil Spill Liability Trust Fund (OSLTF) is used to finance oil pollution prevention and cleanup activities by various Federal agencies. In accordance with the provisions of the Oil Pollution Act of 1990, the Fund may finance annually up to \$50 million of emergency resources and all valid claims from injured parties resulting from oil spills. For Coast Guard, this funds the Trust Fund Share of Expenses and Maritime Oil Spill Programs accounts. The OSLTF is funded by an excise tax on each barrel of oil produced domestically or imported. The Energy Improvement and Extension Act of 2008 (P.L. 110-343) increased the tax rate to eight cents on each barrel of oil through December 31, 2016, and nine cents on each barrel of oil for the period January 1, 2017 through December 31, 2017. The tax currently will sunset December 31, 2017. In 2015, the Administration proposes to increase these taxes by one cent per barrel, to nine cents per barrel for periods after December 31, 2014, and to 10 cents per barrel for periods after December 31, 2016.

This account provides resources from the Oil Spill Liability Trust Fund for costs associated with the cleanup of oil spills. These include emergency costs associated with oil spill cleanup, funding provided to the Prince William Sound Oil Spill Recovery Institute, and the payment of claims to those who suffer harm from oil spills where the responsible party is not identifiable or is without resources. The claims activity in this account will continue to be funded under separate permanent appropriations and are being displayed in a consolidated format to enhance presentation.

The Office of Biometric Identity Management (OBIM) serves as the lead entity within the Department of Homeland Security (DHS) responsible for biometric identity management services. OBIM's vision is to achieve a homeland that is safe, secure, and resilient through advanced biometric identity services, information sharing, and analysis.

OBIM operates and maintains the Automated Biometric Identification System, known as IDENT, and provides identity services expertise to DHS components as well as to other Federal departments, State and local law enforcement, the Intelligence Community, and foreign partners. By matching, storing, sharing, and analyzing biometric data, OBIM provides partners on the front lines of homeland and national security with rapid, accurate, and secure biometric identification.

The Infrastructure Protection and Information Security (IPIS) appropriation funds Infrastructure Protection, Cybersecurity, and Communications activities, which seek to understand and manage risk from natural disasters, terrorist attacks, or other disasters to the Nation's physical and cyber infrastructure.

Infrastructure Protection (IP) programs accomplish the IPIS mission by assisting security partners to identify and mitigate vulnerabilities; increase preparedness for facilities, systems, and surrounding communities; and assess the impact of risk mitigation efforts. The IP PPAs are: Infrastructure Analysis and Planning, Sector Management and Governance, Regional Field Operations, and Infrastructure Security Compliance.

Cyber Security and Communications (CS&C) collaborates with public, private, and international partners to ensure security and continuity of the Nation's cyber and communications infrastructures in the event of terrorist attacks, national disasters, and catastrophic incidents. Additionally, CS&C protects and strengthens the reliability, survivability and interoperability of the Nation's communications capabilities, including those utilized during emergencies, at the Federal, State, local, territorial, and tribal levels.

CS&C seeks to create a safe and secure cyber environment and promote cybersecurity knowledge and innovation by: enabling Federal departments and agencies to address cybersecurity challenges; partnering with the private sector, military, and intelligence communities to mitigate vulnerabilities and threats to information technology assets; and facilitating collaboration and partnerships on cyber issues with public and private sector partners. The cybersecurity-focused PPAs are: Cybersecurity Coordination, US-CERT Operations, Federal Network Security, Network Security Deployment, Global Cyber Security Management, Critical Infrastructure Cyber Protection and Awareness, and Business Operations.

CS&C also is responsible for maintaining effective telecommunications for government users in national emergencies and for establishing policies and promoting solutions for interoperable communications at the Federal, State, and local levels. The communications PPAs include: Priority Telecommunications services, Programs to Study and Enhance Telecommunications, Critical Infrastructure Protection, Next Generation Networks programs, and the Office of Emergency Communications.

The Federal Protective Service (FPS) is the Federal law enforcement organization responsible for securing and protecting the buildings, grounds, and property owned or occupied by the Federal government, as well as any people on those properties. FPS conducts protective law enforcement and security services and leverages the intelligence and information resources of Federal, state, and local partners. FPS conducts Facility Security Assessments and recommends appropriate countermeasures, ensures stakeholder threat awareness training, and oversees a large contract Protective Security Officer workforce. FPS protects the homeland by managing risk and ensuring continuity through researching and analyzing threats, vulnerabilities, and protective measures associated with facilities and surrounding areas, culminating in the establishment of a baseline level of protection to secure these properties.

OHA provides medical and health expertise in support of the DHS mission to prepare for, respond to, and recover from all threats, including biological and chemical events. OHA serves as the Department's primary point of contact for state, local, territorial, and tribal governments on medical and health issues. OHA also serves as the principal medical advisor to the Secretary, Federal Emergency Management Agency (FEMA) Administrator, and other DHS officials and components. Currently, OHA allocates its nonpay funding to initiative-based programs. In 2015, to recognize the evolving role of OHA in the dynamic threat environment of health security, OHA will consolidate its existing activities into two programs. Health Incidents Detection will comprise funding for BioWatch and the National Biosurveillance Integration Center. Health Incidents Resilience will comprise priority health defense initiatives including all activities previously included under the Planning & Coordination and Chemical Defense Program PPAs. OHA will continue to fund pay and benefits for all OHA personnel in Salaries and Expenses.

Funding for Salaries and Expenses provides for the development and maintenance of an integrated, nationwide capability to prepare for, mitigate against, respond to, and recover from the consequences of terrorist attacks and other major disasters and emergencies, in partnership with other Federal agencies, State and local governments, volunteer organizations and the private sector. Activities also include coordination of Federal homeland security programs affecting State, local, and regional authorities in the National Capital Region, congressional outreach, national security functions, information technology services, and facilities management. To provide streamlined accounting and increased

oversight in 2015, the FEMA Salaries and Expenses account includes \$149 million for management and administration of grants.

The Flood Hazard Mapping and Risk Analysis Program (Risk MAP) supports the mapping and community engagement needs of the National Flood Insurance Program (NFIP). Risk MAP delivers quality data that increases public awareness and leads to action that reduces risk to life and property through collaboration with State, local, and Tribal entities. Risk MAP drives national actions to reduce flood risk by addressing flood hazard data update needs, supporting local government hazard mitigation planning, and providing the flood risk data needed to manage the NFIP financial exposure.

FEMA provides state and local governments with grants, training, and exercises, to improve their readiness for terrorism incidents and catastrophic events under the State and Local Programs appropriation, which includes:

(1) *National Preparedness Grant Program (NPGP)*.—The NPGP consolidates preparedness grants into a comprehensive program that provides state, local and tribal officials the opportunity to focus on the development and sustainment of core national emergency management and homeland security capabilities as outlined in the National Preparedness Goal; utilizes gap analyses to determine asset and resource deficiencies and inform the development of new capabilities through a competitive process; builds a robust national response capacity based on cross-jurisdictional and readily deployable state and local assets. Further, using a competitive, risk-based model, the NPGP will use a comprehensive process for identifying and prioritizing deployable capabilities, limit periods of performance to put funding to work quickly, and require grantees to regularly report progress in the acquisition and development of these capabilities.

(2) *Emergency Management Performance Grants (EMPG)*.—These grants support State and regional efforts to achieve target levels of capability in catastrophic planning and emergency management. This program provides funding by formula basis to all 56 States and territories.

(3) *Firefighter Assistance Grants*.—These grants provide direct assistance to local fire departments for investments to improve their ability to safeguard the lives of firefighting personnel and members of the public in the event of a terrorist attack. The request includes grants to hire and retain firefighters, training, equipment, and personal protective gear. The funding supports a three grant programs: the Staffing for Adequate Fire and Emergency Response (SAFER) grants, the Assistance to Firefighter Grant (AFG), and the Fire Prevention and Safety grant program. The competitive, peer-review grant process will give priority to applications that enhance capabilities for terrorism response and other major incidents.

(4) *Training Partnership Grants Program*.—These grants will be awarded to competitively selected applicants to develop and deliver innovative training programs addressing high priority national homeland security training needs. All training partners funded through this program will offer training regimens that build and sustain the core capabilities as outlined in the National Preparedness Goal.

(5) *Education, Training and Exercises Programs*.—FEMA provides specialized training to emergency responders and supports development, execution, and evaluation of exercises to test the Nation's preparedness for all hazards.

To provide streamlined accounting and increased oversight in 2015, the FEMA Salaries and Expenses account includes \$149 million for management and administration of grants.

Through the Disaster Relief Fund (DRF), FEMA provides a significant portion of the total Federal response to Presidentially-declared major disasters and emergencies. Primary assistance programs include Federal assistance to individuals and households, public assistance, and hazard mitigation assistance, which includes the repair and reconstruction of State, local, and non-profit infrastructure.

Beginning in 2012, section 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended (BBEDCA) includes a discretionary cap adjustment for disaster relief, facilitating a shift from a reliance on supplemental appropriations. DRF funding has historically been fungible, but the BBEDCA requires that funding appropriated as disaster relief under the cap adjustment go toward declared major disasters only as defined under section 102(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act. Cap adjustment funding is not to be used for base/non-major disaster spending on emergency declarations, disaster readiness support activities, pre-disaster surge costs, or Fire Management Assistance Grants. The DRF request can be broken down into four principal components: catastrophic obligations, non-catastrophic obligations, recoveries, and a reserve. The funding required for the catastrophic category (events greater than \$500 million) is based on FEMA spend plans for all prior declared catastrophic events. It should be noted that this figure includes no funds for new catastrophic events that may occur in 2015. It is assumed that any new catastrophic event in 2015 will be funded through an emergency supplemental funding request as provided for in BBEDCA. The non-catastrophic funding level is based on an approach that uses the ten-year average for non-catastrophic events to provide a more realistic projection of non-catastrophic needs in 2015. The recoveries figure represents an estimate of the amount that FEMA will de-obligate from prior projects. Given the inherent uncertainty associated with disaster events, an additional \$1,000 million is included for a reserve in 2015.

The Federal Government provides flood insurance through the National Flood Insurance Program (NFIP), which is administered by FEMA. Flood insurance is available to homeowners and businesses in communities that have adopted and enforce appropriate floodplain management measures. Coverage is limited to buildings and their contents. By the end of 2013, the program had over 5.5 million policies in more than 22,200 communities with over \$1.3 trillion of insurance in force.

The program uses a multi-pronged strategy for reducing future flood damage. The NFIP offers flood mitigation assistance grants to assist flood victims to rebuild to current building codes, including base flood elevations, thereby reducing future flood damage costs. In addition, flood mitigation assistance grants targeted toward repetitive and severe repetitive loss properties not only help owners of high-risk property, but also reduce the disproportionate drain on the National Flood Insurance Fund these properties cause, through acquisition, relocation, or elevation. FEMA works to ensure that the flood mitigation grant program is closely integrated, resulting in better coordination and communication with State and local governments. Further, through the Community Rating System, FEMA adjusts premium rates to encourage community and State mitigation activities beyond those required by the NFIP. These efforts, in addition to the minimum NFIP requirements for floodplain management, save over \$1 billion annually in avoided flood damages.

Due to the catastrophic nature of flooding, with Hurricanes Katrina and Sandy as notable examples, insured flood damages far exceeded premium revenue in some years and depleted the program's reserve account, which is a cash fund. On those occasions, the NFIP exercises its borrowing authority through the Treasury to meet flood insurance claim obligations. As a result, the Administration and Congress have increased the borrowing authority to \$30.4 billion. The program's debt is currently \$24 billion.

The Biggert Waters Flood Insurance Reform Act of 2012 requires the NFIP generally to move to full risk-based premium rates and strengthens the NFIP financially and operationally. In 2013, the NFIP began phasing in risk-based premiums for certain properties, as required by the law.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT—Continued sharing funds and community disaster loans to local governments incurring substantial loss of tax and other revenues as a result of a major disaster. As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans). The subsidy amounts are estimated on a present value basis. Loan activity prior to 1992, which is budgeted for on a cash basis, totals less than \$500,000 in every year and is not presented separately. No new funding is requested in 2015.

Appropriations in this title support the advance of homeland security through applied and developmental research, technology foraging and adaptation of R&D investments to homeland security

mission needs, demonstration, testing and evaluation activities, and other R&D investments necessary to meet the missions of the Department of Homeland Security and the activities of the Science and Technology Directorate. This work brings together research and subject matter experts from outside Federal, State, and local agencies; private industry; and academia across the United States and internationally. Funding is also provided for the operations, maintenance, and construction of laboratory facilities.

The 2015 Budget provides for major technology and development efforts, including the four priority areas: biodefense, cybersecurity, aviation security, and first responders; as well as other critical mission areas, such as borders and maritime security and resilience. Funding is also provided for terrorism risk assessments in chemical, biological, radiological, and nuclear areas, which are foundational elements for government-wide planning and policy development to effectively prevent, respond to, and recover from possible terrorist attacks or natural disasters, as well as infrastructure upgrades for our five laboratory facilities. Also, funding is provided for the National Bio- and Agro-defense Facility. Funding for Laboratory Facilities (including construction) will be available for obligation for five years. Funding for all other Research, Development, Acquisition, and Operations programs will be available for obligation for three years.

**DOMESTIC NUCLEAR DETECTION OFFICE**  
*Federal Funds*

MANAGEMENT AND ADMINISTRATION

For salaries and expenses of the Domestic Nuclear Detection Office, as authorized by title XIX of the Homeland Security Act of 2002 (6 U.S.C. 591 et seq.), for management and administration of programs and activities, **[\$37,353,000] \$37,494,000: Provided**, That not to exceed \$2,250 shall be for official reception and representation expenses: *Provided further*, That not later than 120 days after the date of enactment of this Act, the Secretary of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a strategic

MANAGEMENT AND ADMINISTRATION—Continued

plan of investments necessary to implement the Department of Homeland Security's responsibilities under the domestic component of the global nuclear detection architecture that shall:

- (1) define the role and responsibilities of each Departmental component in support of the domestic detection architecture, including any existing or planned programs to pre-screen cargo or conveyances overseas;
- (2) identify and describe the specific investments being made by each Departmental component in fiscal year [2014] 2015 and planned for fiscal year [2015] 2016 to support the domestic architecture and the security of sea, land, and air pathways into the United States;
- (3) describe the investments necessary to close known vulnerabilities and gaps, including associated costs and timeframes, and estimates of feasibility and cost effectiveness; and
- (4) explain how the Department's research and development funding is furthering the implementation of the domestic nuclear detection architecture, including specific investments planned for each of fiscal years [2014] 2015 and [2015] 2016. This account supports the personnel and related administrative costs for the Domestic Nuclear Detection Office (DNDO). The DNDO is a jointly-staffed office established to improve the Nation's capability to detect and interdict unauthorized attempts to import, possess, store, develop, or transport nuclear or radiological material for use against the Nation. The Management and Administration request includes most contributions to the DHS Working Capital Fund. Management and Administration funds will be available for obligation until the end of the fiscal year.

This account supports the engineering, operational, research, development, and technical nuclear forensics programs of the Domestic Nuclear Detection Office (DNDO). DNDO is dedicated to both the development and enhancement of the Global Nuclear Detection Architecture (GNDA); development of advanced nuclear

detection systems; coordination of effective sharing of nuclear detection-related information; coordination of nuclear detection development; technical nuclear forensics; and the establishment of procedures and training for end users of nuclear detection equipment. The 2015 Budget provides for a systems development program that is responsive to commercial-first systems development approaches while providing near-term technical solutions addressing pressing operational requirements. Funding is provided for the test and evaluation of all developed systems prior to acquisition decisions, ensuring that a full systems characterization has been conducted prior to any deployments. The budget supports transformational research and development providing break-through technologies that address gaps in the GND and have a positive impact on capabilities to detect nuclear threats. Funding will be allocated for operational support programs that provide information analysis and situational awareness, technical support, training curricula, and response protocols to field-users. Research, Development, and Operations funds for each fiscal year will be available for obligation for three years.

Funds for this account are used to procure a full range of radiation detection technologies for DHS components such as Customs and Border Protection and the U.S. Coast Guard. These technologies are deployed at and between the Nation's ports of entry as well as in the maritime domain. Systems Acquisition funds in FY 2015 will be used to procure a mix of Radiation Portal Monitors and Human Portable Radiation Detection Systems. Funding also supports efforts to build basic radiological and nuclear detection capabilities in high risk urban regions. Acquisition funds for each fiscal year will be available for obligation for three years.

**GENERAL PROVISIONS**

**[(INCLUDING RESCISSIONS OF FUNDS)]**

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. Subject to the requirements of section 503 of this Act, the unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this Act, may be merged with funds in the applicable established accounts, and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 503. (a) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year [2014] 2015, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that:

- (1) creates a new program, project, or activity;
- (2) eliminates a program, project, office, or activity;
- (3) increases funds for any program, project, or activity for which funds have been denied or restricted by the Congress;
- (4) proposes to use funds directed for a specific activity by either of the Committees on Appropriations of the Senate or the House of Representatives for a different purpose; or
- (5) contracts out any function or activity for which funding levels were requested for Federal full-time equivalents in the object classification tables contained in the fiscal year [2014] 2015 Budget Appendix for the Department of Homeland Security, as modified by the report accompanying this Act, unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(b) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year [2014] 2015, or provided from any accounts in the Treasury of the United States derived by the collection of fees or proceeds available to the agencies funded by this Act, shall be available for obligation or expenditure for programs, projects, or activities through a reprogramming of funds in excess of \$5,000,000 or 10 percent, whichever is less, that:

- (1) augments existing programs, projects, or activities;
- (2) reduces by 10 percent funding for any existing program, project, or activity;
- (3) reduces by 10 percent the numbers of personnel approved by the Congress; or
- (4) results from any general savings from a reduction in personnel that would result in a change in existing programs, projects, or activities as approved by the Congress, unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(c) Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Homeland Security by this Act or provided by previous appropriations Acts may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by such transfers: *Provided, That, subject to approval by the Director of the Office of Management and Budget, any unobligated funds within such department or agency may be transferred between appropriations in order to expedite a more rapid and effective response to a Presidentially-declared major disaster, as provided in the National Response Plan required under Public Law 107-296: Provided further, That any transfer under this section shall be treated as a reprogramming of funds under subsection (b) and shall not be available for obligation unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such transfer.*

(d) Notwithstanding subsections (a), (b), and (c) of this section, no funds shall be reprogrammed within or transferred between appropriations based upon an initial notification provided after June 30, except in extraordinary circumstances that imminently threaten the safety of human life or the protection of property.

(e) The notification thresholds and procedures set forth in this section shall apply to any use of deobligated balances of funds provided in previous Department of Homeland Security Appropriations Acts.

SEC. 504. The Department of Homeland Security Working Capital Fund, established pursuant to section 403 of Public Law 103-356 (31 U.S.C. 501 note), shall continue operations as a permanent working capital fund for fiscal year [2014] 2015: *Provided, That none of the funds appropriated or otherwise made available to the Department of Homeland Security may be used to make payments to the Working Capital Fund, except for the activities and amounts allowed in the President's fiscal year [2014] 2015 budget: Provided further, That funds provided to the Working Capital Fund shall be available for obligation until expended to carry*

out the purposes of the Working Capital Fund: *Provided further, That all departmental components shall be charged only for direct usage of each Working Capital Fund service: Provided further, That funds provided to the Working Capital Fund shall be used only for purposes consistent with the contributing component: Provided further, That the Working Capital Fund shall be paid in advance or reimbursed at rates which will return the full cost of each service: Provided further, That the Committees on Appropriations of the Senate and House of Representatives shall be notified of any activity added to or removed from the fund: Provided further, That the Chief Financial Officer of the Department of Homeland Security shall submit a quarterly execution report with activity level detail, not later than 30 days after the end of each quarter.*

SEC. 505. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year [2014] 2015, as recorded in the financial records at the time of a reprogramming request, but not later than June 30, [2015] 2016, from appropriations for salaries and expenses for fiscal year [2014] 2015 in this Act shall remain available through September 30, [2015] 2016, in the account and for the purposes for which the appropriations were provided: *Provided, That prior to the obligation of such funds, [a request] notification shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives [for approval] in accordance with section 503 of this Act.*

SEC. 506. Funds made available by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year [2014] 2015 until the enactment of an Act authorizing intelligence activities for fiscal year [2014] 2015.

SEC. 507. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used to—

- (1) make or award a grant allocation, grant, contract, other transaction agreement, or task or delivery order on a Department of Homeland Security multiple award contract, or to issue a letter of intent totaling in excess of \$1,000,000;
- (2) award a task or delivery order requiring an obligation of funds in an amount greater than \$10,000,000 from multi-year Department of Homeland Security funds or a task or delivery order that would cause cumulative obligations of multi-year funds in a single account to exceed 50 percent of the total amount appropriated; or

[(3) make a sole-source grant award; or]

[(4)]3 announce publicly the intention to make or award items under paragraph (1), (2), or (3) including a contract covered by the Federal Acquisition Regulation.

(b) The Secretary of Homeland Security may waive the prohibition under subsection (a) if the Secretary notifies the Committees on Appropriations of the Senate and the House of Representatives at least 3 full business days in advance of making an award or issuing a letter as described in that subsection.

(c) If the Secretary of Homeland Security determines that compliance with this section would pose a substantial risk to human life, health, or safety, an award may be made without notification, and the Secretary shall notify the Committees on Appropriations of the Senate and the House of Representatives not later than 5 full business days after such an award is made or letter issued.

(d) A notification under this section—

- (1) may not involve funds that are not available for obligation; and
- (2) shall include the amount of the award; the fiscal year for which the funds for the award were appropriated; the type of contract; and the account and each program, project, and activity from which the funds are being drawn.

(e) The Administrator of the Federal Emergency Management Agency shall brief the Committees on Appropriations of the Senate and the House of Representatives 5 full business days in advance of announcing publicly the intention of making an award under "State and Local Programs".

SEC. 508. Notwithstanding any other provision of law, no agency shall purchase, construct, or lease any additional facilities, except within or contiguous to existing locations, to be used for the purpose of conducting Federal law enforcement training without [the] advance [approval of] notification to the Committees on Appropriations of the Senate and the House of Representatives, except that the Federal Law Enforcement Training Center is authorized to obtain the temporary use of additional

facilities by lease, contract, or other agreement for training that cannot be accommodated in existing Center facilities.

SEC. 509. None of the funds appropriated or otherwise made available by this Act may be used for expenses for any construction, repair, alteration, or acquisition project for which a prospectus otherwise required under chapter 33 of title 40, United States Code, has not been approved, except that necessary funds may be expended for each project for required expenses for the development of a proposed prospectus.

SEC. 510. (a) Sections 520, 522, and 530 of the Department of Homeland Security Appropriations Act, 2008 (division E of Public Law 110–161; 121 Stat. 2073 and 2074) shall apply with respect to funds made available in this Act in the same manner as such sections applied to funds made available in that Act.

(b) The third proviso of section 537 of the Department of Homeland Security Appropriations Act, 2006 (6 U.S.C. 114), shall not apply with respect to funds made available in this Act.

SEC. 511. None of the funds made available in this Act may be used in contravention of the applicable provisions of the Buy American Act. For purposes of the preceding sentence, the term "Buy American Act" means chapter 83 of title 41, United States Code.

【SEC. 512. None of the funds made available in this Act may be used by any person other than the Privacy Officer appointed under subsection (a) of section 222 of the Homeland Security Act of 2002 (6 U.S.C. 142(a)) to alter, direct that changes be made to, delay, or prohibit the transmission to Congress of any report prepared under paragraph (6) of such subsection.】

【SEC. 513. None of the funds made available in this Act may be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448).】

SEC. 【514】512. Within 30 days after the end of each month, the Chief Financial Officer of the Department of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a monthly budget and staffing report for that month that includes total obligations, on-board versus funded full-time equivalent staffing levels, and the number of contract employees for each office of the Department.

【SEC. 515. 【SEC. 559. (a) IN GENERAL.—In addition to existing authorities, the Commissioner of U.S. Customs and Border Protection, in collaboration with the Administrator of General Services, is authorized to conduct a pilot program in accordance with this section to permit U.S. Customs and Border Protection to enter into partnerships with private sector and government entities at ports of entry for certain services and to accept certain donations.

(b) RULE OF CONSTRUCTION.—Except as otherwise provided in this section, nothing in this section may be construed as affecting in any manner the responsibilities, duties, or authorities of U.S. Customs and Border Protection or the General Services Administration.

(c) DURATION.—The pilot program described in subsection (a) shall be for five years. A partnership entered into during such pilot program may last as long as required to meet the terms of such partnership. At the end of such five year period, the Commissioner may request that such pilot program be made permanent.

(d) COORDINATION.—

(1) IN GENERAL.—The Commissioner, in consultation with participating private sector and government entities in a partnership under subsection (a), shall provide the Administrator with information relating to U.S. Customs and Border Protection's requirements for new facilities or upgrades to existing facilities at land ports of entry.

(2) CRITERIA.—The Commissioner and the Administrator shall establish criteria for entering into a partnership under subsection (a) that include the following:

(A) Selection and evaluation of potential partners.

(B) Identification and documentation of roles and responsibilities between U.S. Customs and Border Protection, General Services Administration, and private and government partners.

(C) Identification, allocation, and management of explicit and implicit risks of partnering between U.S. Customs and Border Protection, General Services Administration, and private and government partners.

(D) Decision-making and dispute resolution processes in partnering arrangements.

(E) Criteria and processes for U.S. Customs and Border Protection and General Services Administration to terminate agreements if private or government partners are not meeting the terms of such a partnership, including the security standards established by U.S. Customs and Border Protection.

(3) EVALUATION PLAN.—The Commissioner, in collaboration with the Administrator, shall submit to the Committee on Homeland Security, the Committee on Transportation and Infrastructure, and the Committee on Appropriations of the House of Representatives and the Committee on Homeland Security and Governmental Affairs, the Committee on Environment and Public Works, and the Committee on Appropriations of the Senate, an evaluation plan for the pilot program described in subsection (a) that includes the following:

(A) Well-defined, clear, and measurable objectives.

(B) Performance criteria or standards for determining the performance of such pilot program.

(C) Clearly articulated evaluation methodology, including—

(i) sound sampling methods;

(ii) a determination of appropriate sample size for the evaluation design;

(iii) a strategy for tracking such pilot program's performance; and

(iv) an evaluation of the final results.

(D) A plan detailing the type and source of data necessary to evaluate such pilot program, methods for data collection, and the timing and frequency of data collection.

(e) AUTHORITY TO ENTER INTO AGREEMENTS FOR THE PROVISION OF CERTAIN SERVICES AT PORTS OF ENTRY.—

(1) IN GENERAL.—Notwithstanding section 13031(e) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(e)) and section 451 of the Tariff Act of 1930 (19 U.S.C. 1451), the Commissioner may, during the pilot program described in subsection (a) and upon the request of a private sector or government entity with which U.S. Customs and Border Protection has entered into a partnership, enter into a reimbursable fee agreement with such entity under which—

(A) U.S. Customs and Border Protection will provide services described in paragraph (2) at a port of entry;

(B) such entity will pay a fee imposed under paragraph (4) to reimburse U.S. Customs and Border Protection for the costs incurred in providing such services; and

(C) each facility at which U.S. Customs and Border Protection services are performed shall be provided, maintained, and equipped by such entity, without cost to the Federal Government, in accordance with U.S. Customs and Border Protection specifications.

(2) SERVICES DESCRIBED.—Services described in this paragraph are any activities of any employee or contractor of U.S. Customs and Border Protection pertaining to customs, agricultural processing, border security, and immigration inspection-related matters at ports of entry.

(3) LIMITATIONS.—

(A) IMPACTS OF SERVICES.—The Commissioner may not enter into a reimbursable fee agreement under this subsection if such agreement would unduly and permanently impact services funded in this or any other appropriations Act, or provided from any account in the Treasury of the United States derived by the collection of fees.

(B) FOR CERTAIN COSTS.—The authority found in this subsection may not be used at U.S. Customs and Border Protection-serviced air ports of entry to enter into reimbursable fee agreements for costs other than payment of overtime.

(C) The authority found in this subsection may not be used to enter into new preclearance agreements or begin to provide U.S. Customs and Border Protection services outside of the United States.

(D) The authority found in this subsection shall be limited with respect to U.S. Customs and Border Protection-serviced air ports of entry to five pilots per year.

(4) FEE.—

(A) IN GENERAL.—The amount of the fee to be charged pursuant to an agreement authorized under paragraph (1) shall be paid by each private sector and government entity requesting U.S. Customs and Border Protection services, and shall include the salaries and expenses of individuals employed by U.S. Customs and Border Protection to provide such services and other costs incurred by U.S. Customs and Border Protection relating to such services, such as temporary placement or permanent relocation of such individuals.

(B) OVERSIGHT OF FEES.—The Commissioner shall develop a process to oversee the activities reimbursed by the fees charged pursuant to an agreement authorized under paragraph (1) that includes the following:

(i) A determination and report on the full costs of providing services, including direct and indirect costs, including a process for increasing such fees as necessary.

(ii) Establishment of a monthly remittance schedule to reimburse appropriations.

(iii) Identification of overtime costs to be reimbursed by such fees.

(5) DEPOSIT OF FUNDS.—Funds collected pursuant to any agreement entered into under paragraph (1) shall be deposited as offsetting collections and remain available until expended, without fiscal year limitation, and shall directly reimburse each appropriation for the amount paid out of that appropriation for any expenses incurred by U.S. Customs and Border Protection in providing U.S. Customs and Border Protection services and any other costs incurred by U.S. Customs and Border Protection relating to such services.

(6) TERMINATION.—The Commissioner shall terminate the provision of services pursuant to an agreement entered into under paragraph (1) with a private sector or government entity that, after receiving notice from the Commissioner that a fee imposed under paragraph (4) is due, fails to pay such fee in a timely manner. In the event of such termination, all costs incurred by U.S. Customs and Border

Protection, which have not been reimbursed, will become immediately due and payable. Interest on unpaid fees will accrue based on current Treasury borrowing rates. Additionally, any private sector or government entity that, after notice and demand for payment of any fee charged under paragraph (4), fails to pay such fee in a timely manner shall be liable for a penalty or liquidated damage equal to two times the amount of such fee. Any amount collected pursuant to any agreement entered into under paragraph (1) shall be deposited into the account specified under paragraph (5) and shall be available as described therein.

(7) NOTIFICATION.—The Commissioner shall notify the Congress 15 days prior to entering into any agreement under paragraph (1) and shall provide a copy of such agreement.

(f) DONATIONS.—

(1) IN GENERAL.—Subject to paragraph (2), the Commissioner and the Administrator may, during the pilot program described in subsection (a), accept a donation of real or personal property (including monetary donations) or nonpersonal services from any private sector or government entity with which U.S. Customs and Border Protection has entered into a partnership.

(2) ALLOWABLE USES OF DONATIONS.—The Commissioner and the Administrator, with respect to any donation provided pursuant to paragraph (1), may—

(A) use such donation for necessary activities related to the construction, alteration, operation, or maintenance of an existing port of entry facility under the jurisdiction, custody, and control of the Commissioner, including expenses related to—

- (i) land acquisition, design, construction, repair and alteration;
- (ii) furniture, fixtures, and equipment;
- (iii) the deployment of technology and equipment; and
- (iv) operations and maintenance; or

(B) transfer such property or services to the Administrator for necessary activities described in subparagraph (A) related to a new or existing port of entry under the jurisdiction, custody, and control of the Administrator, subject to chapter 33 of title 40, United States Code.

(3) CONSULTATION AND BUDGET.—

(A) WITH THE PRIVATE SECTOR OR GOVERNMENT ENTITY.—To accept a donation described in paragraph (1), the Commissioner and the Administrator shall—

(i) consult with the appropriate stakeholders and the private sector or government entity that is providing the donation and provide such entity with a description of the intended use of such donation; and

(ii) submit to the Committee on Appropriations, the Committee on Homeland Security, and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Appropriations, the Committee on Homeland Security and Governmental Affairs, and the Committee on Environment and Public Works of the Senate a report not later than one year after the date of enactment of this Act, and annually thereafter, that describes—

- (I) the accepted donations received under this subsection;
- (II) the ports of entry that received such donations; and
- (III) how each donation helped facilitate the construction, alteration, operation, or maintenance of a new or existing land port of entry.

(B) SAVINGS PROVISION.—Nothing in this paragraph may be construed to—

- (i) create any right or liability of the parties referred to in subparagraph (A); or
- (ii) affect any consultation requirement under any other law.

(4) EVALUATION PROCEDURES.—Not later than 180 days after the date of the enactment of this Act, the Commissioner, in consultation with the Administrator, shall establish procedures for evaluating a proposal submitted by a private sector or government entity to make a donation of real or personal property (including monetary donations) or nonpersonal services under paragraph (1) relating to a port of entry under the jurisdiction, custody and control of the Commissioner or the Administrator and make any such evaluation criteria publicly available.

(5) CONSIDERATIONS.—In determining whether or not to approve a proposal referred to in paragraph (4), the Commissioner or the Administrator shall consider—

(A) the impact of such proposal on the port of entry at issue and other ports of entry on the same border;

(B) the potential of such proposal to increase trade and travel efficiency through added capacity;

(C) the potential of such proposal to enhance the security of the port of entry at issue;

(D) the funding available to complete the intended use of a donation under this subsection, if such donation is real property;

(E) the costs of maintaining and operating such donation;

(F) whether such donation, if real property, satisfies the requirements of such proposal, or whether additional real property would be required;

(G) an explanation of how such donation, if real property, was secured, including if eminent domain was used;

(H) the impact of such proposal on staffing requirements; and

(I) other factors that the Commissioner or Administrator determines to be relevant.

(6) UNCONDITIONAL MONETARY DONATIONS.—A monetary donation shall be made unconditionally, although the donor may specify—

(A) the port of entry facility or facilities to be benefitted from such donation; and

(B) the timeframe during which such donation shall be used.

(7) SUPPLEMENTAL FUNDING.—Real or personal property (including monetary donations) or nonpersonal services donated pursuant to paragraph (1) may be used in addition to any other funding (including appropriated funds), property, or services made available for the same purpose.

(8) RETURN OF DONATIONS.—If the Commissioner or the Administrator does not use the real property or monetary donation donated pursuant to paragraph (1) for the specific port of entry facility or facilities designated by the donor or within the timeframe specified by the donor, such donated real property or money may be returned to the donor. No interest shall be owed to the donor with respect to any donation of funding provided under such paragraph (1) that is returned pursuant to this paragraph.

(9) SAVINGS PROVISION.—Nothing in this subsection may be construed to affect or alter the existing authority of the Commissioner or the Administrator to construct, alter, operate, and maintain port of entry facilities.

(g) ANNUAL REPORTS.—The Commissioner, in collaboration with the Administrator, shall annually submit to the Committee on Homeland Security and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Homeland Security and Governmental Affairs and the Committee on Environment and Public Works of the Senate a report on the pilot program and activities undertaken pursuant thereto in accordance with this Act.

(h) DEFINITIONS.—In this section—

(1) the term "private sector entity" means any corporation, partnership, trust, association, or any other private entity, or any officer, employee, or agent thereof;

(2) the term "Commissioner" means the Commissioner of U.S. Customs and Border Protection; and

(3) the term "Administrator" means the Administrator of General Services.

(i) ROLE OF GENERAL SERVICES ADMINISTRATION.—Under this section, collaboration with the Administrator of General Services is required only with respect to partnerships at land ports of entry.】

In 2015, the Department will continue implementation of the Rental Assistance Demonstration (RAD), authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55). Under RAD, Public Housing Authorities (PHAs) and other owners of rental properties assisted under the Public Housing, Moderate Rehabilitation (Mod Rehab), Rent Supplement (Rent Supp) and Rental Assistance Payment (RAP) programs are offered the option to convert their properties to long-term, project-based Section 8 contracts that can leverage private financing for capital improvements.

While the Department will continue to process no-cost conversions in 2015, the Budget requests \$10 million for a targeted expansion of RAD to Public Housing properties that cannot feasibly convert at existing funding levels and are located in high-poverty neighborhoods, including designated Promise Zones, where the Administration is supporting comprehensive revitalization efforts. This request will cover the incremental subsidy cost of converting approximately 5,000 Public Housing units, thereby increasing private investment in targeted projects and surrounding neighborhoods.

The Budget also includes the following proposals to facilitate additional no-cost conversions of HUD-assisted properties: (1) eliminates the 60,000 unit cap on Public Housing and Section 8 Mod Rehab conversions and extends the application deadline for such conversions to September 30, 2018; (2) makes Section 8 Mod Rehab Single Room Occupancy properties eligible for RAD; (3) extends the sunset date on conversions of Rent Supp, RAP and

Mod Rehab properties under the second component of RAD to September 30, 2016; and (4) authorizes the conversion of Rent Supp and RAP properties to PBRA contracts. These proposals are included in the general provisions at the end of this budget chapter.

#### TENANT-BASED RENTAL ASSISTANCE

("the Act" herein), not otherwise provided for, ~~[\$15,177,218,000]~~ \$16,045,000,000, to remain available until ~~[expended] September 30, 2017,~~ shall be available on October 1, ~~[2013] 2014~~ (in addition to the \$4,000,000,000 previously appropriated under this heading that became available on October 1, ~~[2013] 2014~~), and \$4,000,000,000, to remain available until ~~[expended] September 30, 2018,~~ shall be available on October 1, ~~[2014] 2015~~: *Provided*, That the amounts made available under this heading are provided as follows:

(1) ~~[\$17,365,527,000]~~ \$18,006,550,000 shall be available for renewals of expiring section 8 tenant-based annual contributions contracts (including renewals of enhanced vouchers under any provision of law authorizing such assistance under section 8(t) of the Act) and including renewal of other special purpose incremental vouchers: *Provided*, That notwithstanding any other provision of law, from amounts provided under this paragraph and any carryover, the Secretary for the calendar year ~~[2014] 2015~~ funding cycle shall provide renewal funding for each public housing agency based on validated voucher management system (VMS) leasing and cost data for the prior calendar year and by applying an inflation factor as established by the Secretary, by notice published in the Federal Register, and by making any necessary adjustments for the costs associated with the first-time renewal of vouchers under this paragraph including tenant protection, ~~[and] HOPE VI, and Choice Neighborhoods vouchers: Provided further,~~ That in determining calendar year ~~[2014] 2015~~ funding allocations under this heading for public housing agencies, including agencies participating in the Moving To Work (MTW) demonstration, the Secretary may take into account the anticipated impact of changes in *medical expense threshold*, targeting and utility allowances, on public housing agencies' contract renewal needs: ~~[Provided further,~~ That none of the funds provided under this paragraph may be used to fund a total number of unit months under lease which exceeds a public housing agency's authorized level of units under contract, except for public housing agencies participating in the Moving to Work (MTW) demonstration, which are instead governed by the terms and conditions of their MTW agreements: ~~] Provided further,~~ That the Secretary shall, to the extent necessary to stay within the amount specified under this paragraph (except as otherwise modified under this paragraph), pro rate each public housing agency's allocation otherwise established pursuant to this paragraph: *Provided further*, That except as provided in the following provisos, the entire amount specified under this paragraph (except as otherwise modified under this paragraph) shall be obligated to the public housing agencies based on the allocation and pro rata method described above, and the Secretary shall notify public housing agencies of their annual budget by the latter of 60 days after enactment of this Act or March 1, ~~[2014] 2015~~: *Provided further*, That the Secretary may extend the notification period with the ~~[prior written approval] notification~~ of the House and Senate Committees on Appropriations: *Provided further*, That public housing agencies participating in the MTW demonstration shall be funded pursuant to their MTW agreements and shall be subject to the same pro rata adjustments under the previous provisos: *Provided further*, That the Secretary may offset public housing agencies' calendar year ~~[2014] 2015~~ allocations based on the excess amounts of public housing agencies' net restricted assets accounts, including HUD held programmatic reserves (in accordance with VMS data in calendar year ~~[2013] 2014~~ that is verifiable and complete), as determined by the Secretary: *Provided further*, That public housing agencies participating in the MTW demonstration shall also be subject to the offset, as determined by the Secretary, from the agencies' calendar year 2015 MTW funding

## TENANT-BASED RENTAL ASSISTANCE—Continued

*allocation: Provided further*, That the Secretary shall use any offset referred to in the previous *two* provisos throughout the calendar year to prevent the termination of rental assistance for families as the result of insufficient funding, as determined by the Secretary, and to avoid or reduce the proration of renewal funding allocations: *Provided further*, That up to \$75,000,000 shall be available only: (1) for adjustments in the allocations for public housing agencies, after application for an adjustment by a public housing agency that experienced a significant increase, as determined by the Secretary, in renewal costs of vouchers resulting from unforeseen circumstances or from portability under section 8(r) of the Act; (2) for vouchers that were not in use during the 12-month period in order to be available to meet a commitment pursuant to section 8(o)(13) of the Act; (3) for adjustments for costs associated with HUD-Veterans Affairs Supportive Housing (HUD-VASH) vouchers; **[and]** (4) for public housing agencies that despite taking reasonable cost savings measures, as determined by the Secretary, would otherwise be required to terminate rental assistance for families as a result of insufficient funding: *Provided further*, That the Secretary shall allocate amounts under the previous proviso based on need, as determined by the Secretary; and (5) for adjustments in the allocations for public housing agencies that experienced a significant increase, as determined by the Secretary, in renewal costs as a result of participation in the Small Area Fair Rent demonstration;

(2) **[\$130,000,000]** \$150,000,000 shall be for section 8 rental assistance for relocation and replacement of housing units that are demolished or disposed of pursuant to section 18 of the Act, conversion of section 23 projects to assistance under section 8, the family unification program under section 8(x) of the Act, relocation of witnesses in connection with efforts to combat crime in public and assisted housing pursuant to a request from a law enforcement or prosecution agency, enhanced vouchers under any provision of law authorizing such assistance under section 8(t) of the Act, HOPE VI and Choice Neighborhood vouchers, mandatory and voluntary conversions, and tenant protection assistance including replacement and relocation assistance or for project-based assistance to prevent the displacement of unassisted elderly tenants currently residing in section 202 properties financed between 1959 and 1974 that are refinanced pursuant to Public Law 106-569, as amended, or under the authority as provided under this Act: *Provided*, That when a public housing development is submitted for demolition or disposition under section 18 of the Act, the Secretary may provide section 8 rental assistance when the units pose an imminent health and safety risk to residents: *Provided further*, That the Secretary may only provide replacement vouchers for units that were occupied within the previous 24 months that cease to be available as assisted housing, subject only to the availability of funds: **[Provided further**, That of the amounts made available under this paragraph, \$5,000,000 may be available to provide tenant protection assistance, not otherwise provided under this paragraph, to residents residing in low vacancy areas and who may have to pay rents greater than 30 percent of household income, as the result of (1) the maturity of a HUD-insured, HUD-held or section 202 loan that requires the permission of the Secretary prior to loan prepayment; (2) the expiration of a rental assistance contract for which the tenants are not eligible for enhanced voucher or tenant protection assistance under existing law; or (3) the expiration of affordability restrictions accompanying a mortgage or preservation program administered by the Secretary: *Provided further*, That such tenant protection assistance made available under the previous proviso may be provided under the authority of section 8(t) or section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(t)): *Provided further*, That the Secretary shall issue guidance to implement the previous provisos, including, but not limited to, requirements for defining eligible at-risk households within 120 days of the enactment of this Act;] *Provided further*, That any tenant protection voucher made available from amounts under this paragraph shall not be reissued by any public housing agency, except the replacement vouchers as defined by the Secretary by notice, when the initial family that received any such voucher no longer receives such voucher, and the authority for any public housing agency to issue any such voucher shall cease to exist: *Provided further*, That the Secretary, for the purpose under this paragraph, may use unobligated balances, including recaptures and carryovers, remaining from amounts appropriated in prior fiscal years under this heading for

*voucher assistance for nonelderly disabled families and for disaster assistance made available under Public Law 110-329;*

(3) **[\$1,500,000,000]** \$1,705,000,000 shall be for administrative and other expenses of public housing agencies in administering the section 8 tenant-based rental assistance program, of which up to **[\$15,000,000]** \$10,000,000 shall be available to the Secretary to allocate to public housing agencies that need additional funds to administer their section 8 programs, including fees associated with section 8 tenant protection rental assistance, the administration of disaster related vouchers, Veterans Affairs Supportive Housing vouchers, and other special purpose incremental vouchers: *Provided*, That no less than **[\$1,485,000,000]** \$1,695,000,000 of the amount provided in this paragraph shall be allocated to public housing agencies for the calendar year **[2014]** 2015 funding cycle based on section 8(q) of the Act (and related Appropriation Act provisions) as in effect immediately before the enactment of the Quality Housing and Work Responsibility Act of 1998 (Public Law 105-276): *Provided further*, That if the amounts made available under this paragraph are insufficient to pay the amounts determined under the previous proviso, the Secretary may decrease the amounts allocated to agencies by a uniform percentage applicable to all agencies receiving funding under this paragraph or may, to the extent necessary to provide full payment of amounts determined under the previous proviso, utilize unobligated balances, including recaptures and carryovers, remaining from funds appropriated to the Department of Housing and Urban Development under this heading from prior fiscal years, including special purpose vouchers, notwithstanding the purposes for which such amounts were appropriated: *Provided further*, That all public housing agencies participating in the MTW demonstration shall be funded pursuant to their MTW agreements, and shall be subject to the same uniform percentage decrease as under the previous proviso: *Provided further*, That amounts provided under this paragraph shall be only for activities related to the provision of tenant-based rental assistance authorized under section 8, including related development activities;

(4) **[\$106,691,000]** \$108,450,000 for the renewal of tenant-based assistance contracts under section 811 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8013), including necessary administrative expenses: *Provided*, That administrative and other expenses of public housing agencies in administering the special purpose vouchers in this paragraph shall be funded under the same terms and be subject to the same pro rata reduction as the percent decrease for administrative and other expenses to public housing agencies under paragraph (3) of this heading;

(5) \$75,000,000 for incremental rental voucher assistance for use through a supported housing program administered in conjunction with the Department of Veterans Affairs as authorized under section 8(o)(19) of the United States Housing Act of 1937: *Provided*, That the Secretary of Housing and Urban Development shall make such funding available, notwithstanding section 204 (competition provision) of this title, to public housing agencies that partner with eligible VA Medical Centers or other entities as designated by the Secretary of the Department of Veterans Affairs, based on geographical need for such assistance as identified by the Secretary of the Department of Veterans Affairs, public housing agency administrative performance, and other factors as specified by the Secretary of Housing and Urban Development in consultation with the Secretary of the Department of Veterans Affairs: *Provided further*, That the Secretary of Housing and Urban Development may waive, or specify alternative requirements for (in consultation with the Secretary of the Department of Veterans Affairs), any provision of any statute or regulation that the Secretary of Housing and Urban Development administers in connection with the use of funds made available under this paragraph (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective delivery and administration of such voucher assistance: *Provided further*, That assistance made available under this paragraph shall continue to remain available for homeless veterans upon turn-over; *Provided further*, That the Secretary may provide assistance provided under this paragraph to Indian tribes and tribally designated housing entities that are eligible to receive block grant assistance under the Native American Housing Assistance and Self-Determination Act of 1996, based on factors such as need, capacity,

and partnership with the local VA Medical Center or other entities in collaboration with the Department of Veteran Affairs, as determined by the Secretary to provide rental assistance for the benefit of homeless Native American veterans located on a reservation or other Indian areas; and

(6) The Secretary shall separately track all special purpose vouchers funded under this heading. (*Department of Housing and Urban Development Appropriations Act, 2014.*)

The 2015 Budget provides \$20 billion for the Tenant-Based Rental Assistance program (also known as the Housing Choice Voucher program). The Housing Choice Voucher program provides housing assistance to 2.2 million extremely low- to very low-income families to rent in the neighborhoods of their choice. This is the Federal government's largest and most income-targeted program for assisting extremely low and very low-income families to rent decent, safe and sanitary housing in the private market. About 2,350 state and local Public Housing Authorities (PHAs) administer the Housing Choice Voucher program.

The Budget provides sufficient funding for contract renewals to not only continue assistance for families anticipated to be under lease in 2014, including renewing over 14,000 vouchers for persons with disabilities, the Budget restores reductions in assisted housing units that resulted from the 2013 sequestration funding cut. In addition, the Budget includes \$75 million for 10,000 new vouchers for homeless veterans through the HUD-Veteran Affairs Supportive Housing (HUD-VASH) program that will contribute to the goal of ending homelessness among veterans by 2015. The Budget also allows HUD to allocate HUD-VASH funding to eligible, high capacity Native American Housing Block Grant recipients to specifically address needs of Native American homeless veterans on tribal lands. The Budget requests \$150 million for tenant protection vouchers (TPVs), which are provided when certain actions occur beyond the control of the residents, such as public housing demolition or disposition, or when landlords terminate their Project-Based Rental Assistance contracts. While HUD will continue to issue TPVs to protect residents from any adverse actions, the Budget requests new authority to ensure that the allocation of TPVs for housing conversions do not result in a net gain of affordable housing resources for a community that go beyond replacing vouchers for the loss of affordable units.

The Budget supports additional legislative reforms to HUD's core rental assistance programs, including: (1) Expanding the Moving to Work program to high capacity PHAs; (2) Allowing fixed-income families to recertify their incomes every three years; and (3) Increasing the threshold used to determine deductions for unreimbursed medical expenses from 3 to 10 percent of family income. In addition to these crosscutting reforms, the Budget proposes the following reforms to the Housing Choice Voucher program: (1) Improving the Project Based Voucher Program; (2) Addressing homelessness through expansion of the sponsor-based assistance model; and (3) Streamlining the process for establishing annual Fair Market Rents. The Administration also continues to improve the management of the Housing Choice Voucher program by developing the Next Generation Management System, which will overhaul and improve HUD information technology systems to better manage and administer the program. While some reforms are included in the general provisions at the end of this chapter, all others will be included in authorizing legislation to be transmitted to Congress in the Spring of 2014.

Until 2005, the Housing Certificate Fund provided funding to both the project-based and tenant-based components of the Section 8 program. Project-Based Rental Assistance and Tenant-Based Rental Assistance are now funded in separate accounts. The Housing Certificate Fund retains and recovers balances from previous years' appropriations, and uses those balances to support contract renewals, amendments, and performance-based contract administrators.

**PUBLIC HOUSING CAPITAL FUND**

For the Public Housing Capital Fund Program to carry out capital and management activities for public housing agencies, as authorized under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) (the "Act") **[\$1,875,000,000] \$1,925,000,000**, to remain available until September 30, **[2017] 2018: Provided**, That notwithstanding any other provision of law or regulation, during fiscal year **[2014] 2015** the Secretary of Housing and Urban Development may not delegate to any Department official other than the Deputy Secretary and the Assistant Secretary for Public and Indian Housing any authority under paragraph (2) of section 9(j) regarding the extension of the time periods under such section: **Provided further**, That for purposes of such section 9(j), the term "obligate" means, with respect to amounts, that the amounts are subject to a binding agreement that will result in outlays, immediately or in the future: **Provided further**, That up to \$8,000,000 shall be to support ongoing Public Housing Financial and Physical Assessment activities: **Provided further**, That up to \$5,000,000 shall be to support the costs of administrative and judicial receiverships: **Provided further**, That of the total amount provided under this heading, not to exceed \$20,000,000 shall be available for the Secretary to make grants, notwithstanding section 204 of this Act, to public housing agencies for emergency capital needs **[including safety and security measures necessary to address crime and drug-related**

activity as well as needs] resulting from unforeseen or unpreventable emergencies and natural disasters excluding Presidentially declared emergencies and natural disasters under the Robert T. The Budget proposes \$1.925 billion for the Public Housing Capital Fund, a formula program designed to address the capital and management improvement needs of Public Housing properties. This program preserves and enhances a valuable affordable housing resource that serves approximately 1.1 million low-income families. Of the amount requested, over \$1.8 billion will fund capital grants to Public Housing Authorities (PHAs). The balance includes: up to \$25 million for Jobs-Plus, an evidence-based strategy for increasing the employment and earnings of public housing residents; up to \$20 million for emergency capital needs resulting from non-Presidentially declared emergencies and natural disasters; up to \$8 million for financial and physical assessments of Public Housing and other HUD-assisted properties; and up to \$5 million for administrative and judicial receiverships to assist PHAs recovering from serious financial, physical, or management problems.

PUBLIC HOUSING OPERATING FUND

For [2014] 2015 payments to public housing agencies for the operation and management of public housing, as authorized by section 9(e) of the United States Housing Act of 1937 (42 U.S.C. 1437g(e)), [ \$4,400,000,000 : Provided, That in determining public housing agencies', including Moving to Work agencies', calendar year 2014 funding allocations under this heading, the Secretary shall take into account the impact of changes to flat rents on public housing agencies' formula income levels ] \$4,600,000,000. The Budget requests \$4.6 billion for the Public Housing Operating Fund, which provides subsidies to Public Housing Authorities (PHAs) to assist in funding the operating expenses of Public Housing units in accordance with Section 9(e) of the United States Housing Act of 1937. The Budget also proposes numerous legislative reforms to HUD's core rental assistance programs, including Public Housing. In addition to crosscutting reforms, which are summarized under the Tenant-Based Rental Assistance heading, the Budget includes two proposals specific to Public Housing: (1) provides all PHAs with full flexibility to use their operating and capital funds for any eligible expense under both programs; and (2) establishes a utilities conservation pilot to encourage PHAs to undertake energy conservation measures and reduce Federal costs. The first proposal is reflected in the general provisions at the end of this budget chapter while the second proposal will be included in authorizing legislation to be submitted to Congress in the spring of 2014.

The Budget proposes \$120 million for Choice Neighborhoods to continue the transformation of neighborhoods of concentrated poverty into sustainable, mixed-income neighborhoods with well-functioning services, schools, public assets, transportation, and access to jobs. The goal of the program is to transform distressed neighborhoods and improve the quality of life of current and future residents by coordinating and concentrating neighborhood investments from multiple sources. The Budget will fund 3-4 implementation grants and up to 20 planning grants.

Choice Neighborhoods also supports the Administration's Promise Zones initiative, which is creating partnerships between the Federal government, local communities and businesses to create jobs, increase economic activity, reduce violence and expand educational opportunities. The President announced the first five Promise Zones in January 2014 and will designate an additional 15 Zones in the year ahead. The Budget includes companion investments of \$100 million in the Department of Education's Promise Neighborhoods program and \$29.5 million in the Department of Justice's Byrne Criminal Justice Innovation Grants program, as well as tax incentives to promote investment and economic growth in the Zones.

The HOPE VI program, in coordination with funding from the Public Housing Capital Fund, has accomplished its goal of contributing to the demolition of approximately 100,000 severely distressed Public Housing units. The Budget proposes no additional funds for this program. Instead, the Budget builds on the success of HOPE VI with the Choice Neighborhoods program, which makes a broad range of transformative investments in high-poverty neighborhoods where Public Housing and other HUD-assisted housing is located.

**FAMILY SELF-SUFFICIENCY**

For the Family Self-Sufficiency program to support family self-sufficiency coordinators under section 23 of the United States Housing Act of 1937, to promote the development of local strategies to coordinate the use of assistance under sections [8(o)] 8 and 9 of such Act with public and private resources, and enable eligible families to achieve economic independence and self-sufficiency, \$75,000,000: *Provided*, That the Secretary may, by Federal Register notice, waive or specify alternative requirements under subsections b(3), b(4), b(5), or c(1) of section 23 of such Act in order for public housing agencies, owners and the Department to administer and to facilitate the operation of a unified self-sufficiency program for individuals receiving assistance under different provisions of the Act, as determined by the Secretary. The Budget requests \$75 million for a consolidated Family Self-Sufficiency (FSS) Program to help Housing Choice Voucher, Public Housing, and Project-Based Rental Assistance (PBRA) residents achieve self-sufficiency and economic independence. The newly consolidated FSS program is designed to provide service coordination through community partnerships that link assisted residents with employment assistance, job training, child care, transportation, financial literacy, and other supportive

services. The funding will be allocated through one competition to eligible Public Housing Authorities (PHAs) and PBRA owners to support service coordinators. The consolidated FSS program for Housing Choice Voucher and Public Housing families enables PHAs to more uniformly serve both programs' residents. Expanding eligibility to PBRA properties gives interested PBRA owners the ability to work with their local PHAs with existing FSS programs and/or implement their own FSS program to serve workable families in this asset-building program. In addition, opening participation to PBRA owners would support Public Housing residents already enrolled in the FSS program during conversions through the Rental Assistance Demonstration (RAD).

**NATIVE AMERICAN HOUSING BLOCK GRANTS**

For the Native American Housing Block Grants program, as authorized under title I of the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) (25 U.S.C. 4111 et seq.), \$650,000,000, to remain available until September 30, [2018] 2019: *Provided*, That, notwithstanding the Native American Housing Assistance and Self-Determination Act of 1996, to determine the amount of the allocation under title I of such Act for each Indian tribe, the Secretary shall apply the formula under section 302 of such Act with the need component based on single-race census data and with the need component based on multi-race census data, and the amount of the allocation for each Indian tribe shall be the greater of the two resulting allocation amounts: *Provided further*, That of the amounts made available under this heading, \$3,000,000 shall be contracted for assistance for national or regional organizations representing Native American housing interests for providing training and technical assistance to Indian housing authorities and tribally designated housing entities as authorized under NAHASDA; and \$2,000,000 shall be to support the inspection of Indian housing units, contract expertise, training, and technical assistance in the training, oversight, and management of such Indian housing and tenant-based assistance, including up to \$300,000 for related travel: *Provided further*, That of the amount provided under this heading, \$2,000,000 shall be made available for the cost of guaranteed notes and other obligations, as authorized by title VI of NAHASDA: *Provided further*, That such costs, including the costs of modifying such notes and other obligations, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: *Provided further*, That these funds are available to subsidize the total principal amount of any notes and other obligations, any part of which is to be guaranteed, not to exceed \$16,530,000: *Provided further*, That [the Department will notify grantees of their formula allocation within 60 days of the date of enactment of this Act] *notwithstanding section 302(d) of NAHASDA, if on January 1, 2015, a recipient's total amount of undisbursed block grants in the Department's line of credit control system is greater than three times the formula allocation it would otherwise receive under this heading, the Secretary shall adjust that recipient's formula allocation down by the difference between its total amount of undisbursed block grants in the Department's line of credit control system on January 1, 2015, and three times the formula allocation it would otherwise receive: Provided further, That grant amounts not allocated to a recipient pursuant to the previous proviso shall be allocated under the need component of the formula proportionately among all other Indian tribes not subject to an adjustment: Provided further, That the two previous provisos shall not apply to any Indian tribe that would otherwise receive a formula allocation of less than \$5,000,000: Provided further, That to take effect, the three previous provisos do not require the issuance of any regulation. The Budget proposes \$650 million for the Native American Housing Block Grant program. This program allocates funds on a formula basis to Indian tribes and their designated housing entities to help them address housing and other needs within their communities. In 2013, out of a population of 1.6 million American Indians and Alaska Natives in block grant formula areas, it is estimated that more than 100,000 households were either overcrowded or lacked adequate plumbing or kitchen facilities.

For several reasons, including the significant unmet needs in Indian Country, it is important that grantees spend program funds in a timely manner and avoid accumulating excessive undisbursed balances from prior-year grants. The Budget proposes to withhold funding from any grantee that, on January 1, 2015, has a total undisbursed balance greater than three times the funding allocation it would otherwise receive in 2015. This proposal will not affect grantees with funding allocations below \$5 million, and any funds withheld will be allocated among all other grantees in accordance with the need component of the formula.

The Budget also proposes several legislative reforms to improve the allocation of grant funds and strengthen program oversight, including: (1) phasing out of the formula homeownership units developed under the U.S. Housing Act of 1937; (2) strengthening HUD's authority to temporarily suspend recipients' access to grant funds to ensure the lawful expenditure of those funds; and (3) clarifying HUD's authority to take back funds distributed based on inaccurate information. These reforms will be transmitted to Congress in the spring of 2014.

Within the total amount requested, \$2 million is for the Title VI loan guarantee program. The Title VI program provides a Federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities. Combined with \$1 million in prior-year funds, the amount requested is sufficient to guarantee \$27 million in loans.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans. The 2015 Budget requests \$13 million for this program.

The Indian Housing Loan Guarantee program (also known as the Section 184 program) provides access to private mortgage financing for Indian families, Indian tribes, and their tribally designated housing entities who otherwise could not acquire such financing because of the unique legal status of Indian trust land. The Budget provides \$8 million to support additional loan guarantees and administrative systems support.

The 2013 Appropriations Act gave HUD authority to increase fees within this program, and HUD is exercising this authority in 2014 by increasing the upfront fee by 50 basis points to 1.5 percent. To ensure that budgetary resources are sufficient to meet projected demand for the program, HUD will also implement an annual fee of 15 basis points in 2015.

The Budget also includes a number of statutory changes to reduce program losses and ensure its long-term viability, including requirements for participating lenders to: (1) consider loan modification options for borrowers; and (2) indemnify HUD for insurance claims paid on any loans that are found not to meet the Department's guidelines. In addition, the Budget updates several statutory program definitions to align them with the Native American Housing Assistance and Self-Determination Act of 1996. All proposed statutory changes are included in the general provisions at the end of this budget chapter.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The Native Hawaiian Housing Loan Guarantee program (also known as the Section 184A program), provides access to private mortgage financing to Native Hawaiian families who are eligible to reside on the Hawaiian Home Lands and who otherwise could not acquire such financing because of the unique legal status of the Hawaiian Home Lands. Because the program has sufficient carryover funds, the 2015 Budget does not provide any new credit subsidy budget authority.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 2001 and beyond (including modifications of guarantees that resulted from obligations in any year). The 2015 Budget provides \$332 million for the Housing Opportunities for Persons with AIDS (HOPWA) program, the only Federal program dedicated to address the housing needs of low-income Americans living with HIV and AIDS. HOPWA funding provides States and localities with resources to devise long-term comprehensive strategies for planning and providing housing and supportive services to meet the housing needs of persons living with HIV and AIDS and their families. HOPWA funds have been demonstrated to help reduce the risk of homelessness, increase housing stability, and improve access to HIV care and health outcomes for program participants.

Ninety percent of HOPWA funds are distributed to States and eligible metropolitan areas according to a formula, which is based on cumulative AIDS cases. The remaining ten percent are awarded competitively to States, local governments, and private nonprofit entities for projects of national significance and for projects in non-formula areas. However, the HOPWA formula does not reflect the current nature and distribution of the epidemic. To modernize the program, the Administration is proposing an updated formula based on cases of persons living with HIV and adjusted for an area's fair market rent and poverty rates, focusing HOPWA funds on areas that have the most need. The proposal also includes several changes that will allow better targeting of HOPWA resources and more flexibility for grantees to provide the most cost-effective, timely interventions.

HUD is working in partnership with Federal agencies through the HIV Care Continuum to improve outcomes that promote greater achievements in viral suppression through the coordination and alignment of housing support with medical care for people living with HIV. Furthermore, HUD is placing greater emphasis on coordinating local planning and service delivery of HOPWA housing resources with local homeless Continuums of Care. This effort is expected to increase local collaborations in the delivery of housing and services, and reduce duplication of local systems of support.

Within the Community Development Fund, the Budget includes \$2.8 billion for the Community Development Block Grant (CDBG) program and \$70 million for the Indian CDBG program.

The CDBG program provides over 1,200 flexible annual formula grants to States, local governments, and Insular Areas to benefit mainly low-to moderate-income persons, and support a wide range of community and economic development activities, such as public infrastructure improvements (approximately 33 percent of all CDBG funds), housing rehabilitation and construction (approximately 25 percent of funds), job creation and retention, and public services (e.g., child care). 70 percent of the CDBG

COMMUNITY DEVELOPMENT FUND—Continued

formula grants are distributed to mainly urban areas (entitlement communities), and 30 percent are distributed to the States (non-entitlement communities).

In August 2014 the CDBG program will celebrate its 40th anniversary, but in that time, the impact of the CDBG program has been uneven. Adjusted for inflation, recent appropriations represent only about 25 percent of the 1978 funding level, while the number of grantees has doubled. In recognition of the anniversary and these challenges, there is a need to reevaluate the program, its rules and its design to ensure that it provides targeted benefits to the nation's communities and, more specifically, to low- and moderate-income populations.

In support of these goals, in 2013 HUD undertook an outreach effort titled "Moving CDBG Forward" to provide CDBG stakeholders the opportunity to assess One CPD technical assistance, the program itself, and to recommend improvements. Recommendations gathered through the process, HUD's expertise administering the program and research conducted by HUD's Office of Policy Development and Research form the basis for the Department's legislative package of CDBG reforms that will be transmitted in the spring of 2014. This legislative package will focus on reforms that strengthen the CDBG program; help grantees target funding resources to areas of greatest need; enhance program accountability; synchronize critical program cycles with the consolidated plan cycle; reduce the number of small grantees; and provide more options for regional coordination, administration, and planning. Regional coordination will allow grantees to achieve administrative savings and pool resources to make strategic investment decisions.

The Budget also includes \$70 million for the Indian Community Development program. This program provides grants to help develop viable Indian and Alaska Native Communities with decent housing, a suitable living environment, and economic opportunities, primarily for low- and moderate-income persons. Within this account, \$10 million is provided to address mold issues in Indian housing, which will be distributed through a national competition.

This account also reflects \$15.2 billion in CDBG funding (post-sequestration) appropriated by the Disaster Relief Appropriations Act, 2013 (Public Law 113–2). These funds are intended primarily to respond to the effects of Hurricane Sandy that impacted the Atlantic Coast in late October 2012, but are also available to respond to other significant Presidentially-declared disasters that occurred in calendar years 2011, 2012, and 2013. Other amounts reflected in this account include prior-year CDBG disaster supplemental funding, as well as funds provided by the 2009 American Recovery and Reinvestment Act (\$1 billion in CDBG formula grants and \$2 billion for Neighborhood Stabilization Program II grants).

[(RESCISSION)]**

[Unobligated balances, including recaptures and carryover, remaining from funds appropriated to the Department of Housing and Urban Development under this heading are hereby permanently rescinded.] (*Department of Housing and Urban Development Appropriations Act, 2014.*)

Introduced in 1993, the Empowerment Zone (EZ), Enterprise Community (EC), and Renewal Community (RC) Initiatives sought to reduce unemployment and generate economic growth through the designation of Federal tax incentives and award of grants to distressed communities. The tax incentives for ECs and RCs have

both expired, while EZ tax incentives were extended to December 31, 2013 by the American Taxpayer Relief Act of 2012. In 2014, all unobligated balances, including recaptures and carryover, were rescinded.

The 2015 Budget requests no funding for the Brownfields Economic Development Initiative (BEDI), which was a competitive grant program designed to assist cities with the redevelopment of brownfield sites for the purposes of economic development and job creation. Local governments have access to other public and private funds, including Community Development Block Grant (CDBG) funds, which can serve similar purposes.

The Budget requests \$950 million for HOME, with up to \$10 million set-aside for the Self-help Homeownership Opportunity Program (SHOP). The HOME Investment Partnerships Program provides flexible annual formula grant assistance to States and units of local government to increase the supply of affordable housing and expand homeownership for low- to very-low income persons through a wide range of activities that build, buy, and/or rehabilitate affordable housing. Sixty percent of the formula grant funds is awarded to participating local governments and 40 percent is awarded to states. Projects funded by HOME often leverage private dollars and are used in conjunction with the Low-Income Housing Tax Credit (LIHTC), Community Development Block Grant, and local funds. For example, 65 percent of about 178,000 completed HOME assisted rental units were part of awarded LIHTC projects from fiscal years 2009 through 2013. Over time, HOME funding is estimated to result in the production of almost 36,000 units of affordable housing through new construction, rehabilitation, and/or acquisition. It is also estimated

that communities will use a portion of their funding to support tenant-based rental assistance for almost 8,000 units.

The 2015 Budget also proposes statutory changes that would allow recaptured Community Housing Development Organization funds to be reallocated by formula; establish a single qualification threshold of \$500,000 irrespective of the appropriation amount; revise the current "grandfathering" provision so that participating jurisdictions that fall below the threshold three years out of a five-year period are ineligible for direct formula funds; and facilitate eviction of HOME rental unit tenants who pose an imminent threat to other residents' safety. When implemented, these changes will improve the targeting focus and effectiveness of the overall administration of the program.

SHOP is a competitive grant program that provides funds to increase the ability of non-profit organizations to assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their homes. Communities can further leverage SHOP grants by using other sources of funding, including HOME funds, which can also be used for sweat equity projects. The 2015 Budget also proposes statutory changes that would improve the administration of the SHOP program. These include authorization to allow HUD to develop program regulations over five pages long, establishing a standard grant term of 36 months, establishing a deadline for completion of SHOP units, and explicitly naming planning, administrative, and management costs as eligible activities.

The Housing Trust Fund was originally authorized in the Housing and Economic Recovery Act of 2008 (Pub. L. 110-289) under section 1338 of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (U.S.C. 1301 et. seq.) with a dedicated funding stream from assessments on Fannie Mae and Freddie Mac. However, the Federal Housing Finance Agency, the regulator for Fannie Mae and Freddie Mac, has indefinitely suspended these assessments.

**HOUSING TRUST FUND—Continued**

The Budget proposes a \$1 billion mandatory appropriation to capitalize the Housing Trust Fund. The purpose of the Housing Trust Fund is to provide grants to States to increase and preserve the supply of affordable rental housing and homeownership opportunities for extremely low- and very low-income families. This program is similar to HOME, but is more income targeted. Funds will be distributed by formula to States or State-designated entities to be used primarily for construction, preservation, and rehabilitation of affordable rental housing, with up to ten percent of the funding for similar eligible activities that support homeownership. Of the total amounts made available, not less than 75 percent shall be used to benefit extremely low-income households, for whom the shortage of affordable housing is most acute. Over time, the funding provided for the Housing Trust Fund in 2015 is expected to produce approximately 16,000 affordable units using a mix of funding sources, including other public funds, tax credits, and private debt.

**CAPACITY BUILDING**

For the second, third, and fourth capacity building activities authorized under section 4(a) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note), \$20,000,000, to remain available until September 30, 2016.

The 2015 Budget provides \$20 million for the Capacity Building for Community Development and Affordable Housing program, which is authorized by Section 4 of the HUD Demonstration Act of 1993. The Capacity Building program provides grants to national intermediaries to develop, enhance, and strengthen the technical and administrative capabilities of community development corporations to carry out community development and affordable housing activities for low- and moderate-income persons that support and address local needs and priorities. This program was previously funded as a part of the Self-Help and Assisted Homeownership Opportunity Program account.

The Neighborhood Stabilization Program (NSP) was first authorized by the Housing and Economic Recovery Act of 2008 (HERA) and funded at \$3.92 billion. In response to the foreclosure crisis, HERA directed HUD to develop a formula to distribute the funds to State and local governments with the greatest need. Grantees were allowed to use NSP funds for a number of eligible activities, including establishing financing mechanisms; purchasing and rehabilitating abandoned or foreclosed properties; establishing land banks; demolishing blighted structures; and redeveloping vacant or demolished property.

The American Recovery and Reinvestment Act of 2009 (ARRA) made several changes to the NSP program as enacted by HERA and appropriated an additional \$2 billion in funding for the NSP program. The ARRA funding for the second round of NSP funding (NSP2) is reflected within the Community Development Fund account.

The Dodd-Frank Financial Reform and Consumer Protection Act of 2010 (Dodd-Frank Act) appropriated an additional \$1 billion for a third iteration of NSP (NSP3) in July 2010. As of January 2014, NSP 3 grantees had expended 80 percent of funds. Most grantees intend to expend 100 percent of their NSP3 grant funds by March 31, 2014, and HUD will closely monitor their performance and provide technical assistance or implement sanctions as appropriate.

The Budget proposes \$15 billion in mandatory funding for Project Rebuild which would build upon the success of the NSP program and expand opportunities for grantees to address abandoned and foreclosed properties. Funds will be distributed via formula to State and local governments as well as competitively to governmental, non-profit and for-profit entities. Building upon proven approaches, Project Rebuild will bring in expertise and capital from the private sector, increase eligibility of commercial properties, focus on property improvements, expand innovat-

ive solutions like land banks, and fund job training programs to strengthen local workforce capacity. Collectively, these programs will not only create construction and other jobs but will help reduce blight and crime, foster economic development, stabilize housing prices and neighborhoods, and help worst-affected communities turn the corner to recovery.

The Homeless Assistance Grants account provides funds for the Emergency Solutions Grant (ESG) and Continuum of Care (CoC) programs. These programs, which award funds through formula and competitive processes, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending homelessness—particularly chronic homelessness—through the development of local plans.

The 2015 Budget provides \$2.406 billion for a wide range of activities to assist homeless persons and prevent future occurrences of homelessness. HUD estimates it will use \$2.184 billion for competitive renewals and new permanent supportive housing in the CoC program and \$215 million for ESG. The Budget also includes \$7 million for the National Homeless Data Analysis Project.

The 2015 Budget makes significant progress toward ending homelessness by supporting the goals of the Federal Strategic Plan to Prevent and End Homelessness which was published by the U.S. Interagency Council on Homelessness in 2010. Supported by the collection of robust data and using best practices from across the country, the Budget sets a path for achieving the Administration's ambitious goals of ending Veterans homelessness by 2015 and ending chronic homelessness by 2016.

In 2015, HUD will continue the implementation of the McKinney-Vento Act as amended by the HEARTH Act.

This program was created by the Supplemental Appropriations Act, 2008 (P.L. 110-252), and provided \$73 million for permanent supportive housing assistance as referenced in the Road Home Program of the Louisiana Recovery Authority (LRA). Of the total amount appropriated, \$50 million was for permanent supportive housing, serving approximately 1,000 homeless individuals and families living with disabilities. The LRA is eligible to apply for Homeless Assistance Grants to renew this assistance. Addition-

ally, this account provided \$23 million in project-based rental assistance vouchers to LRA to support an estimated 2,000 elderly and disabled disaster victims, as authorized. Beginning in 2010, these vouchers have been renewed within the Tenant-Based Rental Assistance account upon the termination of the original subsidy.

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs, all of which are no longer active. For example, the Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities but has since ceased to originate new loans for over 20 years ago. The operational expenses are financed from a permanent, indefinite appropriation to administer the remaining repayments of loans and recaptures in the portfolio. Annually, any remaining unobligated balances in the account are returned as a dividend to the Treasury.

The Community Development Loan Guarantee program (Section 108) supports economic development projects, housing rehabilitation, and the rehabilitation, construction or installation of public facilities for the benefit of low- to moderate-income persons or to aid in the prevention of slums. The 2015 Budget increases the guaranteed loan limit to \$500 million, but does not request credit subsidy for the program. The Budget requires HUD to collect fees to offset credit subsidy costs such that the program operates at a zero credit subsidy cost. The Budget also proposes legislative changes to the Housing and Community Development Act of 1974 to align to the new fee structure. Carryover loan guarantee credit subsidy in this account will continue to be used until exhausted.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the loan guarantees committed since 1992, including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year. The subsidy amounts are estimated on a present value basis.

The Budget requests \$9.746 billion for Project-Based Rental Assistance (PBRA), of which \$400 million is requested as an advance appropriation to become available in 2016. The PBRA program assists approximately 1.2 million extremely low- to low-income households in obtaining decent, safe, and sanitary housing in private accommodations. PBRA serves families, elderly and disabled households and provides transitional housing for the

homeless. Through this funding, HUD supports approximately 17,400 contracts with private owners of multifamily housing by paying the difference between what a household can afford, generally 30 percent of its eligible income, and the approved market-based rent for a housing unit.

The Budget shifts funding for PBRA contracts to a calendar year cycle, which is consistent with current practice in the Tenant-Based Rental Assistance and Public Housing programs and should result in more predictable funding cycles in future years. HUD does not expect this new funding method to have a significant impact on tenants or other stakeholders because there is no change in contract terms or duration.

The Budget proposes legislative reforms to HUD's core rental assistance programs, including PBRA. In addition to these crosscutting reforms, which are summarized under the Tenant-Based Rental Assistance heading, the Budget includes the following proposals that are specific to the PBRA program: (1) establishes a demonstration allowing HUD to enter multi-year agreements to repay private investors who provide upfront funding for energy efficiency retrofits of HUD-assisted housing; and (2) amends the Low-Income Housing Preservation and Resident Homeownership Act (LIHPRHA) to align prepayment and owner distribution policies in properties governed by LIHPRHA with other PBRA-assisted properties in order to facilitate preservation transactions. While some proposals are included in the general provisions at the end of this chapter, all others will be included in authorizing legislation to be transmitted to Congress in the Spring of 2014.

Finally, the Budget proposes to expand eligibility for the Family Self Sufficiency (FSS) program to PBRA properties, and to allow certain properties in the Other Assisted Housing account to convert to PBRA via the Rental Assistance Demonstration (RAD). More information on these proposals is available under the FSS and RAD headings.

Program activities include the following:

**Contract Renewals and Amendments.**—These activities provide funding for HUD to renew expiring contracts and amend contracts that have not expired but require additional funding for HUD to meet remaining payment obligations. Appropriations for these activities are supplemented with recoveries of excess balances remaining on expired contracts that utilized less than anticipated resources during their initial terms.

**Contract Administrators.**—This activity funds the local level administration of the program through HUD agreements with performance-based contract administrators. These entities, which are typically public housing authorities or state housing finance agencies, are responsible for conducting on-site management reviews of assisted properties; adjusting contract rents; reviewing, processing, and paying monthly vouchers submitted by owners; renewing contracts with property owners; and responding to health and safety issues at properties. The Budget requests up to \$210 million for this purpose.

## HOUSING FOR THE ELDERLY

For amendments to capital advance contracts for housing for the elderly, as authorized by section 202 of the Housing Act of 1959, as amended, and for project rental assistance for the elderly under section 202(c)(2) of such Act, including amendments to contracts for such assistance and renewal of expiring contracts for such assistance for up to a 1-year term, and for senior preservation rental assistance contracts, as authorized by section 811(e) of the American Housing and Economic Opportunity Act of 2000, as amended, and for supportive services associated with the housing, [ \$383,500,000 ] \$440,000,000 to remain available until September 30, [ 2017 ] 2018: *Provided*, That of the amount provided under

Since 1959, the Housing for the Elderly program (Section 202) has supported the construction and operation of supportive housing for very low-income elderly households, including frail elderly. The Budget provides \$350 million to renew and amend operating subsidy contracts for existing Section 202 housing, \$70 million to support service coordinators who work on-site to help residents obtain critical services, such as benefit counseling, and \$20 million for new supportive housing units. HUD is implementing changes authorized by the Consolidated Appropriations Act, 2014 that create a new generation of Section 202 housing with supportive services targeted at populations most in need of affordable housing. HUD will provide assistance to States to fund housing projects in coordination with state housing and health care priorities. Funded projects must be leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, with Section 202 funds used only for operating assistance. The Budget also continues authorities to make better use of existing resources. Using these, HUD will identify residual receipts collections, recaptures, and other unobligated balances to redirect as additional investments in housing for the elderly.

**HOUSING FOR PERSONS WITH DISABILITIES**

Since 1992, the Housing for Persons with Disabilities program (Section 811) has supported the development of supportive housing for very low-income people with disabilities. The Budget provides \$135 million to renew and amend operating subsidy contracts for existing Section 811 housing, and \$25 million for new Project Rental Assistance (PRA) awards to state housing agencies. The latter will fund units that serve extremely low-income tenants with disabilities transitioning out of institutions, tenants with disabilities at high risk of institutionalization, or tenants with disabilities experiencing homelessness or at high risk of homelessness. HUD will continue to fund supportive housing projects in coordination with state housing and health care priorities. PRA projects must be leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, and only require Section 811 for operating assistance. Section 811 allows for States to leverage community-based care, to affirmatively

address legal requirements for integrated housing, and to provide a platform for disabled persons to live independently in integrated community-based settings.

The Budget also continues authorities to make better use of existing resources. Using these, HUD will identify residual receipts collections, recaptures, and other unobligated balances to redirect as additional investments in PRA awards.

The Housing Counseling Assistance Program provides comprehensive housing counseling services to eligible homeowners and tenants through grants, oversight, technical assistance and training to non-profit intermediaries, state governmental entities, and other agencies with a local or national presence. Eligible counseling activities include pre- and post-purchase education, personal financial management, reverse mortgage counseling,

foreclosure prevention, loss mitigation, homelessness prevention, and rental counseling. The objectives of the Housing Counseling program include overcoming barriers to stable and affordable housing, expanding homeownership opportunities, preventing foreclosure, and deterring discrimination, scams and fraud. In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Housing Counseling Assistance Program will implement and oversee the individual testing and certification of all housing counselors providing HUD-approved counseling and will launch the Office of Housing Counseling Federal Advisory Committee. The 2015 Budget includes \$60 million for this program, the bulk of which funds grants to HUD-approved Housing Counseling agencies for direct services.
